Table of Contents

Preface

Chapter 1: Hydraulics, Hydrology and Water Resources

A. Hairani, D. Legono and A.P. Rahardjo	3
Simulation of Angular Flow in a Shallow Basin Triggered by a Rotating Vertical Cylinder by SPH Method	
Warniyati, R. Triatmadja and N. Yuwono	15
Groundwater Engineering Computation Methods Based on Forchheimer's Equation S. Sunjoto	23
Rain Behaviour at Mt. Merapi Area as Observed by XMPR and ARR R. Hambali, H.G. Mawandha, D. Legono, R. Jayadi and S. Oishi	34
Development of Batch Photocatalytic Solar Reactor into a Continuous System to Degrade Peat Water into Clean Water Gusfiyesi, H. Sawir and E. Handika	42
Microbiological Quality Assessment of Drinking Water in Teros Village, East Lombok District, West Nusa Tenggara Province, Indonesia B.L. Widiyanti, I.L.S. Purnama, A.H. Sutomo and Setiadi	48
Universitas Gadjah Mada Drinking Water Supply System (UGM-DWSS) Potential on Supporting Green Campus Program in Universitas Gadjah Mada A.S. Fahrianto, I. Supraba, R. Triatmadja and B. Kamulyan	55
Campus Drinking Water Supply System Performance Analysis Universitas Gadjah Mada of Yogyakarta	
T. Setiawan, R. Triatmadja, I. Supraba and B. Kamulyan Policy Analysis of Clear Water Symply System (CWSS) Poyeler ment (Case Study of	64
Policy Analysis of Clean Water Supply System (CWSS) Development (Case Study of Kotamobagu's CWSS) A.N. Damopolii, R. Triatmadja and I. Supraba	70
Impact of Sedimentation Counter Measure on the Performance of Flood Control: A Case	
Study of Wonogiri Reservoir R. Jayadi, Istiarto and A.G. Pradipta	78
Chapter 2: Structural Analysis, Construction Methods and Materials	
Hypocenter Analysis of Aftershocks Data of the Mw 6.3, 27 May 2006 Yogyakarta Earthquake Using Oct-Tree Importance Sampling Method	89
Hypocenter Analysis of Aftershocks Data of the Mw 6.3, 27 May 2006 Yogyakarta	
Hypocenter Analysis of Aftershocks Data of the Mw 6.3, 27 May 2006 Yogyakarta Earthquake Using Oct-Tree Importance Sampling Method A. Wulandari, A. Anggraini and W. Suryanto The Damping Mechanism of Steel-Rubber Composite Beam under Flexural Dynamic Excitation H. Priyosulistyo, F. Picauly, B. Suhendro and A. Triwiyono	89 98
Hypocenter Analysis of Aftershocks Data of the Mw 6.3, 27 May 2006 Yogyakarta Earthquake Using Oct-Tree Importance Sampling Method A. Wulandari, A. Anggraini and W. Suryanto The Damping Mechanism of Steel-Rubber Composite Beam under Flexural Dynamic Excitation	
Hypocenter Analysis of Aftershocks Data of the Mw 6.3, 27 May 2006 Yogyakarta Earthquake Using Oct-Tree Importance Sampling Method A. Wulandari, A. Anggraini and W. Suryanto The Damping Mechanism of Steel-Rubber Composite Beam under Flexural Dynamic Excitation H. Priyosulistyo, F. Picauly, B. Suhendro and A. Triwiyono Modified Chicken Claw (Cakar Ayam Modifikasi) System - A New Concept in Green Pavement Technology over Soft and Swampy Ground B. Suhendro Numerical Investigation on the Buckling Failure of Slender Tubular Member with Cutout Presence	98 106
Hypocenter Analysis of Aftershocks Data of the Mw 6.3, 27 May 2006 Yogyakarta Earthquake Using Oct-Tree Importance Sampling Method A. Wulandari, A. Anggraini and W. Suryanto The Damping Mechanism of Steel-Rubber Composite Beam under Flexural Dynamic Excitation H. Priyosulistyo, F. Picauly, B. Suhendro and A. Triwiyono Modified Chicken Claw (Cakar Ayam Modifikasi) System - A New Concept in Green Pavement Technology over Soft and Swampy Ground B. Suhendro Numerical Investigation on the Buckling Failure of Slender Tubular Member with Cutout Presence M. Iman, B. Suhendro, H. Priyosulistyo and Muslikh	98
Hypocenter Analysis of Aftershocks Data of the Mw 6.3, 27 May 2006 Yogyakarta Earthquake Using Oct-Tree Importance Sampling Method A. Wulandari, A. Anggraini and W. Suryanto The Damping Mechanism of Steel-Rubber Composite Beam under Flexural Dynamic Excitation H. Priyosulistyo, F. Picauly, B. Suhendro and A. Triwiyono Modified Chicken Claw (Cakar Ayam Modifikasi) System - A New Concept in Green Pavement Technology over Soft and Swampy Ground B. Suhendro Numerical Investigation on the Buckling Failure of Slender Tubular Member with Cutout Presence	98 106
Hypocenter Analysis of Aftershocks Data of the Mw 6.3, 27 May 2006 Yogyakarta Earthquake Using Oct-Tree Importance Sampling Method A. Wulandari, A. Anggraini and W. Suryanto The Damping Mechanism of Steel-Rubber Composite Beam under Flexural Dynamic Excitation H. Priyosulistyo, F. Picauly, B. Suhendro and A. Triwiyono Modified Chicken Claw (Cakar Ayam Modifikasi) System - A New Concept in Green Pavement Technology over Soft and Swampy Ground B. Suhendro Numerical Investigation on the Buckling Failure of Slender Tubular Member with Cutout Presence M. Iman, B. Suhendro, H. Priyosulistyo and Muslikh Comparison of Wind Load Analysis Results Based on Indonesia Minimum Design Loads Standard SNI 1727:2013 Inputted Automatically and Manually by Using SAP2000 O.T. Handayani, M.D. Syaher and I.S. Irawati Cost Estimation Model for I-Girder Bridge Superstructure Using Multiple Linear Regression and Artificial Neural Network	98 106 122 132
Hypocenter Analysis of Aftershocks Data of the Mw 6.3, 27 May 2006 Yogyakarta Earthquake Using Oct-Tree Importance Sampling Method A. Wulandari, A. Anggraini and W. Suryanto The Damping Mechanism of Steel-Rubber Composite Beam under Flexural Dynamic Excitation H. Priyosulistyo, F. Picauly, B. Suhendro and A.
