

Table of Contents

Preface

The History of Fluoride Glasses

J. Lucas 3

Glass Forming Ability Criterion

M. Saad and M. Poulain 11

New Fluoroaluminate Glasses and Their Crystallization Tendencies and Physical-Chemical Properties

T. Izumitani, T. Yamashita, M. Tokida, K. Miura and H. Tajima 19

Glass Forming Tendency of ZrF_4 - BaF_2 Systems Containing Chlorides

S. Inoue and D.R. MacFarlane 27

Incorporation Effect of Indium Fluoride in ZBLAN Heavy-Metal Fluoride Glass

P. Baniel and A. Kober 33

A New Family of Indium Based Fluoride Glasses with Broad Transmission Range and Good Stability

G. Fonteneau, A. Bouaggad and J. Lucas 41

Alkali Cadmium Halide Glasses

M. Matecki, M. Poulain and M. Poulain 47

The Structure and Properties of Infrared Transmitting Chalcogenide Glasses

J.B. Heo, J.S. Sanghera, H. Nasu and J.D. Mackenzie 55

Preparation of Glasses in the System ZnBr_2 - KBr - MBr_2 - AgBr (M / Ba, Pb)

K. Kadono, H. Nakamichi and M. Nogami 63

A New Glass Family Based on Tellurium Chalcogenides

X. Zhang, J. Lucas and G. Fonteneau 67

Chlorofluorozirconate Glasses

M. Poulain and A. Elyamani 73

Oxychloride Glasses for IR Transmitting Fibres

M.M. Ahmad and D. Holland 87

Structure of Heavy Metal Fluoride Glasses

I. Yasui and H. Inoue 103

A New Perspective on Fluorozirconate Glass Structure

C.C. Phifer and J. Lucas 111

Molecular Dynamics Simulations of Fluoride Glass Structures

J.H. Simmons, R. Faith and G. O'Rear 121

Structure of Barium Fluorozirconate Glasses: A Quasi-Crystalline Modelling of " $\text{BaZr}_2\text{F}_{10}$ "

A. Le Bail, B. Boulard and C. Jacoboni 127

The Structure of Heavy Metal Fluoride Glasses

C.N.J. Wagner, S.B. Jost, G. Etherington and M.S. Boldrick 137

X-Ray Absorption Study of Nd^{3+} Coordination in Fluoroberyllate Glasses

M.J. Weber and J. Wong 141

NMR of Some Halide Containing Glasses

R.S. Aujla, R. Dupree, D. Holland and A.P. Kemp 147

The Structure of Vitreous NaF - DyF_3 - BeF_2 : A Neutron Diffraction and Molecular Dynamics Study

A.C. Wright, A.G. Clare, G. Etherington, R.N. Sinclair, S.A. Brawer and M.J. Weber 157

F Ion Conduction Mechanism in Glasses Based on ZrF_4

H. Inoue and I. Yasui 161

Purification and Analytical Techniques for Fluoride Glass Starting Materials

R.C. Folweiler and F.X. Pink 171

Synthesis of Iron-Impurity Free ZrF_4

T. Tatsuno 181

Preparation of High Purity Zirconium Fluoride Glasses

G.G. Devyatkh, M.F. Churbanov and E.M. Dianov 187

Plasma-Assisted Removal of Surface Hydroxide from NaF P.H. Klein	193
Hydrogen Impurities in Halides and Oxides R.C. Pastor and L.E. Gorre	195
OH and H₂O in Fluoride Glasses: Determination of Molar Extinction Coefficients P.S. Christensen, G. Fonteneau, J. Lucas and S. Mitachi	203
Water and Oxygen Impurities and Their Removal from Fluoride Glass Starting Materials W. Chen, P. Shlichta, G.F. Neilson and M.C. Weinberg	217
Analysis of Ultra-Trace Fiber Impurities by Photoluminescence W.J. Miniscalco, B.A. Thompson and C.F. Fisher	221
Determination of Ultra-Low Impurity Concentrations in Fluoride Glass Fibers by Photoluminescence Techniques J.A. Freitas, U. Strom and L. Busse	229
Glass Matrix Analysis by DC Plasma C.F. Fisher, I.D. Aggarwal and R.M. Rourke	235
Reactive Atmosphere Processing of Fluoride Glasses R.C. Pastor	245
Vapor Deposition of Fluoride Glasses C. Jacoboni, B. Boulard, H. Poignant and P. Baniel	253
Chemical Vapor Deposition of Fluoride Glasses A. Sarhangi and D.A. Thompson	259
Effects of Oxide and Water Impurities in Raw Materials Upon Fluoride Glass Quality W. Chen, P. Shlichta, M.C. Weinberg and G.F. Neilson	269
Optical Scattering and EPR Study of ZBLAN Glass: Dependence on Preparation and Processing Methods R.N. Schwartz, M. Robinson and G.L. Tangonan	275
Gas Solubility in a Heavy Metal Fluoride Melt J.M. Jewell and J.E. Shelby	287
The Influence of Melting Conditions on the Physical Properties of Fluorozirconate Glasses J.L. Grilo, M.C. Gonçalves and R.M. Almeida	299
Large-Scale Melting of Fluorophosphate Optical Glasses L.M. Cook, M.J. Liepmann and A.J. Marker	305
Corrosion Layer Formation of ZrF₄ - Based Fluoride Glasses D.G. Chen, C.J. Simmons and J.H. Simmons	315
Preparation of Fluorozirconate Glass Fibers with Improved Tensile Strength H.W. Schneider, A. Schoberth, A. Staudt and C. Gerndt	321
Reaction of Gaseous H₂O and D₂O with ZrF₄ - Based Glasses S.R. Loehr, K.H. Chung, C.T. Moynihan, G. Fonteneau, P.S. Christensen and J. Lucas	327
Hermetic Coatings for Bulk Fluoride Glasses and Fibers P.C. Schultz, L.J.B. Vacha, C.T. Moynihan, B.B. Harbison, K. Cadien and R. Mossadegh	343
Optical and Protective Coatings for Heavy-Metal Fluoride Glasses Prepared by Reactive Ion-Plating M. Buhler, J. Edlinger, H.K. Pulker, M. Reinhold, B. Bendow and O.H. El-Bayoumi	353
Recent Advances in Fluoride Glass Fiber Optics in Japan T. Kanamori	363
Recent Advances in Fluoride Glass Fiber Optics in the USA G. Lu and I.D. Aggarwal	375
Optical Loss Mechanisms in ZrF₄ Glasses and Fibres P.W. France, S.F. Carter, M.W. Moore and J.R. Williams	381
Physical Properties Relevant to Crucible and Preform Drawing of Fluoride Glass Fibers Y. Mimura, H. Tokiwa, T. Nakai and O. Shinbori	387
Viscoelastic Deformation of Fluoride Glass Fibers S. Ryou, J.S. Sanghera and J.D. Mackenzie	393
High Power DF Laser Delivery at 3.8 Microns Through a Fluoride Glass Fiber G.I. Mazé, V. Cardin, J. Caniou, A. Scraigne and D. Monnier	403
Infrared Attenuation of Thallium Bromo-Iodide Fibers J.H. Goebel and B. Magilany	407

Flox Fibers: Fluoride Glasses with Oxide Overclad L.J.B. Vacha, P.C. Schultz, C.T. Moynihan and S.N. Crichton	419
Crystallization of Fluoride Glasses R.H. Doremus	431
Viscosity and Crystallization of ZrF_4 - Based Glasses S.N. Crichton, R. Mossadegh, C.T. Moynihan, P.K. Gupta and M.G. Drexhage	435
Crystallization Kinetics in InF_3 - Based Glasses by Single and Multistep Calorimetry Techniques H. Senapati and C.A. Angell	443
Nucleation as a Function of Temperature in the ZrF_4 - BaF_2 Glass Forming Systems around T_g D.R. MacFarlane and L.J. Moore	447
Nucleation and Crystallization in a ZrF_4 - BaF_2 - LaF_3 - AlF_3 Glass R. Mossadegh, S.N. Crichton and C.T. Moynihan	453
The Effect of NaF on the Crystallization of ZBLAN Glasses A.B. Seddon, W.A. Shah, A.G. Clare and J.M. Parker	465
Chloride Doped ZBLAN Glasses J.M. Parker, A.G. Clare, A.B. Seddon, J. Morris and N. Pitt	475
Crystallite Formation in Fluoride Glasses A.J. Drehman	483
Crystallization in Large Volume Samples of Fluoride Glass A.J. Bruce and J.W. Fleming	491
Crystallization in a ZBLANP Core Glass and Optical Fibres S.F. Carter, P.W. France, M.W. Moore and J.R. Williams	511
Thermal Stability and Crystallization of Nitrogen Containing ZBYA Fluoride Glasses S.H. Risbud and W.L. Vaughn	515
Crystallization Kinetics of New Fluoride Glass Compositions L.E. Busse, R.J. Ginther, R. Miklos and T. Izumitani	523
Observation of Phase Separation in Lead Containing ZrF_4 - Based Glasses L. Boehm, K.H. Chung, S.N. Crichton and C.T. Moynihan	533
Phase Separation in Fluorozirconate Glasses J.P. Bradley, G. Lu, C.F. Fisher and M. Robinson	545
Active Optical Applications for Doped Fluoride Glasses and Fibers R.C. Powell and W.A. Sibley	553
Infrared to Visible Light Conversion in Rare Earth Doped Heavy Metal Fluoride Glasses R.S. Quimby, M.G. Drexhage and M.J. Suscavage	557
Multiphonon Relaxation and Infrared to Visible Conversion of Er^{3+} and Yb^{3+} Ions in Barium-Thorium Fluoride Glass W.A. Sibley, D.C. Yeh, M.J. Suscavage and M.G. Drexhage	567
Infrared Optical Transitions of Ho^{3+} Ions in Fluoride Glasses J. Adam, C. Guéry, J. Lucas, J.J. Rubin, B. Moine and G. Boulon	573
Energy Transfer between Manganese (II) and Lanthanides in Fluoride Glasses R. Reisfeld, M. Eyal and C.K. Jorgensen	581
Site Selection Spectroscopy in $ZBL:Eu^{3+}$ Glass J. Adam, J. Lucas, V. Ponçon and G. Boulon	585
Local Symmetry and Optical Spectra of 3d Group Ions in Fluoride Glasses C.K. Jorgensen and R. Reisfeld	593
Fluorozirconate Glass Photoluminescence M. Braglia, M. Ferraris, G. Grego and G. Parisi	597
Time-Resolved Photoluminescence of Fe^{3+} in Fluorozirconate Glasses E.S. Snow, J.A. Freitas and U. Strom	603
Estimation of IR Transparency of $ZnCl_2$-KBr Glass by Molecular Dynamics S. Inoue, M. Tamaki, H. Kawazoe and M. Yamane	609
Contribution of Components of ZrF_4 - Based Glasses to IR Edge Absorption K.H. Chung, C.T. Moynihan, M. Robinson and D.S. Ma	615
Vibrational Characteristics and Structure of Heavy Metal Fluoride Glasses Containing Thorium and Zirconium D.R. Tallant, K.J. Ward, B. Bendow, M. Poulain and M. Poulain	625

Raman Spectra and Structure of Modified Zinc Halide Glasses R.M. Almeida and M.C. Silva	633
Intrinsic Rayleigh Scattering in Fluoride Glasses V.G. Tsoukala, J. Schroeder, G.A. Floudas and D.A. Thompson	637
Direct Electron Microscopic Observation of Continuous Scattering Centers G. Lu and J.P. Bradley	647
Brillouin Scattering and Phonon Attenuation in Halide and Oxide Glasses J. Schroeder, L.G. Hwa, M.C. Shyong, G.A. Floudas, D.A. Thompson and M.G. Drexhage	653
Effects of Neutron Irradiation on Optical Absorption in Heavy Metal Fluoride Glasses S.S. Mitra, P.K. Banerjee, J.M.T. Pereira and S.G. Gedam	671
Photoelastic Characteristics of Fluorozirconate and Transition-Metal Fluoride Glasses A. Feldman, E.R. Fuller, B. Bendow and K. Levin	681
Temperature Related Volumetric Changes in Fluorozirconate Glasses and Melts J.S. Sanghera, C.-. Chu and J.D. Mackenzie	685
