

Table of Contents

Preface

Chapter 1: Steels and Alloys

Influence of Additives of Nanoparticles on Structure Formation of Fine-Grained Hardmetals	
Y.I. Gordeev, A.K. Abkaryan, A.S. Binchurov, A.A. Lepeshev and V.B. Yasinski	3
Evaluation of Physicomechanical Properties of Ti-45Nb Specimens Obtained by Selective Laser Melting	
Z.G. Kovalevskaya, M. Khimich and A.V. Belyakov	9
Investigation on the Origin of Magnetization in Plastically Deformed $\text{Ni}_{51}\text{Ti}_{49}$ Alloy	
A. Drozdova, A. Nyavro and L. Kveglis	13
The Effect of Preliminary Mechanical Activation on the Structure and Mechanical Properties of $\text{Ni}_3\text{Al}+\text{B}$ Material Obtained by SPS	
L.I. Shevtsova, A.A. Bataev, V.I. Mali, M.A. Esikov, V.V. Sun Shin Yan, D.A. Nemolochnov and T. Zimoglyadova	19
Obtaining Intermetallic Compound Copper-Tin: Plasma Dynamic Synthesis and Spark Plasma Sintering	
A. Sivkov, A. Ivashutenko, Y. Shanenkova, I. Shanenkov and Y. Polovinkina	25
Investigation of Structure and Magnetic Properties of 36NiCrTiAl Alloy and 12Cr18Ni10Ti Steel Welded Joints	
E. Korotkova, L. Kveglis, B. Akhmedzhanov and I. Vershinin	31
Microstructural Changes of Mechanical Properties of 08Cr18Ni10Ti Austenitic Steel under Neutron Irradiation	
D.E. Ashimov, E.T. Koyanbayev, S.R. Kurbanbekov, A. Sitnikov and M.K. Skakov	37
Technology of Ti-Al-Nb Obtaining by Use of Spark Plasma Sintering Method	
E. Kozhahmetov, B. Karakozov and S.R. Kurbanbekov	41

Chapter 2: Composites

Obtaining a Metal Composition Material by Dynamic Interaction of the Melt with Reinforcing Fibers	
D. Chernikov and V. Glushchenkov	47
Pre-Treatment of Vegetable Waste in the Production of Composite Materials	
R.R. Safin, F.V. Nazipova, S.R. Mukhametzyanov and A.E. Voronin	53
Contact Melting Mechanism in the Cu-Ti System	
V.G. Shmorgun, O.V. Slautin, D.A. Evstropov and V.P. Kulevich	58
Influence of Compression Load and Counterface Roughness on Abrasive Wear Characteristic of UHMWPE	
N. Sonjaitham and N. Puangmalee	63
Features of the Defectiveness of Nanomodified High-Strength Lightweight Concrete Based on Hollow Microspheres	
A.S. Inozemtcev and E.V. Korolev	68
A Technology for Production of Carbon-Graphite-Aluminium Alloy Composite and Areas of its Application	
V.A. Gulevskiy, P.S. Golovinov, A.S. Knyazeva and N.A. Kidalov	73

Chapter 3: Function Materials

Anisotropic Materials Based on Magnetic Microwires in EHF Range	
A.I. Berdugin, V.U. Vigovskiy, A.V. Badin and G.E. Kuleshov	81

Analysis of Statistical Characteristics of Quasi-Breather with Soft-Type of Nonlinearity in the Crystals of A₃B Stoichiometry P.V. Zakharov, A.M. Eremin, M.D. Starostenkov and I.S. Lucenko	86
The Effect of Heat Treatment on the Shape Memory Effect and Superelasticity in NiMnGa Single Crystals M. Pichkaleva, E. Timofeeva, A. Tagil'tsev, E. Panchenko and Y. Chumlyakov	91
Creating a Varistor Based on Zinc Oxide (ZnO) Powder Obtained by Plasma Dynamic Method K. Firsov, A. Sivkov, I. Shanenkov, I. Rakhmatullin, A. Ivashutenko and Y. Shanenkova	95
Technology for Processing Electro-Shunter Axle Bearing of Electric Locomotive VL-60 A.E. Chagin, A.N. Klepikov and A.V. Korchmit	99

Chapter 4: Coatings and Surfaces

A Production Method for Wear-Resistant Deposited Coatings Modified with TiN Particles A. Artem'ev, G. Sokolov, A. Antonov, I. Zorin, Y. Dubtsov and V.I. Lysak	107
Structural Characteristics of Diamond-Like Carbon Films Synthesized by Different Methods A. Zolkin, A. Semerikova, S. Chepkasov and M. Khomyakov	112
Metallographic Study of Mesostructure-Ordered Plasma Ceramic Coatings V.I. Bogdanovich and M.G. Giorbelidze	118
Modification of Calcium Phosphate Microarc Coatings Surface by Boehmite Nanoparticles V.V. Chebodaeva, M. Sedelnikova and Y.P. Sharkeev	124
Plasma-Immersion Modification of Nitinol Surface with Silicon to Improve the Corrosion Resistance of the Alloy in Biological Media P.V. Abramova, A.V. Korshunov, I.E. Fedorov and A.I. Lotkov	129
Creation of the Combined Heat-Resistant Coating with Gradient Modification of Layers and Methods of its Testing G.I. Shaidurova, I.L. Vasilyev and Y.S. Shevyakov	135
The Mathematical Modeling of the Initial Stage of Ion Implantation into the Target with Coating E.S. Parfenova	138
Comparison of SPH and MLSM for Powder Particle Impact Modelling R.O. Cherepanov and A.V. Gerasimov	142
Mechanical Properties and Structure of the Hypereutectic Silumin Treated by an Electron Beam M.E. Rygina, Y.F. Ivanov, A.P. Laskovnev, A.D. Teresov, N.N. Cherenda, V.V. Uglov, E.A. Petrikova and O.V. Krysina	146

Chapter 5: Research and Simulation of the Mechanical Properties of Structural Materials

A Three-Dimensional BEM for Dynamic Analysis of Anisotropic Elastic Multi-Connected Bodies L.A. Igumnov and I. Markov	153
Modeling of Wave Propagation in the Unsaturated Soils Using Boundary Element Method A. Petrov, S. Aizikovich and L.A. Igumnov	158
Determination of Ultimate Dimensions of Crack-Like Defects in a Wall of Vertical Steel Tanks with Specified Volume of 20000m³ A. Lyagova	162
The Dynamic Analysis of a Slab on a Poroviscoelastic Halfspace under Vertical Load via BEM L.A. Igumnov and A.A. Ipatov	166
Prediction of Mechanical Properties of Ceramic Biocomposite on the Basis of Numerical Modeling V.A. Mikushina, I.Y. Smolin and Y.N. Sidorenko	172

The Simulation of Titanium-Aluminium Composite with Intermetallic Inclusions Behavior under Compression	
L.M. Gurevich, V.G. Shmorgun, D.V. Pronichev and R.E. Novikov	176
Modeling the Formation of Grain Boundaries as a Result of Two-Sided Crystallization Using Molecular Dynamics	
P.S. Volegov and R.M. Gerasimov	181
The Effect of a Severe Plastic Deformation by Groove Pressing on the Grain Structure of the Al-Mg Alloy	
E.N. Moskvichev, V.V. Skripnyak, D.V. Lychagin and V.A. Krasnoveikin	187
Features of Dynamic Strain Aging of Low-Carbon Steels during Severe Plastic Deformation Processing	
G.N. Aleshin, G.I. Raab and I.S. Kodirov	191
Contributions of Various Strengthening Mechanisms to the Flow Onset Stress in the ECAP-Processed Cu-Cr-Zr Alloy	
I. Faizov, G.I. Raab and D. Aksenov	197
Mechanical Properties of Ultrafine-Grained Al-Mg Alloy Produced by Severe Plastic Deformation	
A.A. Kozulin, V.A. Krasnoveikin, V.A. Skripnyak, E.N. Moskvichev and V.E. Rubtsov	203
Influence of the Sheet Metal Anisotropy on Polythickness of the Skin after Stretch Forming	
S. Surudin, Y.A. Erisov and D. Chernikov	207
The Implementation of Algorithm Iterative Conversion for Three-Component Composite on the Example of Solution of the Bending Plate Problem	
K. Manabaev, M. Pavlov, O. Kazakova and A. Vakurov	212
The Hybrid Effective Modules of Viscoelastic Composites	
A. Svetashkov, F. Simankin, N. Kupriyanov and A. Lushnikov	217
Change of Void Volume of Steel Sheet Rough Layer after Deformation by Roll with Given Surface Roughness	
V. Belov, E. Gubarev, D. Begletsov and O. Krivko	223

Chapter 6: Technologies of Mechanical Processing and Joint of Materials

Researching Signals from Workpiece Backside during Electron Beam Welding in Full Penetration Mode	
S. Varushkin, V. Belenkiy and D. Trushnikov	231
Simulation of Honing of a Processed Workpiece on CNC Machine	
E.S. Grigoryev, R.R. Kadyrov, P.N. Charikov and V.V. Pryanichnikova	236
Electron Beam Welding of Dissimilar Materials	
V.A. Frolov, A. Melnikov and A.V. Korchmit	241
Finishing and Hardening of a Flat Surface Ring Area of a Workpiece by Rotary Burnishing	
V.P. Kuznetsov, V.V. Voropaev and A.S. Skorobogatov	245
Computer Simulation of Machining	
I.E. Zvonarev, A.I. Folomkin and E.H. Muratbakeev	248
Influence of Cutting Tool Wear on Contact Stresses and Temperature Distribution in Titanium Alloy Machining	
V. Kozlov, J.Y. Zhang, E. Letshiner and W.Z. Zhao	252
Split Cutter Method for Contact Stresses Research over Flank Surface of a Cutter	
V. Kozlov, J.Y. Zhang, J. Cui and M. Bogolyubova	258
The Structure and Mechanical Properties of VT23 Welded Joints with Surface Layer Modified by Ultrasonic Mechanical Forging	
A. Smirnova, Y. Pochivalov, V. Panin, A. Orishich, A.G. Malikov, V. Fomin and A. Gorbunov	264
Optimization of Solid Rocket Motor Quenching in Gas Dynamic Tunnels during Firing Bench Tests	
G.I. Shaidurova, S.V. Patrulin and A.A. Nazartsev	269
Features of the Metal Structure Formation in Cryogenic Equipment during Long-Term Operation at 4.2 K	
B.S. Ermakov, S. Ermakov and A. Salokeeva	273

Chapter 7: Electrochemical Processes and Materials

Performance Characteristics of Solid Oxide Fuel Cells with YSZ/CGO Electrolyte A.N. Kovalchuk, A.M. Lebedinskiy, A.A. Solovyev, I.V. Ionov, E.A. Smolyanskiy, A.V. Shipilova, A.L. Lauk and M.R. Rombaeva	281
Electrocatalytic Oxidation of Hydrogen Peroxide on the Graphite Electrode Based on Silver Nanoparticles D. Perevezentseva, E.V. Gorchakov, D. Fedotova, V. Bimatov and E. Triphonova	287
The Porous Structure Characterization of Products of Non-Equilibrium Electrochemical Oxidation of Copper and Cadmium A. Dolinina, V. Korobochkin, N. Usoltseva, I. Frolova, M. Popov, E. Popova and V. Kozik	292
Polymer Membranes for Hydrogen Fuel Cells A. Dyussebekova and V. Sokhoreva	297

Chapter 8: Materials and Technologies of Environmental Engineering

The Oxidative Destruction of Substandard Tributyl Phosphate Organic Solutions under Mild Conditions T. Volgina, A. Posvyashchennaya and E. Frantczuskaia	305
Study of the Sorption Properties of Synthetic Sorbents Produced Based on Alumino-Phenylsiloxane M.A. Samus, S.G. Krasitskaya, M.I. Balanov, N.P. Morgun and M.A. Tsvetnov	310
The Electrochemical Method of Oil-Contaminated Soil Remediation V.V. Pryanichnikova, N.S. Shulaev, N.A. Bykovsky and R.R. Kadyrov	314
Phytotesting as a Method of Determining the Degree of Eutrophication of Water Objects R.R. Daminev, I.V. Ovsyannikova, L.R. Asfandiyarova, G.V. Yunusova and D.A. Zhukov	319
Effects of AC Frequency on the Physicochemical Characteristics of Water M.T. Ba, D.S. Azimov, A.S. Knyazev and G.K. Ivakhnyuk	326
Recycling Red Mud of JSC Ural Aluminum Plant with the Recovery of Iron and Construction Materials D. Zinoveev, P. Grudinsky, V. Korneev, V. Dyubanov and M. Zheleznyi	331
The Effect of Drilling Waste on Water Resources - The Elemental Composition of Waste A.S. Mishunina, A.A. Mekh and E.G. Yazikov	338
Electrochemical Recycling of Still Waste Liquid in Ammonia Soda Production N.A. Bykovsky, P.A. Rahman, L.N. Puchkova and N.N. Fanakova	342

Chapter 9: Organic Chemistry and Biotechnologies

Study of Antigenic Activity of Experimental Samples of the Conjugated Vaccines Based on Synthetic Oligosaccharide Ligands and CRM197 Carrier Protein against <i>Candida albicans</i>, <i>Aspergillus fumigatus</i> and <i>Pseudomonas aeruginosa</i> E.G. Bogomolova, S.A. Ishchuk, O.A. Dobrovolskaya, E.A. Fedorova, I.V. Dukhovlinov and A.S. Simbirtsev	349
Ionic Liquids as Catalysts for the Acetylation of Camphene S.A. Popova and I.Y. Chukicheva	355

Chapter 10: Simulation of Physicochemical Processes in Metallurgical and Chemical Technologies

Optimization of the Blast Furnace Operating Modes for Identification of the Areas of Unimprovable Solutions L. Kazarinov, D. Shnayder and T. Barbasova	363
Numerical Modelling of the Molten Metal Flow in a Disk Agitator Mixer M. Khmeleva, A. Tokhmetova, L. Minkov, V. Dammer, S. Vorozhtsov and E. Shrager	369

Separation Features in Hydrocarbon Media at Thermobaric Regimes of Petroleum Preparation Devices Functioning	
E.V. Nikolayev, S.N. Kharlamov and L. Meucci	373
Heat Treatment of Crushed Wood in Rotary Drum Dryers	
R.R. Safin, S.R. Mukhametzhanov, R.V. Salimgaraeva and E.A. Beliakova	378
Numerical Simulation of Flow Distribution in the Packed Bed Reactor with the Supply Nozzle Placed on the Sidewall	
I.A. Yakovlev, S.D. Zambalov and V.A. Skripnyak	383
Analysis of Accumulation and Crystallization of Boric Acid in the Reactor Core during WWER Emergency Operation	
A.V. Morozov, A.V. Pityk, S.V. Ragulin and A.S. Soshkina	389
The Study of Technological Mode Options for Production of Oil of Required Quality	
S. Dzhaliilova and V.I. Erofeev	394

Chapter 11: Technologies of Rational Use and Processing of Mineral Resources

Composition Development and Production Technology of Stone Casting Silicate Materials and Items	
A.O. Artemov, M.N. Ignatov, A.M. Ignatova and S.V. Naumov	401
Development of Slag Base for Welding Fluxes from Man-Made Mineral Formations of Ural Mining and Smelting Companies	
S.V. Naumov, M.N. Ignatov, A.M. Ignatova and A.O. Artemov	406
The Use of the Finite Element Method for Ensuring Efficient and Safe Extraction of Minerals	
D. Ilyukhin and V. Gusev	411
Ore Mineralization in Adular-Fluorite Metasomatites: Evidence of the Podgolechnoe Alkaline-Type Epithermal Gold Deposit (Central Aldan Ore District, Russia)	
V.I. Leontev and Y.Y. Bushuev	417
The Geochemical Features of Epithermal Gold-Telluride (Au-Te) Ores of the Podgolechnoe Deposit (Central Aldan Ore District, Yakutia)	
Y.Y. Bushuev and V.I. Leontev	422
Methods of Increasing Strength of Aluminosilicate Ceramics Based on Semi-Flint Clay Raw Materials	
T.V. Vakalova, L.P. Devyashina and A.P. Potapova	426
Comparison of the Projected Results of Coarse Thermal Coal Cleaning in Various Gravity Separation Apparatuses	
V. Kandinskiy, I. Korolev and V.I. Udovitskiy	431
The Impact of Microwaves of Different Timing on the Structural and Chemical Characteristics of a Carbonaceous Natural Material	
L.V. Kashkina, E.A. Petrakovskaya, T.Y. Yemelyanova and O.P. Stebeleva	437

Chapter 12: Testing Methods and Numerical Simulation

X-Ray Tomography Simulation Based on Direct Radon Transform	
A. Ozdiev	445
Numerical Simulation of Heat Transfer in a Closed Two-Phase Thermosiphon	
V. Arkhipov, A. Nee and L. Valieva	449
A New Approach to the Assessment of the Analysis Method Accuracy	
E. Bosikova, M. Polyakova and G. Rubin	454
Automatized Control of Polymer Optical Parts	
F. Glushchenko, T. Grishukov and S. Vasilkov	459
The Use of Electromagnetic-Acoustic Method for Estimating the Stress-Strain State of the Metallic Elements of Power Equipment	
I.G. Khusnutdinova and M.G. Bashirov	463
The Optimization of Parameters of a Technological Tank Battery for Liquefied Petroleum Gas	
O. Medvedeva and N. Bessonova	468

Numerical Simulation of the Steady-State Herschel-Bulkley Fluid Flow in a Channel with Sudden Expansion	
E. Hegaj and E. Borzenko	474
Numerical Simulation of Newtonian Fluid Flow in a T-Channel with no Slip/Slip Boundary Conditions on a Solid Wall	
E. Borzenko and O. Dyakova	480
Use of Acoustic Parameter Measurements for Evaluating the Reliability Criteria of Machine Parts and Metalwork	
S. Barannikova, A. Lunev, J. Li and L. Zuev	486
