

Table of Contents

Preface

Chapter 1: Gas Metal Arc Welding

Some Peculiarities of MIG-MAG Welding Processes with Concentrated Energies V.I. Safta, D. Mnerie and G.V. Mnerie	3
Reintroduction in the Process of Operation of Worn Metal Assemblies, from the Composition of Public Transport Vehicles, Using Mechanized MIG/MAG (GMA) Welding Reconditioning, in Conditions of Guaranteeing Traffic Safety I.A. Perianu, L.N. Boilă, R. Cojocaru and E.F. Binchiciu	9
Comparison between Modelled Influence of GMAW Parameters and Corresponding Mechanical Properties of Group 1 and 2 According to ISO/TR 15608 Steel T Joints A.V. Bîrdeanu, A.C. Murariu, H.F. Daşcău and I. Duma	17
Correlation between GMAW Parameters and Mechanical Properties of Hot-Rolled, High-Strength Low-Alloy (HSLA) Steel Butt Joints A.C. Murariu and A.V. Bîrdeanu	25
Effect of the Welding Thermal Cycles Based on Simulated Heat Affected Zone of S1300 Ultrahigh Strength Steel J. Kovács and J. Lukács	33

Chapter 2: Friction Stir Processing

FSW-US Hybrid Process Joining of Engineering Materials G.V. Mnerie, E.F. Binchiciu, O.V. Oancă, I.A. Perianu and L.N. Boilă	47
Possibilities to Apply Friction Stir Processing FSP in Surface Engineering C. Ciucă, L.N. Boilă, R. Cojocaru and I.A. Perianu	56
Processes Developed Based on Friction Stir Welding Process L.N. Boilă, R. Cojocaru, C. Ciucă and V. Verbiţchi	66
Ecological Joining Process of AZ31B Magnesium Alloy L.N. Boilă, R. Cojocaru and V. Verbiţchi	76
ISIM Contributions to the Development of Friction Welding Procedures R. Cojocaru, L.N. Boilă, C. Ciucă and V. Verbiţchi	82
Experiments on Friction Stir Processing (FSP), with Tilted Parent Metal V. Verbiţchi, H.F. Daşcău, L.N. Boilă and R. Cojocaru	95
Friction Stir Welding of Steel Structures - A Brief Review M.O. Crăcănel, E. Niţu and D.M. Iordache	105
Characteristics of Steels Joints Obtained by the FSW Process - A Brief Review M.O. Crăcănel, E. Niţu and D.M. Iordache	120

Chapter 3: Nonconventional Materials Processing Technologies

Study Regarding Process of the Electrical Discharge Machining with Magnetic Activation of the Welded Joints of some Materials High Alloy Steel M.A. ũu, D. Mnerie, D.C. Dragomir and G.V. Mnerie	141
ISIM Own Contributions on Non-Conventional Abrasive Waterjet Cutting Technologies I.A. Perianu, G.V. Mnerie, R. Cojocaru and E.F. Binchiciu	147
FDM 3D Printing Process - Risks and Environmental Aspects M. Ciornei, R.I. Iacobici, I.D. Savu and D. Simion	152
Resistive-IR Hybrid Heating in FDM Printing M. Ciornei, I.D. Savu, N. SÎRBU, S.V. Savu and B.A. Olei	157

Evaluation of the Behavior and Resistance to Cavitation Erosion of the Structure of the CuSn12-C Bronze Obtained by Thermal Treatment of Quenching and Tempering I. Lazăr, I. Bordeasu, I. Mitelea, N. SÎRBU, C.E. Podoleanu, S.T. Duma, L.M. Micu, L.D. Pîrvulescu and M. Hlusu	165
--	-----

New Results of the Heat-Treated CuZn39Pb3 Brass Behavior and Resistance to Cavitation Erosion I. Bordeasu, N. SÎRBU, I. Lazăr, I. Mitelea, C. Ghera, M. Sava, G. Mălaimare and V. Bazavan	173
---	-----

Chapter 4: Shielded Metal Arc Welding and Submerged Arc Welding

Intelligent Materials and their Direction of Use E.F. Bînciciu, R. Stefanoiu, D. Iovăna and G.V. Mnerie	183
---	-----

Numerical Modeling for the Submerging Arc Welding of S700MC Steel S. Mileva, N. Ferdinandov, D. Gospodinov, R. Radev, Y. Angelov and I. Draganov	190
--	-----

Effect of the Root Gap on the Structure and Properties of High Strength Steel S700MC Welds N. Ferdinandov, D. Gospodinov, M. Ilieva and R. Radev	201
--	-----
