

Table of Contents

Preface, Technical Committee, Sponsors

Analysis and Design of Blast Resistant Structure

E.T. Geethu, K. Rai and S. Sithara 1

Numerical Analysis of Shear Buckling of Steel Plate with Cut Outs

S. Shaji and D. Varghese 7

A Finite Element Study of Eccentricity in Axial Compression and Transverse Impact Loading on Cold Formed Stiffened Steel Column

J. George and N. N I 13

A Review of Diagrid Systems for Lateral Load Resistance of Structures

A.P. Minu, A.S. Sajith and N. Praveen 19

A Study on Delays in Construction Projects

A. Manzur, N. Ganesan and M. Vinay 24

A Study on the Seismic Performance of Hexagrid System with Different Patterns

M. Ria Mathews, J.M. George, B.M. Issac and D. Davis 30

An Experimental Study on the Compressive Strength of Alccofine with Silica Fume Based Concrete

K.S. Rajesh, A.K. Samanta and D.K. Singha Roy 36

Analysis of Bombay High Jacket during Load out and Transportation

S. Sabu and T.P. Somasundaran 41

Analytical Study on Effect of Geometry of Tall Buildings on Diagrid Structural Systems Subjected to Lateral Loads

E.A. Anjana, R. Renjith and B.M. Issac 47

Comparative Study of Steel Beam Column Connection under Cyclic Loading

S. Anisha and D. Krishnan 53

Effect of Fibres on Beam Column Joint Failure

J.S. James and M.M. James 59

Effect of Nanoparticles on Strength and Durability Properties on Cement Mortar

P. Prathebha, S. Aswini and J. Revathy 65

Efficacy of Importance Factor in Seismic Design of Indian Buildings

V. Sukumar, J. Arunachalam and D.C. Haran Pragalath 71

Evaluation of Stress Block Parameters for Steel Fibre Reinforced SCC with Recycled Concrete Aggregate

E.J. Neethu and S.R. Akhil Raj 76

Experimental Investigation on Use of Shredded Thermocol to Formulate a Light Weight Concrete Mix for Concrete Filled GFRG Panels

N.A. Nandan and R. Renjith 82

Experimental Study on Corrosion Behaviour of Concrete Containing Bottom Ash as Partial Replacement of Fine Aggregate

K.M. Priyaa, P. Srinivasan and P. Gajalakshmi 88

Experimental Study on Crack Width Evaluation of R.C Beams and Comparison with Various Codes

U. Lekshmi, M. Sherin Joseph and S. Krishna Kumar 95

Experimental Study on the Effect of Recycled Aggregate and GGBS on Flexural Behaviour of Reinforced Concrete Beam

P.R. Deepa and J. Anup 101

Experimental Study on the Flexural Behavior of Hollow Core Concrete Slabs

L.V. Prakashan, J. George, J.B. Edayadiyil and J.M. George 107

Finite Element Analysis of Post Tensioned I-Beam with Web Openings

A. Jyothis and M. Vinay 113

Flexural Performance of SCS Sandwich Beam with Foamed Concrete

M. Sivachidambaram and J. Revathy 119

Free Vibration Analysis of Building Considering Soil Structure Interaction

T.T. Beegam and T. Sebastian 125

Interaction of Blast Load on AASHTO Girder Bridge G. Nikhil and N. N I	131
Investigation on the Behaviour of Fibre Reinforced Polymer Wrapped Concrete In-Filled Steel Tube Columns P. Gajalakshmi, S. Aravind and P. Soundarapandian	136
Nonlinear Finite Element Analysis of Unreinforced Masonry Walls S.T. Feba and B. Kuriakose	142
Numerical Analysis of Steel Reinforced Concrete Deep Beam with Openings Using ANSYS R. Biju, N.S. Mani and K.K. Kumar	148
Numerical Analysis of Thin Plates with Holes P.V. Gokul, B. Kuriakose and S.T.N. Kurian	154
Numerical Analysis of Through-Beam Connection between CFST Column and RC Beam P.N. Anupama, M. Anu and K.K. Kumar	159
Parametric Study of Single Cell Box Girder Bridge under Different Radii of Curvature J. Sali and R.P. Mohan	165
Performance of Lean Duplex Stainless Steel Stub Columns with Stiffener K.C. Vidya and G.M. Varghese	171
Period Formula for Reinforced Concrete Buildings with Infill Walls A. Banik and L. Halder	177
Properties of High Strength Fibre Reinforced Concrete Using Ultra Fine Slag C.M. Lal and V. Sai Srujan Reddy	183
Pushover Analysis of Buildings Considering Soil-Structure Interaction P.V. Joy, B. Kuriakose and M. Mathew	189
Regression Modelling for Prediction of Construction Cost and Duration N. Thomas and A.V. Thomas	195
Hybrid Model for Retrofitting: A Review M.S. Pillai and J.S. Kurian	200
Retrofitting of RC Beams: A Review J.P. Joseph, A. Jose and G.M. Varghese	206
Seismic Analysis of Confined Masonry Shear Walls Using the Wide Column Model K. Rangwani and S. Brzez	212
State of the Art of Non-Linear Devices and Strategies for Vibration Control C.J. Cherian, T.M.M. Pillai and A.S. Sajith	219
Seismic Evaluation of Buildings with Plan Irregularity A.T. Jereen, S. Anand and B.M. Issac	225
Comparative Study on Structural Performance of Different Laminated Glass Composites and Brick Wall V. Varghese, D. Poullose and B.M. Issac	231
Static Analysis of Gravity Dams Considering Foundation-Structure Interaction M. Abraham, B. Kuriakose and R. Kuruvilla	237
Static Analysis of Interlocked Water Tower A.S. Mohan and G.M. Varghese	243
Static and Free Vibration Analysis of Structures Composed of Functionally Graded Material with Random Material Properties A. Komalan and D. Krishnan	249
Structural Health Monitoring Using Piezoelectric Sensors and Actuators A.M. Thomas, K.R. Pradeep and P. Mathew	255
Study of Concrete Filled Steel Tubular Arch Bridge: A Review S. Rajeev, D. John Peter and M.V. Varkey	261
Study of Post-Tensioned and Reinforced Masonry Walls under Lateral Loads S. Abbas and K.P. Saji	267
Sustainable Construction Using Bamboo as Flexural Members N. Hashna and S. Elizabeth Thomas	273
Thermal Buckling Behaviour of Functionally Graded Plates A. Ancy and U. Parvathy	279
