

Table of Contents

Preface, Committees, Sponsor

Chapter 1: Metals and Alloys

Effect of Heat Treatment on Microstructure and Hardness of Internal Crack Healing in a Low Carbon Steel R.S. Xin, Q.X. Ma and W.Q. Li	3
Influence of Particle Size Distribution, Energy Condition and Reactivity of the Deposited Material on Nanopatterning of Surface Layers Made of Shape Memory Materials Z. Blednova, P.O. Rusinov and M.E. Bezmogorychnaya	8
Review of Reheat Crack in Welded Joint of Low Alloy Heat-Resistant Steels Z.B. Chen, Y.S. Lv, W. Shi, Q.Y. Qi and H.B. Wang	15
The Research and Application Status of Inconel 600 Alloy under Extremely Situation H. Zhao, Q.B. Liu and D.W. Yao	21

Chapter 2: Polymers and Composites

Improvement of Water Vapor Permeability of LLDPE/EVA Film with Zeolite A as Filler S. Rukchonlatee, N. Jaisomboon and T. Sooknoi	31
The Production of Core-Shell Structure Carboxylated Carbon Nanotubes/Polypyrrole Composite Materials in Different Reaction Media and Further Investigation on their Core-Shell Structure H.L. Cao, Y.C. Shi, H. Shen, H.D. Zhan and J.R. Liu	37
Dielectric Properties of Pineapple Leaf Fiber Reinforced Epoxy Based Composites E. Jayamani, K.H. Soon and M.K. bin Bakri	42
Comparative Study of Sound Absorption Coefficients of Coir/Kenaf/Sugarcane Bagasse Fiber Reinforced Epoxy Composites E. Jayamani, K.H. Soon, M.K. bin Bakri and S. Hamdan	48
Comparison of Organoclay and PE-g-MA on Properties of Poly(Lactic Acid) and Acrylonitrile-Butadiene Rubber Blends S. Wacharawichanant, C. Wisuttrakarn and K. Chomphunoi	54
Analysis of Research Trend of Composite Material Using CNT Y.D. Koo and D.H. Jeong	60
The Preparation and Testing of Rheological Properties for Single- and Double-Grading Magnetorheological Composite Gels F. Guo, X.G. Lin and G.J. Yu	65

Chapter 3: Coatings and Surfaces

Research on the Stability of Thermal Barrier Coatings under Thermal Cyclic Loading J. Sun, Y.Q. Xu, W.Z. Li and K. Lv	75
Corrosion Mechanism Analysis of a 20[#] Carbon Steel Lightning Rod on a Substation Y.T. Zhou, J.G. Wang, H.Y. Zheng, J.Z. Hu, J. Zhang and J.Y. Hu	81
Synthesis of Ti-Zr-V Non-Evaporable Getter Thin Films Grown on Al Alloy and CuCrZr Alloy L.H. Wu, C.M. Cheng, C. Shueh, C.K. Chan, C.C. Chang, S.Y. Perng and I.C. Sheng	87

Chapter 4: Materials and Technologies for Electronics and Optoelectronics

Effect of Rapid Thermal Annealing on the Structural Evolution and Electrical Property of Gold Films Deposited on Silicon V. Janardhanam and C.J. Choi	97
A Study of Oxide Etch Angle of Edge Termination Field Plate for Fabrication of SiC SBD E.G. Kang	102
Non Linear Optical, Thermodynamic Analysis and Spectroscopic Investigation of GPA Optical Materials X.J. Liu, X. Sun and J.H. Guo	106
Assessing Retinal Hazardous Effects from Phosphor Converted Light Emitting Diode (LED) Lighting with Different Correlated Color Temperature (CCT) Y.M. Shang, L.L. Lee, J.M. Hwang, G.S. Wang and C.P. Cheng	112
Cyclic Voltammetry Measurement for n-Type Cu₂O Thin Film Using Copper Sulphate-Based Solution F. Mohamad, K.H. Cheong, N. binti Zinal, N. binti Mohamad Arifin, A.S. binti Mohd Hanif, N.H. Muhd Nor and M. Izaki	119

Chapter 5: Materials and Technologies for Biomedical Applications

Different Molecular Weight Chitosans Prepared via the Ionic Liquid Hydrolysis and their Antibacterial Activity R.R. Fu, X.J. Ji, Y.F. Ren, G. Wang and B.W. Cheng	127
Comparison of Mechanical Properties of Three Different Orthodontic Latex Elastic Bands Leached with NaOH Solution T. Pureprasert, N. Anuwongnukroh, S. Dechkunakorn, S. Loykulanant, C. Kongkaew and W. Wichai	135
Metal Ion Release and Cytotoxicity of Titanium Orthodontic Miniscrews K. Kosayadiloka, N. Tangjit, S. Luppapornlarp and P. Santiwong	141
Shear Bond Strength and ARI Score of Chemically Cured Orthodontic Adhesive Resins P. Nidhiritdhikrai, N. Anuwongnukroh, S. Dechkunakorn and W. Wichai	148
Mechanical and Physical Properties of Various Types of Dental Floss L. Supanitayanon, S. Dechkunakorn, N. Anuwongnukroh, T. Sriksirin, P. Roongrujimek and P. Tua-Ngam	155
Loading and Unloading Forces Following Addition of 5% Cu in Nickel-Titanium Alloy Used for Orthodontics A. Phukaoluan, S. Dechkunakorn, N. Anuwongnukroh, A. Khantachawana, P. Kaewtatip, J. Kajornchaiyakul and W. Wichai	161
Microwave-Assisted Synthesis of Unmodified Gold Nanoparticles for Colorimetric Detection of Dopamine E. Detsri, K. Kamhom and C. Detsri	167
Preparation, Characterization and Applications of Enzyme-Free Glucose Sensors J.C. Hong and G. Qin	172
Facile Preparation of Gold Nanoparticle Modified Pencil Graphite Electrode C. Puttharugsa and P. Limnonthakul	177

Chapter 6: Materials and Technologies in Environmental Engineering

Characteristics and Properties of Absorption Materials for Mercury Removal at High Temperature H.W. Cheng and C.T. Yu	185
A Novel Application of Expanded Glass Materials in Sulfate Reducing Bacteria Cultivation Z.N. Wang, X.Y. Liu, Q.Y. Gu and M.J. Zhang	190
Preparation of β-Cyclodextrin Polymer by Inverse-Phase Suspension Polymerization and its Capability for Phenol Removal S.T. Cai, J.X. Luo and H.W. Liu	195
Study on Mn-Fe-LDH Material for Remediation of Arsenic Contaminated Water W.Z. Wang and J.M. Bian	200

Enhanced Performance of Sulfate Reducing Bacteria (SRB) Granules Process by Using Diatomite as Functional Carrier Material Q.Y. Gu, X.Y. Liu and Z.N. Wang	206
Generation Efficiency of Tracking Type Floating PV Energy Generation Structure Using Fiber Reinforced Polymer Plastic (FRP) Members J.H. Yoo, S.H. Kim, D.J. An, W.C. Choi and S.J. Yoon	212

Chapter 7: Technologies for Chemical Engineering and Materials Processing in Mechanical Engineering

Characterization of Vinyl Ester/Jute Fiber Bio-Composites in the Presence of Multi-Walled Carbon Nanotubes M. Bassyouni, S.M.S. Abdel-Hamid, M.H. Abdel-Aziz and M.S. Zoromba	221
The Effect of pH on Bioleaching of Deerni Pyrite Roasting Residues as Magnetic Materials X.L. Cui, H.E. Zuo and J.K. Wen	226
Research on Water-Based Drilling Fluid for Super Depth and Ultra-High-Temperature Horizontal Wells in Tarim Basin Y.Z. Wang, C.Z. Luo and Y.D. Wang	231
Selective Dispersion of Multi-Walled Carbon Nanotubes in Segmented Polyurethane with Different Melt Mixing Process K. Jirakittidul, K. Khongsakun, K. Khongkhaw and K. Nernplod	237
Research on the Measurement System of Friction Torque for Arc Structure Servo Mechanism W. Wu, J.Z. Shang, Y.J. Cao and N.H. Yu	242
Preparation of FePt Nanoparticles by Pulsed Plasma in Liquid Method S. Tamura, Z. Kelgenbaeva, K. Yamamoto, L.L. Chen and T. Mashimo	248
Cylindrical Pin Embossment on A5083 Aluminum Alloy Substrate Fabricated by Friction Stir Forming T. Ohashi, H.M. Tabatabaei and T. Nishihara	253
Local Postweld Heat Treatment of Heterogeneous Welded Joint Z.B. Chen, Z.Q. Sun and Y.S. Lv	259
Use of Deep Cryogenic Treatment to Reduce Particle Contamination Induced Problem in Hard Disk Drive S. Laksanasittiphan, K. Tuchinda, A. Manonukul and S. Suranuntchai	265
Thermodynamic Research of S-H₂O System in Sodium Aluminate Solution L.C. Zheng, Z.W. Liu, K.Q. Xie, W.H. Ma and K.X. Wei	272
New Automatic Welding Processes and Deformation Analysis for Large Aluminum Ultra-High Vacuum Chambers C.L. Chen and C.C. Chang	282
Chips Morphology Analysis under Graphene Oxide Suspension with Tungsten Carbide Tool in Drilling Ti-6Al-4V S. Yi, G.X. Li, S.L. Ding and J. Mo	289
Study on the Cutting Characteristics of Drilling CFRP Using Exterior Materials of Automobile S.H. You and S.H. Oh	295
Investigation of Chip Dimensional Characteristics Created by the Specific Cutting Tool at the Machining of 12 050 Steel K. Monkova, P. Monka, S. Hric, V. Ondek and M. Urban	301
Influence of Deposition and Laser Treatment on Some Characteristics of Medium Carbon Steel K. Monkova and P. Monka	306
Study on the Development of Demagnetizing System for Hub Bearing Inner of Automobile S.H. You and S.H. Oh	312
Effects on Mechanical Properties of Solid State Recycled Aluminium 6061 by Extrusion Material Processing S.N. Ab Rahim and M.A. Lajis	317
Study on Electromagnetic Incremental Aluminium Alloy Tube Bulging with Casting Pipe Y.T. Zhu and J.H. Mo	321

Low Temperature Synthesis of the Carbon Micro Materials S.E. An and S.H. Kim	327
Effect of Mechanical Activation on the Structural Parameters of Ceramic Powders cBN-Co, hBN-Co P.O. Rusinov and Z. Blednova	333
Development of the Internal Tube Material Properties for a Self-Inflating Tire M.J. Kim, T.W. Park, C.H. Lee and I. Seong	339

Chapter 8: Materials and Technologies in Construction

Flexural Performance Evaluation of Hybrid Concrete Filled Fiber Reinforced Polymer Plastic (FRP) Tube Connection J.H. Seo, J.U. Cheon, K.Y. Shin, S.H. Kim and S.J. Yoon	347
Research on Material Fatigue Test of Steel Fiber Reinforced Concrete under Tension and Compression Loading M.M. Guo, Z.R. Feng and Y. Chen	353
Soil-Cement Ratio and Curing Conditions as the Factors of Soil-Concrete Strength M. Kharun and A.P. Svintsov	358
Experimental Study on Extremely Low-Cycle Material Fatigue Resistance for Two Types of Welded Structural Details L.Z. Huang, W.L. Qu, E.N. Zhao and Q. Zhou	364
Utilization of Sugar Sediment Waste for a Low Cost Lightweight Concrete Development with Environmental Impact Reduction A. Thongtha, S. Maneewan and C. Punlek	369
Life Cycle Assessment of CO₂ Emission of Concrete Considering Carbonation and Structural Element Types L.N. Zhang, F.C. Li and X. Yu	375
Rejuvenator Influence on Aged Binder Material Properties M. Varaus, T. Koudelka and P. Sperka	380
A Study on the Magnesium Sulfate Resistance of Garnet Fiber Concrete S.J. Lee and J.M. Park	389
The Effect of Re-Dispersible Polymer Powders on Cement-Based Self-Leveling Mortar S.B. Sun, J.J. Li and L. Zhao	395
The Effect of Interface Agent on Bonding Strength between Rock Wool Belt and Adhesive Mortar S.B. Sun, T. Du and B.R. Chen	401
Influence of the Nanomaterials of Kaolin Content on the Chloride Permeability of Cement Mortar X.Y. Guo, Y.F. Fan and K. Yang	406
Modeling of Building Materials as Complex Systems I. Garkina, A. Danilov and Y.P. Skachkov	412
Shrinkage Behavior of CFST Members Stored in Natural Environments W.W. Lu and Y.Q. Yang	418
An Experimental Study on the Structural Behaviors of HIRC Beams Using Nickel-Titanium SMA Wires S.J. Lee and J.M. Park	423
The Method Comparison of Anti-Floating of Reinforced Concrete Slab at Underground Business Street F.X. Wang, Z.R. Yuan and H.X. Cai	429
An Experimental Study on the Strengthening Performance of RC Beams Reinforced by NSM CFRP Tendon According to the Surface Treatment of Tendon W.T. Jung, M.S. Keum, J.Y. Kang and J.S. Park	435
Effect of Span-to-Depth Ratio on the Fracture Energy of Foam Concrete N. Abd Rahman, Z.M. Jaini, R.H. Muhammed Rum, S.A.A. Khairuddin and M.N. Zamri	440
The Potential of Recycled Locally-Sourced Waste Materials for Green Roof Soil Mixtures H. Kasmin, S.N.U. Munir, N.S. Razak, N.A. Yusoff, R. Kassim, H. Ahmad and Z. Sayuti	445
Performance Test of Swage Anchorage According to the Insert of CFRP Tendon M.S. Keum, J.Y. Kang, J.S. Park and W.T. Jung	452

A Study on CO₂ Emissions in End-of-Life Phase of Residential Buildings in Korea: Demolition, Transportation and Disposal of Building Materials	
G.W. Cha, W.H. Hong and J.H. Kim	457
Study on the Law of Cement-Soil Mixing Pile Composite Foundation Settlement in Ancient Tower Translocation Project	
D.F. Shang, T.C. Wang, W.M. Qiang and L.Q. Miao	463
Influence of Asphalt Dust Waste Material in Mix Design for Self-Compacting Concrete	
S. Shahidan, I. Ismail, M.S.S. Zulkarnaian and N. Abd Rahman	473
The Effect of the Diameter of Carbon Nanotube on the Mechanical and Electrical Properties of Cement Mortar	
Y.F. Wang, H. Hu and C.Q. Rong	479

Chapter 9: Modeling and Testing of Materials Properties

Elastic Fracture Toughness for Ductile Metal Pipes with Circumferential Surface Cracks	
C.Q. Li, G.Y. Fu and S.T. Yang	489
Pipe Stiffness of Buried Glass Fiber Reinforced Polymer Plastic (GFRP) and Polymer Mortar Pipe with Symmetrical Cross-Section	
J.H. Lee, J.S. Choi, D.M. Ok, S.H. Kim and S.J. Yoon	496
Effects of Support Conditions to the Post-Buckling Behaviors of Axially Functionally Graded Material Rods	
B.S. Gan, T.H. Trinh, T. Hara, D.K. Nguyen and T.T. Tran	502
Numerical Study of Taylor Cone Dynamics in Electrospinning of Nanofibers	
H.F. Guo and B.G. Xu	510
Multiaxial Fatigue Life Prediction of Metallic Materials Based on Critical Plane Method under Non-Proportional Loading	
E.N. Zhao and W.L. Qu	516
Geometrically Nonlinear Free Vibration of Composite Materials: Clamped-Clamped Functionally Graded Beam with an Edge Crack Using Homogenisation Method	
M. Chajdi, E.B. Merrimi and K. El Bikri	521
Modeling and Verification of Relaxation Behavior for Magnetorheological Elastomers with Applied Magnetic Field	
G.J. Yu, X.G. Lin and F. Guo	527
Comparison of the Interface-Capturing Behavior between LSM and MCLS	
Z.L. Liu and Y. Huang	533
Mechanical Properties Prediction of Interlayer Enhanced Laminated Carbon Fiber Composite Materials Containing Inclusions	
Y.Y. Yao, X. Wang and R.S. Dou	541
Calculating Mechanics Characteristics of Single-Walled Carbon Nanotube Materials by Finite Element Method	
J. Ge, H. Jiang, Z.Y. Sun, G.J. Yu, B. Su and T. Sun	548
Measurement of the Welding Full-Field Deformation of the Sheet Material with Different Curvature Based on Digital Image Correlation	
F.C. Meng, J. Liang, J. Li and X.G. Wang	554

Chapter 10: Materials Application in Design Process

Influence of Phase Change Material Application on Photovoltaic Panel Performance	
A. Thongtha, H.Y. Chan and P. Luangjok	563
Viscoelastic Vibration Damping Materials for Application in a Temperature Range above 150°C	
W.F. Wang, X.Z. Lin and Y.L. Ma	569
Development of Sunlight LED Bollard Based on C/GFRP Floodlight Composite	
H.G. Shin, J.H. Oh, D.H. Byun and H.C. Choi	574
Analysis of the Application of Piezoelectric Ceramic Material in the De-Icing Technique of the Aircrafts	
Q.Y. Li and Y.J. ZHU	580

Evaluation of Measurement Uncertainty for Polymer Thin Film Humidity Sensor Using CMH and PRT Based on Dew Point Temperature Variation Y.K. Bae, D.E. Lee and D.H. Hyun	587
Evaluation of Transfer Wicking Behavior of Fibrous Material Ensembles Used by Wildland Firefighters H.L. He and Z.C. Yu	595
An Analysis Model of the Dynamic Characteristics of Brake Pads in Response to Changes in Material Properties M.J. Han, T.W. Park, I.Y. Hwang and J.M. Park	601
Study on Sensor Vibration Reduction Installation Structure with Damping Material of Ground Reflection Pressure Measurement C. Li, D.R. Kong, S.J. Feng and M. Wang	607
Fabrication and Construction of Floating Photovoltaic Energy Generation Structures Using Fiber Reinforced Polymer Plastic (FRP) Members S.H. Kim, Y.S. Won, S.H. Seo, J.K. Park and S.J. Yoon	613
