

Table of Contents

Preface

Chapter 1: Building Components

Innovative Materials for Sustainable Construction

B. Zúñiga-Torres, R. Correa-Jaramillo, F. Hernández-Olivares, F. Fernandez-Martinez, A. Zúñiga-Suárez, I. Briceño-Tacuri and L. Loaiza-Jiménez 3

An Effect on Properties of Hybrid Fibres Bio-Composite: Sustainable on Rural Building Materials

W. Namboonruang 11

Recycling of Polyethylene Terephthalate Wastes in Production of Hollow Sandcrete Blocks for Sustainable Construction

O.M. Olofinnade, I.E.E. Davies and I.W. Egwuonwu 19

Physical Properties of Sustainable Concrete Bricks with Glass and Polyethylene Terephthalate Scales Wastes as Replacements for Coarse Aggregate

F. Rosell, J.C. Nieto, R.J. Cuicapuza, L.M. Isla, V.C. Valenzuela, J.T. Rivera, R.V. Salazar and N. Moggiano 29

Sustainable Construction through Characterization of PET Bricks in Urban Areas

J. Castro, Z. Chávez, C. Pool, A. Amarillo and M. Chauca 35

Quality Control of Production Lightweight Ferrocement Plate Using Sustainable Materials

N.M.F.A. Jalawi 43

Sustainable and Eco-Friendly Vege Roofing Tiles: An Innovative Bio-Composite

N.Z. Habib, H. Nadeem, C.A. Ng, S.E. Zoorob and Z. Mustaffa 48

Thermal, Strength and Leachability Characteristics of Cellulose Fibre Reinforced Lime-Soil Brick

W. Namboonruang and P. Yongam-Nuai 54

Characterization of Cellulosic Fibres Properties for their Using in Composites

V. Hospodarova, E. Singovszka and N. Številová 64

Assessment of Color Degradation of Wood Plastic Composites in Outdoor Applications

J. Vercher, A. Diaz, M. Soriano and C. Lerma 71

Role of Key Factors of Particulate Components in Biocomposites

N. Številová, J. Cigasova and I. Schwarzova 79

Mechanical Efficiency and Biomechanical Performance of Innovative Sandwich-Like Composite Wall Biopanel - A Structural Alternative for Constructions in High-Risk Seismic and Windy Regions

O.M. González, P.M.A. García, Z.H.L. Barrigas and B.N.S. Andino 87

Energy Efficient Construction Materials

A.R. Gupta and S.K. Deshmukh 95

Effect of the Incorporation of Marble Waste in the Properties of Clay Ceramic Bricks

W.B.A. Bezerra, F.d.C.G. Filho, A.C. Pereira, S.N. Monteiro, M.T. Marvila, M.L. Pereira Antunes, J. Alexandre, A.R.G. de Azevedo and H.A. Rocha 110

Study on the Influence of the Wastes from Cashew Industry on Environmentally Friendly Bricks

F.P. de Araújo, J.A. Osajima, J.S.N. de Souza and M.B. Furtini 116

Use of Waste from Construction and Demolition in the Manufacture of Soil-Cement Bricks: A Sustainable Alternative

L.R. de Macêdo Reis, I.R.O. do Nascimento Filho, I.G.R.V. Reis, P. de Abreu Vieira, L.L. Brasileiro and J.M.E. de Matos 121

Investigate the Properties of Solid Waste Bottom Ash (SBA) and Lime Reinforced in Composite Bricks

W. Namboonruang, N. Suphadon and P. Yong-Amnuai 126

Mechanical and Thermal Properties of Brick Produced Using Recycled Fine Aggregate

S. Ismail, Z.A.H. Anas and Z. Yaacob 133

Production of Bricks from Sludge of Palm Oil Mill Effluent (POME) A.F. Nor Asikin, N. Kasmuri and M.F. Ali	138
Life Ceram - Zero Waste in Ceramic Tile Manufacture F.J. García-Ten, M.F. Quereda Vázquez, C. Gil Albalat, D. Chumillas Villalba, V. Zaera and M.C. Segura Mestre	148
Reutilization of the Solid Waste Materials Produced by a Ceramic Tiles Industry as a Raw Material for the Production of New Ceramic Tiles R.L. Valença and F. Ferraço	159
Limestone Waste Incorporation in Clayey Mass for Rustic Ceramic Tiles Manufacturing A.M.M. Santos, A.C.A. Prado, M.B.M. Matos, P.H.A. Feitosa, J.H.A. Feitosa and T.M.E. Alves	164
A Binder from Alkali Activation of FCC Waste: Use in Roof Tiles Fabrication M.A. Mas, M.M. Tashima, J. Payá, M.V. Borrachero, L. Soriano and J.M. Monzó	170
Effects of EAF Slag's Milling Time and Firing Temperature to EAF Slag Added Ceramic Tile's Properties C.S. Lim, P.T. Teo and N. Mohd Sharif	178
Cover System for Roofs Manufactured with Recycled Polyethylene and Rubber R. Gaggino, M. Positieri, J. Kreiker, M.P. Sanchez Amono, R. Arguello and J.C. Baronetto	183
Use of Compressed Earth Bricks/Blocks in Load-Bearing Masonry Structural Systems: A Review L.C. Han, A.K. Bin Mirasa, I. Saad, N. Bt. Bolong, N.S.A. Bt. Asman, H. Bte Asrah and E.S.R. Bin Abdullah	192
Compressive Strength of Unburned Clay Masonry I. Žabičková, T. Otcovská and P. Padevět	203
Influence of Carbon Nanotubes on Traditional Material B. Zúñiga-Torres, F. Hernández-Olivares, F. Fernandez-Martinez, A. Zúñiga-Suárez and B.E. Noboa Ruiz	207

Chapter 2: Cement, Binders and Cementitious Composites

Engineered Cementitious Composites for Sustainable Construction S. Arundhathy and V. Vasugi	217
Development of Nano Modified Eco-Friendly Green Binders for Sustainable Construction Applications H. Shoukry	227
Thermal Performance of the Alkali Activated Binder Developed from Rice Husk Ash and Bottom Ash K.A. Khan, A. Raut, C.R. Chandrudu and C. Sashidhara	239
Impact Properties of Hemp Fibre Reinforced Cementitious Composites X.M. Zhou, R. Madanipour and S. Ghaffar	244
Life Cycle Assessment of Comprehensive Utilization of Calcium Carbide Slag in Cement Kiln X.P. Lin, A.W. Liu, Y.F. Feng, Q.L. Chen, T. Chen, L.W. Hao and X.Q. Li	252
Air Quenching of Steel Slag to Enhance its Hydraulic Activity for Recycling the Slag as Materials in Cement and Concrete Applications P. Xue, Q.X. Yang, G.Q. Liu, F.L. Han, L. Jiang, F. Engström and B. Björkman	261
Use of Ceramic Sanitaryware as an Alternative for the Development of New Sustainable Binders L. Reig, M.V. Borrachero, J.M. Monzó, H. Savastano, M.M. Tashima and J. Payá	267
Use of Algerian Natural Mineral Deposit as Supplementary Cementitious Materials K. Arroudj, S. Dorbani, M.N. Oudjit and A. Tagnit-Hamou	276
Development of Sustainable Alternative Building Materials from Quarry Dust E. Cohen, G. Bar Nes and A. Peled	287
Characteristic Properties of the Fly Ash from Coal Combustion J. Polacek, R. Šulc and P. Formáček	295
Pre-Dry Mixing Process of Low Carbon Alkaline-Activated Cement: Properties and Advantages in Practical Work of Construction T. Suwan, S. Hanjitsuwan, G. Kastiukas and P. Wattanachai	300

Greenhouse Effect Reduction through Sustainable Magnesium Oxide Eco-Cement Products W. Yao, Y.K. Yang and M.X. Wu	306
Application of Titanium Dioxide in Cement and Concrete Technology A. Pietrzak, J. Adamus and B. Langier	311

Chapter 3: Mortars, Pastes, Plasters

Incorporation of Paint Waste from Furniture Painting Booth into Covering Mortar R.R. Ribeiro, F.G. Bellon, R.d.C.S.S. Alvarenga, A.A.P. Rezende, J.M.F. de Carvalho and R.F. Santos	321
A Review of Lightweight Composite Development Using Paper Waste and Pulverized Ceramics - Towards a Sustainable and Eco-Friendly Construction P.O. Awoyera, O.B. Olalusi, D.P. Babagbale and O.E. Babalola	326
Destructive and Non-Destructive Testing of an Industrial Screed Mortar Made with Lightweight Composite Aggregates WPLA M.T. Gouasmi, A.S. Benosman, H. Taïbi, N. Kazi Tani and M. Belbachir	344
Ladle Furnace Slag as a Sustainable Binder for Masonry Mortars S.Y. Chang, C.S. Chen, C.H. Tu and Y.W. Tseng	363
Experimental Characterization of Masonry Panels Strengthened with NFRMC C.B. de Carvalho Bello, D. Baraldi, A. Cecchi and D.V. Oliveira	369
Structural Behavior of Small-Scale Masonry Panel with Fiber Reinforced Mortar under Compressive Load F. Bencardino, A. Cecchi, M. Franceschi, M. Nisticò, L. Ombres and S. Verre	375
Testing of Composite Mortars Based on Supplementary Cementitious Materials: Estimating Durability and Thermal Properties N. Latroch, A.S. Benosman, N.E. Bouhamou, B. Belbachir, Y. Senhadji, H. Taïbi and M. Mouli	381
Enhancing Properties of Clay Mortars Using Nano-Additives A. Karozou, E. Pavlidou and M. Stefanidou	390
Cement-Lime Plaster with PCM Addition – A Perspective Material for Moderation of Interior Climate J. Fořt, A. Trník and Z. Pavlík	401

Chapter 4: Insulation Materials and Components

Sustainable Materials with Potential Application as Core Materials in Vacuum Insulations J. Zach, J. Hroudová and A. Korjenic	411
Green Materials for Sound Absorption A. Trematerra and I. Lombardi	419
Acoustic Properties of Cork Sheets A. Trematerra and I. Lombardi	424
Physical and Mechanical Property Characterization of Hemp Shive Reinforced Gypsum Composite Board R. Fernea, D.R. Tăma-Gavrea, D.L. Manea and C. Aciu	429
Hemp Fiber Reinforced Geopolymer Composites: Effects of NaOH Concentration on Fiber Pre-Treatment Process P. Maichin, T. Suwan, P. Jitsangiam and P. Chindapasirt	439
Synthesis of Biocomposite with Different Ratios of Rapeseed Oil Binder/Wood Bark: Mechanical and Hygrothermal Properties A. Kairytė, S. Vaitkus and A. Kremensas	444
Development of Timber-Wood Lightweight Concrete-Glass Composite for Multi-Story Façades A. Fadaï, M. Rinnhofer and W. Winter	450
Case Study on Rehabilitation Solutions for Single Family Homes Using Eco-Sustainable, Natural, Local Materials C. Miron and L. Miron	460
Thermal Insulation Particleboards Made with Wastes from Wood and Tire Rubber M. da Silva Bertolini, A.L. Christoforo and F.A. Rocco Lahr	468

Building Operational Energy Optimization Technique Waste Filled Cavity Wall A.R. Gupta and S.K. Deshmukh	475
Laboratory Studies of the Heat-Insulating Properties of the Panels that Made of Recycled Rubber A. Crnoja, V. Kersh, O. Popov and A. Dovhulia	491
Recycled Materials for Sound Absorbing Applications G. Ciaburro	498
Construction Details from Secondary Raw Materials R. Smolka, J. Plachý, P. Kacálek and T. Petříček	505

Chapter 5: Pavement Materials

Incorporating Waste Material in Road Construction for Sustainable Development M.S.S. bin Mohamad Shariff and M.S.F. bin Md Noor	515
Appraisal on Different Sustainable Road Stabilization Techniques for Different Road Condition and Materials M.I.M. Masirin, H.A. Hamid, R.A. Rahman, A. Wagiman, M.S. Mustapa and N.A. Hamid	521
Analysis of Physical and Microstructural Properties on Parit Nipah Peat Particles as Sustainable Asphalt Modifier M.I.M. Masirin, A.S.B. Ali, M.S. Mustapa, R.A. Rahman, A. Wagiman and M.I. Aziz	527
Waste Building Materials to Roads in Czech Republic D. Stehlík, P. Hyzl and M. Varaus	533
Compressive Strength and Workability of Cement Mortar Containing Recycled Asphalt Pavement J. Suebsuk and P. Panpipat	541
Fatigue Resistance of BBSG Asphalt Mix with Recycled Asphalt Aggregate Addition A. Bordjiba and H. Rhailia	548
Assessment of Asphalt Mixture Behaviour Containing Recycled Concrete Aggregates S.S. Musa, N. Al-Mukaram and M.B. Mahdi	556
Performance and Evaluation of Hot Mix Asphalt with an Addition of Lime Kiln Dust as a Mineral Filler Based on Western Australia Conditions P. Jitsangiam, H. Nikraz and K. Nusit	564
Crushed Rock Geopolymer as a Future Road Construction Material: An Evaluation on Strength Performance and Compaction Characteristics S. Kwunjai, P. Jitsangiam, T. Suwan, D. Rinchumphu, H. Thongchua, P. Chindaprasirt and S. Sampattagul	569

Chapter 6: Sustainable Geotechnics

Geotechnical Characterization of Dredged Material and Effect of Lime Stabilisation on its Strength Characteristics S. Mohammad, W. Akram and S.A. Mirza	577
Geotechnical Evaluation of Traditional ‘Bunds’ - Earthen Levees - From Goa L.R. do Carmo Souza and S.S. Kandolkar	582
Geotechnical Characterization of Water Treatment Sludge for Liner Material Production and Soft Soil Reinforcement L. Marchiori, A. Studart, A. Albuquerque, V. Cavaleiro and A.P. Silva	593
Experimental Study to Investigate Dune Sand Improvement by Adding Fine Waste Materials M.U. Qureshi, G. Al Kindi and M.S. Alsaidi	599
Stabilization Effect of Aluminum Dross on Tropical Lateritic Soil A.A. Busari, I.I. Akinwumi, P.O. Awoyera, O.M. Olofinnade, T.I. Tenebe and J.C. Nwanchukwu	606
Effect of Cement Grouts Containing Irradiated Polyethylene Terephthalate on Properties of Semi-Flexible Mixtures M.I. Khan, L.S. Wen, M.H. Sutanto, M.B. Napiiah and S.E. Zoorob	617
