

Table of Contents

Preface

Chapter 1: Innovative Materials

Influence of Zinc Substitution on Hydroxyapatite Structure Prepared by Chemical Precipitation Method	
N. Nuamsrinuan, P. Naemchanthara, P. Limsuwan and K. Naemchanthara	3
Improve the Electrical Properties of the ITO-PET Polymer by Plasma Technique	
K. Janpong and P. Suanpoot	8
Phase Transition and Microstructure Development of BaTiO₃ by Thermal Development of BaTiO₃ by Thermal Decomposition Method	
S. Suntaropas, P. Thonglor and N. Albutt	13
The Grain Structure of Nd Doped Y₂NiMnO₆ Ceramics Sintered at High Temperature	
N. Albutt, S. Pechprasarn, S. Sawekwiharee, A. Kuttiyawong, P. Thonglor and T. Sareein	18
Investigations on Luminescence Properties of Ce³⁺ Ion Doped Bismuth Borophosphate Glasses	
N. Chanthima, T. Sareein, Y. Tariwong, J. Kaewkhao and N. Sangwaranatee	22
Investigation of Luminescence Properties of Dy³⁺ Doped Alkaline Earth Oxides Barium Phosphate Glasses	
N. Chanthima, Y. Tariwong, T. Sareein, J. Kaewkhao and N.W. Sangwaranatee	27
Electrostriction of Dielectric Elastomer Based on Natural Rubber/Graphene Composites for Actuator Applications	
D. Jaaoh, R. Jarawae, M. Intan and H. Chaidana	32
Conductivity Modification of Carbon-Based Nanocomposites	
T. Thurakitseree and W. Leenakul	41
Complete Phase Change of Y₂NiMnO₆ Ceramics Doped with TiO₂ at High Temperature	
N. Albutt, S. Pechprasarn, S. Sawekwiharee, A. Kuttiyawong, P. Thonglor and T. Sareein	47
The Acoustic Impedance and other Properties of (1-3) Piezoceramics Polymer Composite	
T. Tunkasiri, J. Tontrakoon, G. Rujijanagul, U. Intatha, K. Pengpat, K. Sutjarittangtham, W. Leenakul and S. Eitssayeam	51
Effects of Rate-Controlled Sintering on Phase Formation, Dielectric and Ferroelectric Properties of Cobalt Oxide Doped BNKT Ceramics	
C. Kruae-In, S. Inthong and W. Leenakul	57
Synthesis of Molybdenum Trioxide: Structure Properties and Sensing Film Preparation	
U. Inpan, P. Leangtanom, P. Pookmanee, S. Phanichphant and V. Kruefu	62

Chapter 2: Innovation in Food Chemistry, Biotechnologies and Environmental Engineering

Correlation and Multiple Regression Model for Economic Traits of Local Rice (<i>Oryza sativa</i> L.) in Upland Rice System	
T. Kajonphol, N. Seetaput, M. Precharattana and C. Sangsiri	71
Antioxidant Activities of Transgenic Flower Over-Expressing FLS and TT8 Involving in Flavonoid Biosynthesis	
D. Dangrit and K. Sompornpailin	78
An Antagonism of Isolates of Root-Associated Bacteria Consortia Habituating in Banana Rhizosphere	
D. Nicomrat, P. Soongsombat, N. Suenonmueng and N. Marjang	83
A High Potential in Activating Beneficial Indigenous Microbes Involving in the Meat Fermentation Process	
D. Nicomrat and S. Chamutpong	89
Effect of Spacing and No. of Seedling per Hill on Growth and Yield Components of Rice cv. Chai Nat 1 under System of Rice Intensification	
T. Kajonphol, S. Tonwong, S. Nonthakod, C. Sangsiri and M. Precharattana	95

Phytochemical and Nutritional Values of Local Plants in the Phraek Nam Daeng Community Samut Songkhram Province Thailand U. Polyium and N.T. Phinthida	101
The Study of Calcium Oxide from Cockle Shell Used as a Low-Cost Catalyzer for Biodiesel Production N. Nuamsrinuan, P. Limsuwan and K. Naemchanthara	108
Lactic Acid Bacteria Starter Participating in Hygienic Long Shelf-Life of the Plaa-Som Fermented Product D. Nicomrat, M. Lakthandee, N. Suenonmueng and N. Marjang	113
Distribution of Residue Carbofuran and Glyphosate in Soil and Rice Grain W. Chansuvarn and S. Chansuvarn	118
Removal of Phosphate from Wastewater Using Carbonized Filter Cake W. Chansuvarn	125
Adsorption of Cadmium(II) Ion from Aqueous Solution onto a Raw Material of Bamboo Powder and its Surface Modification W. Chansuvarn, Y. Pandee, A. Saechim and K. Habunmee	131
Immobilization of Peroxidase from Cauliflower Stem on Ultrafiltration Membrane for Phenol Removal K. Ratanapongleka and A. Onsarn	137
Determination of Contaminated Heavy Metals in Lacquer Thinner W. Chansuvarn and K. Jainae	144

Chapter 3: Building Materials

Effect of Banana Fibers on Mechanical and Physical Properties of Light Weight Concrete Blocks W. Deelaman, K. Chaochanchaikul and K. Tungsudjawong	151
Determination of Mass Attenuation Coefficients of Cement Paste Containing Ilmenite and Barite for γ-Rays S. Jaiyen, A. Phunpueok and R. Potong	156
Fabrication and Properties of <i>Panicum repens</i> Reinforced Cement V. Boonyaroj and S. Saramanus	161
A Feasibility Study Using Para Rubber Leaves for Prototype Lightweight Flat Sheet Production V. Boonyaroj, S. Sanguanpak and W. Shongkittikul	166

Chapter 4: Sensors, Measurements and Mechatronics

Designing of Universal WGM Biosensor from Micro Ring Resonator C. Sripakdee and N. Sarapat	173
Qubit Noise within Micro PANDA Ring Resonator in QKD Process C. Sripakdee	178
Entangled Photon Source of Quantum Key Generator from Micro Ring Resonator for QKD Use C. Sripakdee	183
Implementation of Variable Speed Drive for Oil-Pump System N. Phanthuna and S. Thongkeaw	188
Shielding Effect and Guarding in High Resistance Measurement N. Phanthuna and C. Jassadajin	196
Analytical Processing Development of Tin Element Using Wavelength Dispersion X-Ray Fluorescence (WDXRF) Technique N. Nuamsrinuan, W. Kaewwiset, P. Limsuwan and K. Naemchanthara	201
All-in-One Flow Injection Spectrophotometric System for Field Testing S. Panich and L. Pisnui	206
The Initial Perturbation for Mesoscale Predictability S. Saiuparad	212

Improvement the Largest Lyapunov Exponent for Measurement the Northeast Monsoon Prediction S. Saiuparad	217
Compact Fluorescence Microscope for Smartphone and Tablet S. Pechprasarn, P. Pimonsakonwong, P. Kulikhandan, P. Suvarnaphaet, W. Pongruengkiat, P. Suksan and N. Albutt	222
Development of Low-Cost Abbe Refractometer W. Pongruengkiat, T. Jungpanich, K. Ittipornnusun, S. Pechprasarn and N. Albutt	227
Gas Detector System for Industrial Use M. Thawornsin, W. Ritthong, C. Sangna, P. Lorwongtragool and N. Albutt	234

Chapter 5: Innovative Technology in Mechanical Engineering

Voltage Fluctuation Reduction of Industry with Voltage Regulator (VR) on Power Distribution System N. Phanthuna and S. Thongkeaw	241
An Approach to Development of Manufacturing Data Report According to International Standards P. Singhatham, C. Singhatham, N. Panya and S. Pukjaroon	248
The Design of Medium Size Voltage Capacitor in order to Improve the Power Factor N. Rugthaicharoencheep, A. Charlangsut and C. Boobpa	254
Indoor Rainbow Model: An Apparatus for Observing Spectrum in Classroom S. Choegyal and M. Precharattana	260

Chapter 6: Modern Technologies in Education

Seesaw Balancing: A Hands-On Model to Understand Moment of Force in Classroom P. Kitrunloadjanaporn, A. Phothong and M. Precharattana	269
Development of Computer-Assisted Instruction Lesson on Immune System Organs and Immune System Diseases M. Precharattana	276
Development of an Interactive Multimedia Michelson Interferometer Experiment C. Banglieng, S. Jaiyen and J. Authisin	284
Development of an Educational Experiment Setup for Measuring the Speed of Sound S. Sirathanakul	290
The Helper and Guide System for Cooperative Education via Web Application P. Singhatham, N. Panya, C. Chaitep and R. Kaewlai	295
