## Preface and Organizing Committee

## Chapter 1: Environment Friendly Ink and Material Technology

<b>Synthesis of Nano-Emulsion with Allyl-Type Sodium Succinate Diester Emulsifier</b> Y.N. Wei, X.L. Xin, Y. Yu and H.C. Zhu	3
<b>Studies on the Synthesis and its Properties of Reversible Red-Thermochromic Materials</b> X.X. Hao, N. Wei, X. Yin and C. Sun	7
<b>Synthesis of Styrene-Acrylic Emulsion for Aqueous Glazing Agent</b> K. Chen, X.L. Xin and Y.N. Wei	11
<b>Preparation of the Plastic Water-Based Gravure Primary Ink with High Pigment</b> J.Z. Sun, X.F. Wei, P.Q. Huang and Q.L. Liu	15
<b>The Effects that Cosolvent Takes on Ink Used in Water-Borne Pen Performance and Quality</b> L. Jia, B.Q. Huang and X.F. Wei	20
<b>Study on Scratch-Resistance and Abrasion-Resistance of Water-Based Varnish</b> D.P. Zhao, J.H. Liu, B.Q. Huang and X.F. Wei	24
<b>Study on Dryness and Printing Quality of Water-Based Plastic Gravure Ink</b> B.Q. Huang, Y.J. Xu and X.F. Wei	29
<b>Synthesis and Property of Polymerizable Sodium Sulfosuccinic Diester</b> W. Jiang, X.L. Xin, Y. Yu and H.C. Zhu	35
<b>Influence of Ink Fineness on the Performance of Water-Based Cork Paper Bobbin Gravure Ink</b> M.J. Yu, B.Q. Huang, X.F. Wei and Y.B. Lv	40
<b>The Effects of Resin on the Performance of Water-Based Inkjet Ink Used in Printing</b> J.F. Yan, B.Q. Huang, X.F. Wei and J.W. Dai	44
<b>Research on Environment-Friendly Ink and Fine Chemicals</b> L.H. Li, X. Leng, W. Zhao, P. Du, X.W. Hu, S.G. Liu, G.J. Li, W.G. Zhang and S.M. Zhao	48
<b>Study on Application Performance of Water-Based Pigment Ink on Uncoated Paper</b> W.B. Li, L.X. Mo, L.H. Li, X.W. Hu, X. Leng, H. Fang, W.W. Li and S.K. Li	52
<b>Study on Nano-SiO<sub>2</sub> Used to Improve the Property of Ink</b> W.T. Huang, G.X. Chen, B.L. Tang and M.G. Yu	56
<b>Kinetics of the Curing Reaction of a Diglycidyl Ether of Bisphenol with a Methanol Etherified Amino Resin</b> Y. Lv, Z. Long, S.Y. Luo and L. Dai	60
<b>Synthesis of Spiropyran Photochromic Polymer</b> X.L. Xin, X. Han and Q.H. Jin	64
<b>A New Black Water Based Ink Prepared by Chinese Traditional Materials for Screen Printing Ancient Books</b> L.X. Huo, S.Y. Luo, Y. Hao, W.C. Xu and Z.Z. Ma	69
<b>The Study on the Influence of Monomer on the Printing Quality of UV Waterless Offset Ink</b> X.X. Jia, B.Q. Huang, X.F. Wei and Y.X. Han	73
<b>The Effect of Emulsification Ratio on Ink-Transfer Performance and Printing Quality of UV Offset Ink</b> X.X. Ma, X.F. Wei, B.Q. Huang and W. Zhang	77
<b>Synthesis of Emulsion for Water-Based Pigment Ink Jet</b> L.M. Zhang, X.L. Xin and W. Jiang	81
<b>Research on the Color Stability of Edible Ink-Jet Ink</b> J.M. Sun, X.F. Wei and B.Q. Huang	85
<b>The Application of Environmental Protection Long-Lag Material in Printing Ink of Fluorescent Map</b> K. Yang, R.Z. Shi, M.X. Wang and X. Zhou	89

<b>The Influence of Emulsification on the Rheological Properties of UV Curable Offset Ink</b> K.Y. Luo, X.F. Wei and B.Q. Huang	95
<b>The Effect of a Prepolymer on the Performance of UV Ink-Jet Yellow Ink</b> H.L. PAN, W. Zhang, B.Q. Huang, X.F. Wei and J. Gao	99
<b>Study on Synthesis and Fluorescent Properties of Ternary and Quaternary Rare Earth Europium Complexes</b> X.X. Hao, J. Meng and C. Sun	103
<b>Effect of pH on the Luminescent Properties of the Green Fluorescent Ink-Jet Ink</b> S.H. Gao, X.F. Wei, B.Q. Huang and C.Y. Lu	107
<b>Effect of Photo-Initiator on Curing Rate of Water-Base UV Varnish</b> X.F. Wang, X.F. Wei and P.Q. Huang	112
<b>Study Main Properties of Two Systems Watermark Varnish</b> L.Y. Gu, B.Q. Huang, D.P. Zhao and W. Yuan	117
<b>Research on the Quality of Screen Printing Based on the UV Ink</b> G.M. Zhang, P.J. Deng, W.C. Xu and Z.Q. Yu	121
<b>Synthesis and Fluorescent Property of Europium-Doped Complexes with P-Anisic Acid and Thenoyltrifluoroacetone</b> J. Meng, C. Sun, X.X. Hao, X.N. Mu and J.Q. Wang	125
<b>Preparation of Silver Nanoplates and Application in PCB Ink-Jet</b> J. Yang, J.H. Chu, Y. Yang, Y.B. Guo, X.G. Lou and H.B. Li	129
<b>Study on the HEA-Blocking Unsaturated Polyester Solventless Impregnating Varnish</b> Q.B. Jiang, Q.S. Deng, J. Gao and Y.Q. Wang	133
<b>Progress of Printing RFID Antenna Using Water-Based Conductive Ink</b> W.W. Li, L.H. Li, L.X. Mo, X.W. Hu, X. Leng, H. Fang, W.B. Li and S.K. Li	137

## **Chapter 2: Environment Friendly Packaging Material Technology**

<b>Study on the Adjustment to the Pressure of Flexible Printing on the Board</b> Z.J. Xiao	143
<b>Study of the Structure and Oxygen Permeability of Cellulose Packaging Films from NMMO-Solutions</b> P.F. Cheng, J.Q. Wang and W.M. Ren	148
<b>Research on a New and Green Paper Bottle of Chinese White Spirit Packaging</b> X.F. Wang	152
<b>Effect of Cationic Polyacrylate Emulsion Properties on Paper Coating Properties</b> J.L. Li, Q.X. Liu, W.C. Xu and Y.B. Lv	156
<b>Study of Microstructure and Dynamic Mechanical Analysis of Biodegradable Tableware Produced with Corn Straw</b> Alun, Z.H. Sun, Q.R. Jing, R.D. Hu and C.L. Yang	160
<b>Preparation of 4A-Type Silver-Loaded Zeolite and Antibacterial Papers</b> Z.H. Zhong, T. Li and Y. Hong	164
<b>Properties Analysis of Biodegradable Material P(3HB-co-4HB)</b> J. Zhang, X.P. Lu and T.L. Chu	168
<b>Analysis on Ink Layer Rub Resistance for Coated Paper Prints</b> W.H. Zhou, B.H. He, C.X. Zhang and Y. Han	173
<b>Evaluation Accepted Small Color-Difference Samples by Using High Glossy Ink-Jet Paper</b> J. Liang, N.F. Liao, Y.S. Lian and Y.Y. Wang	179
<b>Study on the Effects of the Paper Performance on Color Reproduction of Inkjet Proofing</b> H.L. Yang	183
<b>Thoughts Based on Packaging Reduction Status</b> G.R. Cao and X. Zheng	187
<b>Research on the Carbon Emissions of Glass Brewage Packaging Vessel</b> Y.B. Fu, X.R. Liu, W.C. Xu, D.L. Li and L.Y. Meng	191
<b>Study of Sorting Waste Packaging</b> M.R. Zhang, S.S. Zhou, C.Q. Fang, J.B. Hu, R.E. Yu and M.Y. Zhang	195
<b>Measurement of Ozone in the Printing Process</b> G.W. Yu, J. Lin and F. Qian	201

<b>Experiment Research on the Plastic Film Thickness Affect the Rice Quality</b> X. Gong, J. Chang and Z.H. Sun	205
<b>Study on the Preparation and Property of LDPE/Aluminum Silicate Zeolite Blend Film</b> Q.P. Shi, D.L. Li and W.C. Xu	209
<b>Research on the Quality of Pre-Glued Film Laminating</b> P.J. Deng, W. Fang and G.M. Zhang	213
<b>Migration Detection of Residual Solvents from Composite Packaging Film to Food by GC- Ms</b> W.L. Dong, Y.J. Li and W.F. Zhang	218
<b>Study on Chitosan Food Preservatives Technology</b> R.R. Qin, W.C. Xu, D.L. Li and S.Y. Luo	222
<b>Research Development of Antibacterial Plastic Packaging</b> S.Y. Luo, J.Y. Zhao, X.L. Zhang and W.C. Xu	226
<b>Optimization of Deposition Conditions for Preparing Silica Films by RF Magnetron Sputtering</b> Z. Liu, L. Zhu, J. Lin and Z.H. Sun	230
<b>Research Development of Biodegradable Modification of Poly (vinyl alcohol) Film</b> Y.B. Lv, Q.X. Liu, W.C. Xu and J.L. Li	234
<b>Properties of SiO<sub>x</sub>/PET Thin Films Prepared by RF Magnetron Sputtering</b> H. Zhi, J. Lin and B. Zhang	238
<b>Biosynthesis of PHB, a New Packaging Material by Methane-Utilizing Mixed Culture HD6T</b> J. Dong and J.Y. Xin	244
<b>Effect of Oxygen Scavenging Packaging on Orange Juice Quality</b> W.C. Xu, D.L. Li, Y.B. Fu and S.Y. Huang	248
<b>Antibacterial Activity of Silver Nanoparticles Colloidal Sol and its Application in Package Film</b> S.Y. Luo, J. Chen, M. Chen, W.C. Xu and X.L. Zhang	254
<b>Influence of Blow-Up Ratio on Properties of Cellulose Packaging Films by Blow-Extrusion Process</b> T. Lan, J.Q. Wang and Z.W. Jin	260
<b>Preparation of PLLA/OMMT Composite and its Properties</b> R.X. Duan, M.J. Niu, K. Guo, J.Z. Chen, L.Y. Sui, Y.N. He and X.F. Li	265
<b>Effect of Temperature on Barrier Properties of Soy Protein Isolate Films</b> X.F. Ma, M. Chen, K. Meng and F.F. Li	270
<b>Effects of Rice Quality by Modified Atmosphere Packing with PA/PE Composite Membrane</b> L. Zhang, R. Fang and Z.H. Sun	274
<b>Polymerization and Characterization of Gas Permselectivity Functional Packaging Materials</b> Y.B. Fu, W.C. Xu, D.L. Li and X. Wang	278
<b>GC-MS Studies on the Contaminants in Paper-Plastic Food Packaging Materials</b> C.L. Yang, C.Y. Yang, Z. Liu, Z.Z. Zhao and Alun	282
<b>The Preparation and Properties of PVA/nano-TiO<sub>2</sub> Composite</b> X.H. Hao and H.M. Li	286
<b>PLA-Based Biodegradable Copolyester Nanocomposites: Preparation, Characterization and Mechanical Properties</b> B.T. Wang, P. Zhang and D. Gao	290
<b>Study on a Solvent-Free PBA/CO-Based PU Adhesive for Aluminum-Plastics Compounding</b> J. Yan, G.X. Chen, S.L. Chen and D.Q. Wu	294

### **Chapter 3: Green Information Record Material**

<b>Synthesis of Side-Chain Liquid Crystal Polymers and Preliminary Studies of the Property of Photo-Alignment</b> Y.L. Zhao, W.M. Zhang, J.L. Li and J.L. Pu	301
<b>Research of Sheet-Fed Offset Damping System Green Printing Technology</b> L.Q. Chen	306

<b>The Synthesis of the Ether Compounds of Polycondensation Resin of the Pyrogalllic Acid and the Divinylbenzene</b> X.Z. Sha and Y.Q. Zou	311
<b>Synthesis and Phase Behavior of 4, 4'-Azobisphenol Derivatives</b> S. Sun, W.C. Xu, C.X. Zhang and S.Y. Luo	316
<b>Study of Synthesis and Characteristic of Diazo-resins Used in Waterless Printing Plate</b> J.G. Wang and Y.Q. Zou	320
<b>Synthesis and Properties of a Novel Liquid Crystalline Monomer Containing Chalcone Moiety</b> J.L. Li, W.M. Zhang, Y.L. Zhao and J.L. Pu	326
<b>Preparation of a Self-Crosslinking Resin System at Ambient Temperature</b> T.W. Wang, Z.X. Li, H.S. Lu and J.L. Pu	331
<b>Synthesis of ZnO Nanoparticles by Direct Precipitation Method</b> L.J. An, J. Wang, T.F. Zhang, H.L. Yang and Z.H. Sun	335
<b>The Electroluminescent Devices Based on Benzoxazinone as Strong Fluorescent Material</b> H. Pang, W.G. Zhang and S.M. Zhao	339
<b>Study on TiO<sub>2</sub> Light-Induced Amphiphilicity on the Erased Plate</b> M.G. Yu, G.X. Chen and Q.F. Chen	344
<b>Study on Regeneration Pre-Sensitized Offset Plate Based on the Nondestructive Testing Method</b> J. Chang, X. Gong and Z.H. Sun	348
