## Preface and Committees

## Chapter 1: Robotic Research and Application of Robots

<b>A Plea for the Cognitive Solution Attempt: Cognitive Robotics, Cognitive Factory and Cognitive Solutions. Cognitive Robotics as a Model for the Development of Cognitive Solutions</b> M. Haun	3
<b>Mechanisms for Small and Micro Robotic Devices</b> Š. Havlík and J. Hricko	11
<b>Prototype Model of Walking Robot</b> T. Mikolajczyk, T. Fas, T. Malinowski and Ł. Romanowski	21
<b>Development of Robotic Vehicle in the Intermediate Category Suitable for Deployment in Rough Terrain</b> L. Vargovčík, J. Jezný, F. Šofránek, J. Šarloši and R. Surovec	29
<b>Development of Motion Control of Legs in Six-Legged Robotic Vehicle</b> J. Fetyko, J. Jezný, R. Úveges and V. Fedák	36
<b>Concept of the Model Robotized Cell for Plasma-GMAW Hybrid Welding</b> Z. Pilat and J. Szulc	43
<b>Motion Coordination of Two Robots in Cartesian Space Based on Mechanical Impedance</b> A. Slota	53
<b>Proposal of Multi Robotic Cells for Production Lines</b> M. Hajduk, V. Baláž, L. Koukolová and J. Zubrzycki	60
<b>Simple Image Processing Algorithms for Robot Navigation in Unknown Environment</b> F. Duchoň, M. Králík, A. Babinec and P. Hubinský	66
<b>Development of CyberFish – Polish Biomimetic Unmanned Underwater Vehicle BUUV</b> M. Morawski, M. Malec and J. Zajac	76
<b>Smart House - The Building Management System</b> A. Piotrowski and T. Nieszporek	83
<b>Straight-Line Mechanisms as One Building Element of Small Precise Robotic Devices</b> J. Hricko	96
<b>Multi-Devices Application with Industrial Robot</b> M. Sukop	102
<b>Harmonic Drive Products in Robotic</b> A. Buss and V. Trhoň	112
<b>Optimal Design of Robot Gripper Mechanism Using Force and Displacement Transmission Ratio</b> S. Krenich	117
<b>New Generation of Mobile Platform of Service Robot for Motion along Vertical Walls</b> M. Horák, F. Novotný, M. Starý and J. Černohorský	126
<b>Support of the Implementation of Modern Automation and Robotics Solutions through the Application of Innovative Training Methods and Techniques</b> M. Smater and J. Zieliński	132
<b>Construction of a Rescue Robot: Robotic Arm Module</b> F. Orság and M. Draňanský	139
<b>Observation as Learning Methods in Simple Visual System of Vehicle Control</b> K. Wójcik	144
<b>Automatic Detection of the Connected Module and its Orientation</b> Z. Bobovský	151
<b>Autonomous Parking of Small Vehicle</b> V. Šlapák, J. Bačík, M. Pajkoš and M. Lacko	157
<b>Insect Pheromone Strategy for the Robots Coordination</b> J. Zelenka and T. Kasanický	163

<b>Computer-Aided Design of Human Knee Implant</b> J. Zubrzycki and N. Smidova	172
<b>Robotic Cell Control System Standardization</b> M. Mudrák, P. Hubinský and T. Mudráková	182
<b>Connecting Interface for Construction of Modular Structures</b> J. Svetlík	190
<b>Research and Development of Rehabilitation Robotics in Poland</b> Z. Pilat, W.J. Klimasara, Ł. Juszyński and A. Michnik	196
<b>Robotic System Design with CA System Support</b> A. Javorova and M. Kusa	208
<b>Solution Collision Relations in Multirobotic Systems</b> J. Semjon	214
<b>Materials Having a High Degree of Adhesion for Gripping Elements Designing</b> M. Horák and F. Novotný	220
<b>Application Area of Multiagent Systems – Modular Robotics</b> R. Jánoš	226
<b>Optimization Trajectory in Handling with the Same Object</b> M. Vagaš	230
<b>Mathematical Model Design of Small Helicopter - Unmanned Aerial Vehicle Development</b> J. Bačík, R. Sivý and V. Šlapák	236
<b>Proposal of Multirobotic System with Two Robots</b> V. Baláž, M. Vagaš, J. Semjon and J. Zubrzycki	243
<b>Measurement of Transmission Nonlinearities in Servodrives</b> M. Pajkoš, V. Šlapák, R. Sivý and F. Ďurovský	248
<b>Robust Rubik's Cube Detection Using Hough Transform and Advanced Clustering Functions</b> F. Ďurovský	253
<b>Design of Pneumatical Rubik's Cube Solver</b> J. Varga, F. Ďurovský and J. Kováč	265
<b>Utilization of Virtual Reality Connected with Robotized System</b> J. Kováč, F. Ďurovský and M. Hajduk	273
<b>The Chosen Aspects of Self-Reconfigurable Robots</b> M. Vagaš, V. Baláž, J. Semjon and L. Koukolová	279
<b>Analysis of Power Relations in the Design of Effector for Unilateral Gripping with Active Vacuum Suction Cup</b> P. Tuleja and E. Šidlovská	286
<b>Palette - Assembly Cell with Robot SCARA</b> V. Baláž	292
<b>Variability of Workplace Structures with SCARA Robot for Palletizing and Sorting Objects</b> L. Koukolová	299
<b>Analysis of Flow Rates in the Design of Effector for Unilateral Gripping with Active Vacuum Suction Cup</b> E. Šidlovská and P. Tuleja	304
<b>Design of Module for Robots Preliminary Calculation</b> R. Jánoš	310
<b>Modular Approach for Design of Technology Units with Rotary Positioning Modules</b> J. Semjon, J. Varga, M. Sukop, V. Cop and M. Popcak	314
<b>Analysis of Design Today Exoskeletons in the Health Field</b> P. Hořvová	320
<b>Simulation of Collision Situations in RobotStudio</b> L. Baločková, E. Prada, A. Titka and T. Lipták	325

## **Chapter 2: Automation of Production Processes**

<b>Modelling of Dynamic System Characteristics of Deep Hole Drilling Process with Tools about Flexible Stiffness</b> J. Zubrzycki, A. Świć and M. Opielak	333
--	-----

<b>The Solar Tracker – A Control System and a Frame Construction</b> A. Piotrowski and T. Nieszporek	340
<b>On Line Videooptical System for Weld Groove Analysis</b> T. Mikołajczyk, M. Mikołajczyk and A. Skibicki	350
<b>Accuracy Control in the Machining of Low Rigidity Shafts</b> A. Świć, D. Wołos, J. Zubrzycki, M. Opielak, A. Gola and V. Taranenko	357
<b>Some Aspects of Interoperability of Enterprise and Manufacturing Systems</b> J. Pękala	368
<b>New Standard in Scanning of Welding Electrodes by Using Visualization</b> M. Tolnay, M. Hajduk, M. Bachratý and M. Králík	379
<b>Application of Hot Gas Powder Sintering in Robotics</b> S. Ondrej, E. Gondár, M. Martančík and M. Buranský	386
<b>Accuracy of Rapid Prototyped Models with Using of FDM Technology</b> J. Beniak, P. Križan and M. Matúš	390
<b>New Tendency of Machine Tool Study Based on Virtual Machining Software Applied at University of Oradea</b> C. Bungău, M. Ganea and R. Pancu	396
<b>Simplified Calculation of the Eccentric Press Stiffness</b> P. Demeč and D. Palaščáková	402
<b>A Prototype of a Bitmap CNC Engraver</b> M. Batmend, D. Perdukova and P. Fedor	408
<b>Implementation of Computer System for Support of Technological Preparation of Production for Technologies of Surface Processing</b> J. Svetlík, P. Baron, J. Dobránsky and M. Kočíško	418
<b>Characterization of the Positioning Accuracy and Precision of MEMS Die Servoing Using Model-Based Visual Tracking</b> O. Matúšek, V. Hotař, G.J. Laurent, B. Tamadazte and C. Clevy	426
<b>The Structural of the Basic Module for Construction of Modular Machines</b> R. Turisová and J. Svetlík	434
<b>Industry as a Key Factor for Economic Recovery and Competitiveness of the Europe</b> V. Kyseľová	441
<b>Integration of Complex Maintenance System in Operation</b> A. Žilinský	446
<b>2D-Shape Analysis Using Shape Invariants</b> T. Stejskal	452
