

Table of Contents

Preface

Enhancing the Bonding of Insulated Homogeneous Interfaces in Factory Joints via Ultrasonic Vibration Z.Y. Liu, L. Yin, W. Yang, J.H. Gao, Y. Lv, Z.H. Wu and C.X. Wang	1
Development of a Novel Rivet-Based Joining-By-Forming Process Using Flat Dies D.Y. Unni and M. Strano	9
Influence of Tumbling-Induced Geometric Anisotropy on the Mechanical Performance of Self-Piercing Rivet Joints J. Sarris and M. Lechner	19
Experimental and Numerical Evaluation of L-PBF Printed Tool for Friction Stir Welding M. Zambelli, S. Bocchi, M. Negrozio, G.D. D'Urso, C. Giardini and L. Antonini	29
Micro Friction Stir Spot Welding for Copper Current Collector Applications - An Experimental Study N. Schwichtenberg, M. Tesch, M.E. Sigl, M. Goeldner and M.F. Zaeh	41
Influences of the Rolling Parameters on Multi-Material Copper-Aluminum Composites via Compound Casting A. Ringel, A.Z. Demirezen, J. Hoyer, D. Bailly, S. Kammerloher, W. Volk and J. Lian	55
A Hybrid Joining Strategy for Al-Cu Bimetallic Sheets Produced by Friction Stir Welding I. Papantoniou and D.E. Manolakos	69
Potentials of Heat Superimposed Rotary Friction Welding for Steel-Aluminium Joints A. Piwek, J. Peddinghaus, J. Uhe, K. Brunotte and B.A. Behrens	77
Tool Geometry Effect in Friction Stir Extrusion of Seamless Tubes from Aluminium Chips R. Puleo, S. Russo, G. Buffa and L. Fratini	89
Effect of Fiber Length in Friction Stir Welding of Discontinuous Composites A. Clark, P. Barnett, E. Mamros, B. Young and I. Ragai	99
Experimental and Numerical Study of Steel-Aluminium Rotary Friction Welding with Heat Flux via Subroutine A.T. Mathew, A. Piwek, J. Mayer, N. Mohnfeld, B. Behrens and J. Uhe	111
Influence of Rolling Temperature on the Mechanical and Formability Properties of AA1050/AZ31/AA1050 Roll-Bonded Sheets M. El Mehtedi, P. Buonadonna, B. Reggiani, R. Pelaccia, L. Donati, G. Loi and M. Carta	127
Effect of Surface Conditions and Tool to Interface Spacing in Refill Friction Stir Spot Welding of Aluminum to Titanium L. Malaske, U. Suhuddin and B. Klusemann	139
Numerical Analysis of the Influence of a Movable Die on Joint Formation in Versatile Self-Piercing Riveting P.K. Kaimann, M. Bobbert and G. Meschut	149
A Numerical Study on the Mutual Influence of Joint Orientation and Component Geometry in Non-Rotationally Symmetric Clinched Joints D.R. Devulapally and T. Tröster	161
Study on the Influence of Gas Pressure Loading Curve on Interface Weld Ratio in Superplastic Forming/Diffusion Bonding of Four-Layer Sandwich Structures S.J. Liu, Y.H. Mu, X.H. Li and H.L. Lei	171
