

# Table of Contents

## Preface

<b>Hot Double-Sided Incremental Forming of Fiber-Reinforced Thermoplastics: Process Capabilities and Challenges</b> J.E. Rath, D. Nettig and T. Schüppstuhl	1
<b>Classifying Parameters and Target Variables in Incremental Sheet Forming of Fiber Reinforced Polymers</b> D. Nettig, J.E. Rath, J. Kipping and T. Schüppstuhl	11
<b>Comparative Analysis of Die Materials for Reducing the Rebound-Effect in Electromagnetic Forming Processes</b> R. Walther, L. Fleischer, M. Linnemann, V. Psyk and V. Kräusel	27
<b>Comparison of PEEK and UHMWPE Cranial Implants Fabricated at Room Temperature Using Single Point Incremental Forming (SPIF)</b> E. Mamros, A. Clark, P. Barnett, I. Ragai, S. Derek and K. Laser Jr	37
<b>Combined Finite Element Simulation and Regression Modeling for Predicting Final Protrusion Length of Twisted Hairpin Legs in Stators</b> D. Han, D. Cho, S. An and J.W. Yoon	51
<b>Design and Development of a Hydrostatic Support Device for Hot Incremental Sheet Forming of PMMA</b> R. Conte, S. Trimarchi, F. Gagliardi, L. De Napoli and G. Ambrogio	59
<b>Numerical Study of Process-Specific Disturbances in Hollow Embossing Rolling</b> F. Reuther, V. Psyk and V. Kräusel	65
<b>On the Surface Quality of Incrementally Formed Niobium Sheets</b> A. Formisano, A. Astarita, M. Garlaschè, U. Prisco, F. Scherillo and M. Durante	75
<b>Numerical Investigation and Optimization of Blank-Holder and Magnetorheological Actuators Configurations for Deep Drawing Objectives</b> M. Dal Maso, E. Simonetto, A. Ghiotti, S. Bruschi, S. Filippi, L. Hauser and M. Liewald	83
<b>Feature Based Investigation of the Forming Behavior of Titanium Grade 1 for Bipolar Plate Manufacturing</b> J. Sommer, L. Uhlmann, M. Meerkamp, T. Herrig and T. Bergs	95
<b>Pressure Wave Analysis in Electrohydraulic Forming - A Multiple Sensor Approach</b> L. Langstädtler, A. Tausendfreund and C. Schenck	107
<b>Numerical Modeling of Controlled Multi-Step Expansion in Plasma Arc Welded AISI 316 Stainless-Steel Tubes</b> F. Borda, S. Caruso and L. Filice	115
<b>Multivariate Analysis of Scrap Web Sheared Surface Roughness for Punch Wear Indicators in Sheet-Metal Forming</b> J. Moon, A. Frigge, P. Niemietz, T. Herrig and T. Bergs	125
<b>Extending the Process Window of Sheet Injection in AW6082-T6 Aluminium via Localised Laser Heat Treatment</b> J.P.G. Magrinho, A. Cusanno, M. Jesus, A. Piccininni, G. Palumbo and M.B. Silva	135
<b>Gas Based Hot Forming of Micro-Channels for High Strength Aluminum Alloy Sheets</b> K.J. Tilly, E. Scharifi and J. Lian	143
<b>Mechanical Characterization by Profilometry-Based Indentation Plastometry of Locally Heat-Treated Blanks for Sheet Injection Applications</b> A. Cusanno, J.P.G. Magrinho, A. Piccininni, P. Guglielmi, D. Sorgente, G. Palumbo and M.B. Silva	151
<b>Influence of Process Parameter Variations on Stamping-Bending Component Quality</b> M. Buchner, M. Damaškovič, L. Koller, W. Volk, M. Althoff and C. Hartmann	159
<b>Hybrid Hot Forming of High-Strength Aluminum Alloys: Influence of Local Deformation on Post-Aging Mechanical Properties</b> M. Gröbel, K.J. Tilly, E. Scharifi and J. Lian	171
<b>Mitigation of Geometric Inaccuracy in Closed-Contour Incremental Sheet Forming via Curvilinear Toolpath</b> Z. Mu, Y. Lee, J. Abell, A. Taub and M. Banu	181

<b>Multi-Stage Roller Embossing of Bipolar Plate Microchannels Using 3D-Printed Tooling</b> M. Khademi, P.N. Zhang, M.P. Pereira and M. Weiss	191
<b>Experimental and Numerical Investigation of AA6061 Tube Flowformability</b> K. Mocellin, N.M.R. Kauta and P.O. Bouchard	207
<b>Resistance Heating in an Atmosphere Suitable for XHV with Thin Aluminium Film Coating</b> B.A. Behrens, S. Hübner, U. Holländer, A. Langohr, A. Schnettger, H. Depke and L. Albracht	217
<b>Rubber Forming as a Novel Manufacturing Approach for Bipolar Plates in Fuel Cell Systems</b> B.A. Behrens, S. Hübner, S. Pauli, H. Rüschkamp, S. Kimmina, D. Fink and B. Yaaalimadad	227
<b>Single Point Incremental Forming (SPIF) of Stainless Steel 304 Quilted, Laser Welded Blanks</b> E. Mamros, D. Shaffer, I. Ragai and A. Clark	243
<b>Reducing the Uncertainty in Flow Forming of Metastable Austenites</b> L. Kersting, M. Koyuncu, B. Arian, J.R. Vasquez, A. Trächtler, W. Homberg and F. Walther	253
<b>Agile Tube Roll Forming, a New Process Architecture for Manufacturing of Longitudinally Welded Tubes</b> A. Beigzadeh, E. Simonetto, A. Ghiotti and S. Bruschi	267
<b>Finite Element Analysis of Flexible Roll Forming of Height Variable Profiles Made of Advanced High Strength DP980 Steel</b> M.O. Görtan, U. Türkmen, I. Kuzucu, E. Çivisöker and R. Ervan	277
<b>Innovative Bending Strategies - Optimization of Bent Components to Suit Individual Load Cases Using Overbending and Underbending Strategies for the Free-Form Bending Process</b> V. Böhm, T. Spörer, M. Ott, G. Fuchs, P. Richter, J. Tschannerl, L. Kong, A. Ismail, S. Münstermann, B. Lohmann and W. Volk	285
<b>Local Reinforcement of SPIF-Formed Mg-Zn-Zr Alloy Thin Sheets by TIG Welding</b> E. Ozden, O. Kurtov, H. Vanhove and J.R. Duflou	295
<b>Hybrid Analysis of Tool Geometry and Process Noise in Fine Blanking through Simulation and Experiment</b> D. Gelbich, F. Schweinshaupt, T. Stoel, P. Niemiets, T. Herrig and T. Bergs	305
