

Table of Contents

Preface, Sponsors and Committees

Effects of K_2HPO_4 on Fermentative Biohydrogen Production of Biohydrogenbacterium R3 Sp.nov.

Y.B. Lin, H. Chen and L.R. Yue 1

Effect of Glutinous Rice Paste on Compressive Strength of Lime-Stabilized Soil

H.T. Peng, Q. Zhang, N.S. Li and D.F. Wang 5

An Experimental Comparison of Compressive Strengths of Soils Stabilized with Enzyme and Ground Quicklime

H.T. Peng, H.T. Su, X.P. Zhang and J. Wang 9

Research on the Corrosion Resistance of Manganese Slag Cement Stabilized Macadam Base

F. Qin, Z.B. He and Q.N. Huang 13

Research on Residential District Energy-Saving Plan of Villages and Small Towns

B. Gao, Y. Zhou, H. Li and Y.T. Huo 19

Administering and Comprehensive Utilization of Ash and Slag in Utility Hoiler

H.Q. Bao, C.T. Wang and N. Zhang 23

Impact of Rubber Particles on Heat-Shielding Property of Bridge Deck Pavement

S. Tian, T. Zhang and W.F. Li 27

The Parameter Assessment for Concrete Mixing Slag Powder Performance of Anti-Sulfate Erosion

H.X. Qiao, H.F. Yu and Z.M. He 31

3B Rapid Transit: Yangzhou's Ecology-Based Urban Development Research

Y.J. Zhu 36

The Optimum Road Length in the Container Port

S.Y. Li 40

An Analysis on the Energy Conservation and Environmental Protection Facilities in Shanghai Expo

X. Zhao 46

Application of a New Asphalt Pavement Maintenance Agent on Yuhe Road of Chongqing

L.P. Qin and W.R. Huang 49

Energy-Saving Measures of Architectural Design

Y.F. Huang 54

The Holistic Urban Planning Approach of Urban Sustainable Development

H. Xu 58

A Review of Construction Waste Treatment in China

L.B. Zhu and W. Hao 62

Sulfate Resistance of Concrete under Restrained Condition

Z.H. Li, S.R. Feng and C. Su 67

Analysis for Energy Savings Potential and Economics of Combined Air-Conditioning System with Temperature and Humidity Decoupled Treatment

Z.C. Zhao, D.H. Zhang and Y.P. Chen 71

Study on Fracture Toughness of Cement Treated Aggregate

X.Y. Hou, P. Zhang and M.E. Zhang 76

Study on the Optimization of Depth-Span Ratio Design for Continuous Rigid Frame Bridge Girder

L. Sun, X.W. Hao and Y.X. Yang 80

Implementing Sustainable Management in Construction Industry

H. Hong, S. Wang and Z.Z. Wu 85

Using Renewable and Recyclable Materials in Planning Green Building

S. Sun, Z. Fang and J.L. Chen 89

On Natural Coloration of Concrete in Power Plant Construction

J.Q. Huang and Y. Xu 93

Research on Planning for Streetscape along National Highway

W.H. Zheng 97

Building Energy Consumption Prediction Evaluation Model N. Li, J. Zhao and N. Zhu	101
How to Operate Energy-Saving Technologies of the Classroom in Hot Summer and Cold Winter Zone W. Shi and J. Du	106
Analysis of Energy-Saving Design of Glass Curtain Wall in the Terminal K.X. Liu, N. Zhu, Z. Tian and M.L. Wang	110
Ecological Design Strategies and Feasibility Analysis on Structure of Mobile Building in the Mountain Area J. Cao, J.H. Yu and Y. Liu	114
Research on Influence Factors of Cooling Tower Performance M.L. Wang, Z. Tian and K.X. Liu	119
Synthesis of N-(3-Rosin Acyloxy-2-Hydroxyl) Propyl-N,N Diethanolamine and its Anti-Fungal Activity T. Liang, S.Y. Li, S.J. Li and L.J. Zhang	124
Experimental Research of Testing Methods for Vibration Characteristics N.R. Bu, S.L. Zhang and W.L. Cui	128
Numerical Simulation and Analysis on the Heat Transfer of the Vertical Ground Heat Exchanger in Hydrous Soil Y.Y. Huang, L. Zhang, G.M. Chen and X.H. Han	134
Application on the Stratified Air Conditioning System with Low Velocity in the Main Hall of the Temple Y.Y. Huang, L. Zhang and X.H. Han	141
Study on Energy-Saving Renovation of Existing Heating Masonry-Concrete Residential Buildings H. Guo, M.F. Su and X.J. Jin	147
Experimental Study on Frost Resistance Durability of Concrete with Intensified Recycled Aggregates W.G. Chai, W.L. Li and W.X. Gao	152
Study to Wood Electromagnetic Shielding Composites Laminated with Aluminum Plates K.Y. Lu, F. Fu, Y.J. Fu and Z.Y. Cai	159
Discuss on Green Building Materials and Related Issues S.J. Wang	165
Exploration on the Integration of Residential Communities and Agricultural Landscapes in Xi'an J.H. Yu, Y.D. Zhu and L. Zhang	171
Experimental Study on Flexural Deformation Behavior of Concrete Beams Reinforced with GFRP Bars D.C. Fu, Y.H. Wen and B. Wang	175
Study on Low-Carbon and Energy-Saving New Rural Countryside Construction in the Northeast of China D.M. Xu, T.Y. Zhao and W. Cheng	179
Spatial Analysis of Continuous Rigid Frame High Pier under Completed Bridge State Y.X. Yang and L. Sun	183
Dynamic Performance Analysis on High-Speed Railway Continuous Girder Bridge S.T. Song, J.W. Zhang and X. Yuan	186
Preparation of Lignocellulose Aerogel from Wood-Ionic Liquid Solution C. Chen and J. Li	191
The Current Construction Situation and Future Development Strategy of Rural Primary Boarding Schools in Jiangxi Province L. Nie, Z.Q. Zhao and Z.Y. Wu	196
Northeast China Rural Residential Passive Solar Design Exploration J. Qiu and H.M. Liu	200
Not just Poetic - Timber Structure's New Development in China P. Wang and D. Wang	204
Research and Application on Magnesium Slag S.Y. Wang, L.G. Xiao, Q. Zhou, K. Xu, B.L. Chen, J.F. Wang and Z.Z. Wu	208
Study on the Energy-Saving Composite Board Consisting of Wasted EPS Foam Plastics Q. Zhou, L.G. Xiao and K. Yin	212

Neural Network Architecture Based on the Production Process of Ceramic Classification System of Environmental Factors	
C. Hong, R. Zhang and X.H. Huang	217
Research on the Granulating Water of Blast Furnace Slag for Building Heating	
J.X. Guo and B.J. Yang	222
Research on the Energy Saving Renovation Solution for Existing Residential Buildings in Heibei Province	
S.L. Liu, D.S. Ju and W.X. Zheng	228
Modeling and Experimental Verification of Casted Heat Exchanger in Non-Icing and Icing Conditions in Winter	
Y. Jie, S.J. You and X.J. Zheng	232
Applications of Seawater Source Heat Pump in Buildings	
Q.Y. Li, S.J. You and X.J. Zheng	238
Environmental Geological Quality Evaluation of Shabaosi Gold Mine in Mohe City	
N. Wang and J.F. Cao	242
Bioconversion of Lignocellulose to Ethanol: A Review of Production Process	
K. Chen, L.J. Xu and J. Yi	246
Reducing Vacant Houses Is More Important than the Implementation of Green Buildings	
W.H. Sun, S.C. Xu and L.S. Li	250
