

Table of Contents

Preface

Chapter 1: Building Components

Innovative Materials for Sustainable Construction

B. Zúñiga-Torres, R. Correa-Jaramillo, F. Hernández-Olivares, F. Fernandez-Martinez, A. Zúñiga-Suárez, I. Briceño-Tacuri and L. Loaiza-Jiménez 3

An Effect on Properties of Hybrid Fibres Bio-Composite: Sustainable on Rural Building Materials

W. Namboonruang 11

Recycling of Polyethylene Terephthalate Wastes in Production of Hollow Sandcrete Blocks for Sustainable Construction

O.M. Olofinnade, I.E.E. Davies and I.W. Egwuonwu 19

Physical Properties of Sustainable Concrete Bricks with Glass and Polyethylene

Terephthalate Scales Wastes as Replacements for Coarse Aggregate

F. Rosell, J.C. Nieto, R.J. Cuicapuza, L.M. Isla, V.C. Valenzuela, J.T. Rivera, R.V. Salazar and N. Moggiano 29

Sustainable Construction through Characterization of PET Bricks in Urban Areas

J. Castro, Z. Chávez, C. Pool, A. Amarillo and M. Chauca 35

Quality Control of Production Lightweight Ferrocement Plate Using Sustainable Materials

N.M.F.A. Jalawi 43

Sustainable and Eco-Friendly Vege Roofing Tiles: An Innovative Bio-Composite

N.Z. Habib, H. Nadeem, C.A. Ng, S.E. Zoorob and Z. Mustaffa 48

Thermal, Strength and Leachability Characteristics of Cellulose Fibre Reinforced Lime-Soil Brick

W. Namboonruang and P. Yongam-Nuai 54

Characterization of Cellulosic Fibres Properties for their Using in Composites

V. Hospodarova, E. Singovszka and N. Števulová 64

Assessment of Color Degradation of Wood Plastic Composites in Outdoor Applications

J. Vercher, A. Diaz, M. Soriano and C. Lerma 71

Role of Key Factors of Particulate Components in Biocomposites

N. Števulová, J. Cigasova and I. Schwarzova 79

Mechanical Efficiency and Biomechanical Performance of Innovative Sandwich-Like Composite Wall Biopanels - A Structural Alternative for Constructions in High-Risk Seismic and Windy Regions

O.M. González, P.M.A. García, Z.H.L. Barrigas and B.N.S. Andino 87

Energy Efficient Construction Materials

A.R. Gupta and S.K. Deshmukh 95

Effect of the Incorporation of Marble Waste in the Properties of Clay Ceramic Bricks

W.B.A. Bezerra, F.d.C.G. Filho, A.C. Pereira, S.N. Monteiro, M.T. Marvila, M.L. Pereira Antunes, J. Alexandre, A.R.G. de Azevedo and H.A. Rocha 110

Study on the Influence of the Wastes from Cashew Industry on Environmentally Friendly Bricks

F.P. de Araújo, J.A. Osajima, J.S.N. de Souza and M.B. Furtini 116

Use of Waste from Construction and Demolition in the Manufacture of Soil-Cement Bricks: A Sustainable Alternative

L.R. de Macêdo Reis, I.R.O. do Nascimento Filho, I.G.R.V. Reis, P. de Abreu Vieira, L.L. Brasileiro and J.M.E. de Matos 121

Investigate the Properties of Solid Waste Bottom Ash (SBA) and Lime Reinforced in Composite Bricks

W. Namboonruang, N. Suphadon and P. Yong-Amnuai 126

Mechanical and Thermal Properties of Brick Produced Using Recycled Fine Aggregate

S. Ismail, Z.A.H. Anas and Z. Yaacob 133

Production of Bricks from Sludge of Palm Oil Mill Effluent (POME)	138
A.F. Nor Asikin, N. Kasmuri and M.F. Ali	
Life Ceram - Zero Waste in Ceramic Tile Manufacture	148
F.J. García-Ten, M.F. Quereda Vázquez, C. Gil Albalat, D. Chumillas Villalba, V. Zaera and M.C. Segura Mestre	
Reutilization of the Solid Waste Materials Produced by a Ceramic Tiles Industry as a Raw Material for the Production of New Ceramic Tiles	159
R.L. Valença and F. Ferraço	
Limestone Waste Incorporation in Clayey Mass for Rustic Ceramic Tiles Manufacturing	164
A.M.M. Santos, A.C.A. Prado, M.B.M. Matos, P.H.A. Feitosa, J.H.A. Feitosa and T.M.E. Alves	
A Binder from Alkali Activation of FCC Waste: Use in Roof Tiles Fabrication	170
M.A. Mas, M.M. Tashima, J. Payá, M.V. Borrachero, L. Soriano and J.M. Monzó	
Effects of EAF Slag's Milling Time and Firing Temperature to EAF Slag Added Ceramic Tile's Properties	178
C.S. Lim, P.T. Teo and N. Mohd Sharif	
Cover System for Roofs Manufactured with Recycled Polyethylene and Rubber	183
R. Gaggino, M. Positieri, J. Kreiker, M.P. Sanchez Amono, R. Arguello and J.C. Baronetto	
Use of Compressed Earth Bricks/Blocks in Load-Bearing Masonry Structural Systems: A Review	192
L.C. Han, A.K. Bin Mirasa, I. Saad, N. Bt. Bolong, N.S.A. Bt. Asman, H. Bte Asrah and E.S.R. Bin Abdullah	
Compressive Strength of Unburned Clay Masonry	203
I. Žabičková, T. Otcovská and P. Padevět	
Influence of Carbon Nanotubes on Traditional Material	207
B. Zúñiga-Torres, F. Hernández-Olivares, F. Fernandez-Martinez, A. Zúñiga-Suárez and B.E. Noboa Ruiz	

Chapter 2: Cement, Binders and Cementitious Composites

Engineered Cementitious Composites for Sustainable Construction	217
S. Arundhathy and V. Vasugi	
Development of Nano Modified Eco-Friendly Green Binders for Sustainable Construction Applications	227
H. Shoukry	
Thermal Performance of the Alkali Activated Binder Developed from Rice Husk Ash and Bottom Ash	239
K.A. Khan, A. Raut, C.R. Chandrudu and C. Sashidhara	
Impact Properties of Hemp Fibre Reinforced Cementitious Composites	244
X.M. Zhou, R. Madanipour and S. Ghaffar	
Life Cycle Assessment of Comprehensive Utilization of Calcium Carbide Slag in Cement Kiln	252
X.P. Lin, A.W. Liu, Y.F. Feng, Q.L. Chen, T. Chen, L.W. Hao and X.Q. Li	
Air Quenching of Steel Slag to Enhance its Hydraulic Activity for Recycling the Slag as Materials in Cement and Concrete Applications	261
P. Xue, Q.X. Yang, G.Q. Liu, F.L. Han, L. Jiang, F. Engström and B. Björkman	
Use of Ceramic Sanitaryware as an Alternative for the Development of New Sustainable Binders	267
L. Reig, M.V. Borrachero, J.M. Monzó, H. Savastano, M.M. Tashima and J. Payá	
Use of Algerian Natural Mineral Deposit as Supplementary Cementitious Materials	276
K. Arroudj, S. Dorbani, M.N. Oudjit and A. Tagnit-Hamou	
Development of Sustainable Alternative Building Materials from Quarry Dust	287
E. Cohen, G. Bar Nes and A. Peled	
Characteristic Properties of the Fly Ash from Coal Combustion	295
J. Polacek, R. Šulc and P. Formáček	
Pre-Dry Mixing Process of Low Carbon Alkaline-Activated Cement: Properties and Advantages in Practical Work of Construction	300
T. Suwan, S. Hanjitsuwan, G. Kastiukas and P. Wattanachai	

Greenhouse Effect Reduction through Sustainable Magnesium Oxide Eco-Cement Products	306
W. Yao, Y.K. Yang and M.X. Wu	
Application of Titanium Dioxide in Cement and Concrete Technology	311
A. Pietrzak, J. Adamus and B. Langier	

Chapter 3: Mortars, Pastes, Plasters

Incorporation of Paint Waste from Furniture Painting Booth into Covering Mortar	321
R.R. Ribeiro, F.G. Bellon, R.d.C.S.S. Alvarenga, A.A.P. Rezende, J.M.F. de Carvalho and R.F. Santos	
A Review of Lightweight Composite Development Using Paper Waste and Pulverized Ceramics - Towards a Sustainable and Eco-Friendly Construction	326
P.O. Awoyera, O.B. Olalusi, D.P. Babagbale and O.E. Babalola	
Destructive and Non-Destructive Testing of an Industrial Screed Mortar Made with Lightweight Composite Aggregates WPLA	344
M.T. Gouasmi, A.S. Benosman, H. Taïbi, N. Kazi Tani and M. Belbachir	
Ladle Furnace Slag as a Sustainable Binder for Masonry Mortars	363
S.Y. Chang, C.S. Chen, C.H. Tu and Y.W. Tseng	
Experimental Characterization of Masonry Panels Strengthened with NFRCM	369
C.B. de Carvalho Bello, D. Baraldi, A. Cecchi and D.V. Oliveira	
Structural Behavior of Small-Scale Masonry Panel with Fiber Reinforced Mortar under Compressive Load	375
F. Bencardino, A. Cecchi, M. Franceschi, M. Nisticò, L. Ombres and S. Verre	
Testing of Composite Mortars Based on Supplementary Cementitious Materials: Estimating Durability and Thermal Properties	381
N. Latroch, A.S. Benosman, N.E. Bouhamou, B. Belbachir, Y. Senhadji, H. Taïbi and M. Mouli	
Enhancing Properties of Clay Mortars Using Nano-Additives	390
A. Karozou, E. Pavlidou and M. Stefanidou	
Cement-Lime Plaster with PCM Addition – A Perspective Material for Moderation of Interior Climate	401
J. Fořt, A. Trník and Z. Pavlík	

Chapter 4: Insulation Materials and Components

Sustainable Materials with Potential Application as Core Materials in Vacuum Insulations	411
J. Zach, J. Hroudová and A. Korjenic	
Green Materials for Sound Absorption	419
A. Trematerra and I. Lombardi	
Acoustic Properties of Cork Sheets	424
A. Trematerra and I. Lombardi	
Physical and Mechanical Property Characterization of Hemp Shive Reinforced Gypsum Composite Board	429
R. Fernea, D.R. Tăma-Gavrea, D.L. Manea and C. Aciu	
Hemp Fiber Reinforced Geopolymer Composites: Effects of NaOH Concentration on Fiber Pre-Treatment Process	439
P. Maichin, T. Suwan, P. Jitsangiam and P. Chindaprasirt	
Synthesis of Biocomposite with Different Ratios of Rapeseed Oil Binder/Wood Bark: Mechanical and Hygrothermal Properties	444
A. Kairyte, S. Vaitkus and A. Kremensas	
Development of Timber-Wood Lightweight Concrete-Glass Composite for Multi-Story Façades	450
A. Fadai, M. Rinnhofer and W. Winter	
Case Study on Rehabilitation Solutions for Single Family Homes Using Eco-Sustainable, Natural, Local Materials	460
C. Miron and L. Miron	
Thermal Insulation Particleboards Made with Wastes from Wood and Tire Rubber	468
M. da Silva Bertolini, A.L. Christoforo and F.A. Rocco Lahr	

Building Operational Energy Optimization Technique Waste Filled Cavity Wall	475
A.R. Gupta and S.K. Deshmukh	
Laboratory Studies of the Heat-Insulating Properties of the Panels that Made of Recycled Rubber	475
A. Crnoja, V. Kersh, O. Popov and A. Dovhulia	491
Recycled Materials for Sound Absorbing Applications	498
G. Ciaburro	
Construction Details from Secondary Raw Materials	505
R. Smolka, J. Plachý, P. Kacálek and T. Petříček	

Chapter 5: Pavement Materials

Incorporating Waste Material in Road Construction for Sustainable Development	515
M.S.S. bin Mohmad Shariff and M.S.F. bin Md Noor	
Appraisal on Different Sustainable Road Stabilization Techniques for Different Road Condition and Materials	521
M.I.M. Masirin, H.A. Hamid, R.A. Rahman, A. Wagiman, M.S. Mustapa and N.A. Hamid	521
Analysis of Physical and Microstructural Properties on Parit Nipah Peat Particles as Sustainable Asphalt Modifier	527
M.I.M. Masirin, A.S.B. Ali, M.S. Mustapa, R.A. Rahman, A. Wagiman and M.I. Aziz	527
Waste Building Materials to Roads in Czech Republic	533
D. Stehlík, P. Hyzl and M. Varauš	
Compressive Strength and Workability of Cement Mortar Containing Recycled Asphalt Pavement	541
J. Suebsuk and P. Panpipat	
Fatigue Resistance of BBSG Asphalt Mix with Recycled Asphalt Aggregate Addition	548
A. Bordjiba and H. Rhailia	
Assessment of Asphalt Mixture Behaviour Containing Recycled Concrete Aggregates	556
S.S. Musa, N. Al-Mukaram and M.B. Mahdi	
Performance and Evaluation of Hot Mix Asphalt with an Addition of Lime Kiln Dust as a Mineral Filler Based on Western Australia Conditions	564
P. Jitsangiam, H. Nikraz and K. Nusit	
Crushed Rock Geopolymer as a Future Road Construction Material: An Evaluation on Strength Performance and Compaction Characteristics	569
S. Kwanjai, P. Jitsangiam, T. Suwan, D. Rinchumphu, H. Thongchua, P. Chindaprasirt and S. Sampattagul	

Chapter 6: Sustainable Geotechnics

Geotechnical Characterization of Dredged Material and Effect of Lime Stabilisation on its Strength Characteristics	577
S. Mohammad, W. Akram and S.A. Mirza	
Geotechnical Evaluation of Traditional ‘Bunds’ - Earthen Levees - From Goa	582
L.R. do Carmo Souza and S.S. Kandolkar	
Geotechnical Characterization of Water Treatment Sludge for Liner Material Production and Soft Soil Reinforcement	593
L. Marchiori, A. Studart, A. Albuquerque, V. Cavaleiro and A.P. Silva	
Experimental Study to Investigate Dune Sand Improvement by Adding Fine Waste Materials	599
M.U. Qureshi, G. Al Kindi and M.S. Alsaidi	
Stabilization Effect of Aluminum Dross on Tropical Lateritic Soil	606
A.A. Busari, I.I. Akinwumi, P.O. Awoyerwa, O.M. Olofinnade, T.I. Tenebe and J.C. Nwanchukwu	
Effect of Cement Grouts Containing Irradiated Polyethylene Terephthalate on Properties of Semi-Flexible Mixtures	617
M.I. Khan, L.S. Wen, M.H. Sutanto, M.B. Napiah and S.E. Zoorob
