Chapter 1: Advanced Treatment of Industrial Waste

Removal of Fe (II) from Aqueous Solution by Chitosan Activated Carbon Composite Beads P. Wulan, Y. Kusumastuti and A. Prasetya	3
Performance Evaluation of Water Filter Made from Oyong (<i>Luffa cylindrica</i>) Fiber Coated with Silver Nano Particles for Coliform Bacteria Removal in Wastewater A. Nurmiyanto, L.I. Ardhayanti, A. Wigati and C. Laksono	9
Vegetable Waste and Food Waste Treatment Using Modified Aerobic Composting Reactor Y. Yuriandala, N. Laily and F.B. Maziya	16
Bioleaching of Valuable Metals from Spent Catalyst Using Metabolic Citiric Acid by <i>Aspergillus niger</i> H.T.B.M. Petrus, H. Manurung, R.J. Aditya, R. Amanda and W. Astuti	23
Optimization of Laccase Production from <i>Penicillium</i> sp. LX/08 for Biodelignification of Ramie (<i>Boehmeria nivea</i> L. Gaud) A.P. Wulandari, Z. Illiyyin and H. Risdianto	29

Chapter 2: Waste Management in the Paradigm of Sustainable Development

Minimize the Solid Waste by Reducing the Rubber Compound Consumption in the Outsole Manufacturing Company R.B.S. Wulung and M.Z. Rifai	39
Organic Waste Management and Integrated Bio-Cycle Farming System for Sustainable Development in Tropical Ecosystem C. Agus, P.A.B. Cahyanti, B. Suhartanto and P. Noviyani	45
A New Paradigm for Solid Waste Management in Integrated Waste Management Site Piyungan Yogyakarta, Indonesia D. Prihandoko, A. Budiman, C. Fandeli and P. Setyono	51
Municipal Solid Waste Characteristic and Energy Potential in Piyungan Landfill A.L.S.M. Sihombing and R. Darmawan	58
Quality of Municipal Solid Waste Compost from Mechanical Biological Treatment (MBT) E. Lestianingrum and Misnen	64
