

Table of Contents

Hydrogen in Compound Semiconductors-Introduction S.J. Pearton	1
The Role of Hydrogen in UHV Growth of III-V Semiconductors C.R. Abernathy	3
The Role of Hydrogen in the Growth of III-V Compound Semiconductors by OMVPE W.S. Hobson	27
Role of Hydrogen in Semiconductor, Dielectric and Metal Deposition onto InP by Means of Rapid Thermal Low Pressure Metalorganic Chemical Vapor Deposition A. Feingold and A. Katz	61
Hydrogenation of III-V Semiconductors during Processing S.J. Pearton	113
Sources of Hydrogen in III-V Device Processing F. Ren	141
Plasma Passivation of III-V Semiconductor Surfaces E.S. Aydil and R.A. Gottscho	159
Hydrogen Implantation in III-V Compound Semiconductors and its Redistribution with Annealing J.M. Zavada and R.G. Wilson	189
Hydrogen Diffusion in Compound Semiconductors J. Chevallier	219
Vibrational Spectroscopy of Dopant-Hydrogen Complexes in III-V Semiconductors M. Stavola	251
Hydrogen in Crystalline Gallium Phosphide B. Clerjaud, D. Côte and W.S. Hahn	281
Hydrogen in Ternary and Quaternary Materials A.Y. Polyakov	295
Shallow Levels Passivation in Implanted and Plasma Hydrogenated Compound Semiconductors B. Pajot	321
Theoretical and μSR Studies Related to Hydrogen in Compound Semiconductors S.K. Estreicher	349
Hydrogen in III-V Compound Semiconductors S.J. Pearton	393
Spectroscopy of Hydrogen-Related Defects in III-V Semiconductors by Nuclear Techniques M. Deicher and W. Pfeiffer	481
Hydrogen in III-V Device Structures S.A. Stockman and G.E. Stillman	501
