

# Table of Contents

## Preface

## Chapter 1: Properties of Advanced Polymers and Composite Materials

<b>Compression of New Generation Auxetic Sheets with Viscoelastic Material to be Used in Planing Hull Vessels</b> P. Townsend, T. Frere, G. Jiménez and J.C. Suárez	3
<b>Mechanical Properties of Durian/Luffa Fiber Reinforced Polymer Composite</b> M.K. Afiq, H.T.N. Kuan and C.J. Indor	9
<b>Debonding Study of the Viscoelastic Laminate in Planning Hull Vessels Subjected to Slamming</b> P. Townsend, A. Pincay, N. Matias and J.C. Suárez	17
<b>Comparative Analysis of Flax Fiber-Reinforced Composites and Hybrid Configurations for Enhanced Low Energy Impact Performance</b> S. El Khoury Roupheal, T. Truong-Hoang, G. Lebrun and F. Touchard	25
<b>Sealability Analysis of Aged Elastomer O-Rings for Usage in Solar Thermochemical Water-Splitting Reactors</b> E. Vega Puga, S. Brendelberger, F. Pierno, J. Wischek and C. Sattler	37

## Chapter 2: Materials for Energy Storage Devices

<b>Effect of Electrode Thickness on Capacitive and Self-Discharge Performance of Carbon-Based Supercapacitor</b> M. Deraman, H.S. Kumar, S.A. Shamsudin, M.I. Rosli, F.S. Omar, M.A.R. Othman, M.A. Mohamed, A. Awitdrus, R. Farma and E. Taer	51
<b>Effect of Zinc Oxide Nanofiller on the Ionic Conductivity of Carboxymethyl Cellulose-Based Solid Polymer Electrolyte</b> N.A. Azmi, S.M. Tahir and H.A. Rafaie	63

## Chapter 3: Special Materials

<b>Hemp Shives: A Sustainable Biosorbent for Water Purification by Dye Removal</b> P. Díaz, C. Díaz, E. Muñiz and M. Díaz-Somoano	73
<b>Study on High Densification M-Type Ferrite Sintering Technology</b> L. Zhong, P.Y. Ren, C.J. Wu, Q.F. Li, X.N. Jiang, K. Sun, Z. Yu and Z.W. Lan	87

## Chapter 4: Green Building Materials

<b>Dynamic Behaviour of Geopolymer Concrete with Varied Compositions and Equivalent Compressive Strengths</b> M. Aown and S. Al-Deen	97
<b>Flexural Characteristics of Eco-Friendly Self-Compacting Concrete with Rice Husk Ash</b> M.H. Mohd Hashim, M.F. Muda, M.H. Mohd, N.M. Fadzil, M.D. Abdul Shahid, H. Ahmad and N. Pujirahayu	103
<b>High-Volume Fly Ash Concrete for Road Pavement: Integrated Laboratory and Field Study</b> T.P. Le, D.T. Nguyen, T.K. Lam, H.P.D. Ninh and T.P. Huynh	109
<b>Recycling of High-Volume Fly Ash and Bottom Ash in Sustainable Concrete Pavement</b> D.T. Nguyen and T.P. Huynh	115
