

# Table of Contents

## Preface

## Chapter 1: Friction Stir Welding of Aluminium Alloy

### Development of Numerical Model for the Rotary Friction Welding Process Using Aluminum Alloy

P.Q. Trung, D.D. Khoa and N.G. Lam 3

### Rotary Friction Welding of AA6061 Aluminum Alloy: An Experimental and Simulation Investigation

P.Q. Trung, D.D. Khoa and N.G. Lam 9

### Numerical Modelling of Temperature Distribution and Defect Prediction during Friction Stir Welding of Aluminum Alloy

P.Q. Trung and L.D. An 15

### Experiment Design and Process Optimization for Aging Friction Stir Welds in 6061 Aluminum Alloy

B.D. Khanh, P.Q. Trung and D.D. Qui 21

## Chapter 2: Battery Electrolytes

### Influence of Lithium Salts on Solid Electrolyte Interphase Formation and Interfacial Resistance in Silicon Monoxide-Based Lithium Secondary Batteries

H. Yun and S.K. Jeong 29

### Evaluation of LiPF<sub>6</sub>, LiTFSI, and LiBOB Electrolytes for Cellulose Based Solid Polymer Electrolytes (SPEs)

M. Wahyu Andriyan, M.R. Saputra, E.P. Astuti, Z. Alfatinnisa, R. Khairiyah, P.S. Rinjani, C.I.R. Azzahra and I. Alkian 35

## Chapter 3: Heat and Mass Transfer in Engineering Systems

### Effect of Inclined Angle of Perforated Splash Fill Plate on the Performance of Forced Draft Wet Cooling Tower

K. Umurani, A. Syuhada, M.I. Maulana and Z. Fuadi 45

### Machine Learning Model Evaluation for Predicting Damper Control to Regulate Temperature in Isolation Room

M.S. Fajar Sabri, S. Rizal, R. Kurniawan, T.F. Abidin, Z. Fuadi and R. Thaib 55

### Simulation of Adiabatic Flow Patterns and Flow Pattern Map of R134a in Vertical Micro Tubes

A.M. Sahar, M.S.A. Ishak and Y.N. Zaiazmin 63

### Performance Analysis of an Open-Circuit Subsonic Wind Tunnel Using Computational Fluid Dynamics

M. Syaukani, I.D. Arirohman, F.S. Sadono, A. Muhyi, D.G. Cindi Alfian and P.A. Paristiawan 71

### Theoretical Prediction of the Thermophysical Properties of FeSi Melts

M.M. Hussain, R.P. Chaudhary, A.P. Singh, J. Mandal and I.S. Jha 83

### Numerical Simulation of SiO<sub>2</sub>/Water Nanofluid Heat Transfer and Turbulent Flow in Rectangular Obstacle Channel

F.Z. Barhdadi, I. Jamal, K. Amghar and S. Daoudi 101

### Numerical Investigation of Turbulent Fluid Flow and Heat Transfer Phenomena

I. Jamal, F.Z. Barhdadi, K. Amghar and S. Daoudi 123

### Unsteady Radiative Magnetohydrodynamic Flow over a Chemically Reacting Porous Stretching Plate Considering the Soret Effect

A.K. Sarma, D. Sarma, S. Mudoi, A.D. Adeshola, K. Issa, A.A. Kayode Jimoh and A.M. Obalalu 135

### Hydro-Mass Exchange Processes in the Model of Steel Ladle during Bottom Purging

L. Molchanov, T. Golub, N. Arendach and A. Koveria 151
