

Table of Contents

Preface

Chapter 1: Materials for Energy Storage and Energy Conversion Devices

Enhanced Cyclic Performance of Lithium-Ion Battery Based on Anthraquinone/SBA-15 Composite Cathode Prepared via Ultra-Sonication	3
W.H. Liu, A. Bolag, Y.C. Sun and T.N. Bao	
Effect of Rare Earth Ion Doping on the Performance of Lithium-Rich Cathode Materials for Lithium-Ion Batteries	11
H. Wu, W. Li, X.T. Wang, B. Liao, O. Tegus and S.Q. Bator	
The Effect of Mono-Halogenation on the Performance of Anthraquinone Cathode in Lithium-Ion Batteries	25
X. Hong, A. Bolag, W.H. Liu and T.N. Bao	
The Effect of Ethanol Treatment of PEDOT:PSS Hole Transport Layer on the Performance of P3HT: PCBM-Based Solar Cells	33
H. Alata, H. Lian, J. Ning, A. Bolag, N. Gerile and O. Tegus	
Rice Straw-Derived Biochar Electrode for Sustainable Energy Storage Applications	39
W.O. Makinde, M.A. Hassan, G. Guan and A.S.G. Khalil	

Chapter 2: Functional Materials

Carbon Footprint in Bovine Fat Biodiesel Synthesis - Comparison Using Methanol or Ethanol	49
M. Córdova, O. Cabrera, O. Ruíz and E. Barreno-Avila	
Performance Assessment of Basic Oxygen Furnace Slag (BOFS) as an Ice-Melting Abrasive Material	57
S. Sandybay, I. Orynbassarov, C.S. Shon, D. Zhang and J.R. Kim	
Experimental Study of Damage Energy on the Bow of a Vessel with Second-Generation Viscoelastic Layers for the Galápagos Islands	65
P. Townsend, J.J. Zamora-Zamora, W.G. Arias Pilco and J.C. Suárez-Bermejo	
Optimizing Lasing Parameters for Fabricating an Efficient Flexible Electrothermal Heater Based on Laser-Induced Graphene	73
G. Nkamuhebwa, A.A. El-Moneim, H.A. Ali Hassan, T. Tsuchiya and M.A. Hassan	

Chapter 3: Materials and Technologies for Water and Wastewater Treatment

Structure and Magnetic Properties of Fe₃O₄/C Composites Synthesized from Wheat Straw	83
I. Bordun, M. Malovanyy, N. Nahurskyi, A. Borysiuk and E. Szymczykiewicz	
Qualities of Regenerated Mixtures of Adsorbents	93
M. Malovanyy, H. Sakalova, T. Vasyllynch, N. Beznosiuk and G. Krusir	
Study of the Ion-Exchange Capacity of Clinoptilolite for Copper Ions under Ideal Displacement Conditions in the Dynamic Mode	101
M. Malovanyy, Z. Odnorih, I. Tymchuk and W. Lutek	
CTAB-Si Nanoparticles Derived from Rice Husk Ash for Nitrate Ions Removal in Simulated Wastewater	109
M.R.D. Danico, R.V. Maulion, A. Llanes, L.C.B. Llave and B.M. Magwari
