## Preface

### Challenges and Interactions in Water Future

J. Niemczynowicz 1

### Forty Years of Urban Water Management in Calabria (Italy)

F. Calomino, P. Veltri and G. Santoro 11

### Strategic River Management with Environmental Considerations in Brunei Darussalam

C.T. Yong 25

### Problems of Water Supply in Estonia

L. Vallner 43

### Water Management and Pollution of a Coastal Aquifer in Cebu, Philippines: Action Taken and Risks

F.B. Walag and H. van Engelen 55

### The Water Crisis in Bangladesh: A Challenge to Integrated Water Management in Urban Areas

M.A. Miah 69

### Urban Water Management in Uncertain Economics

V.G. Priazhinskaya 87

### Integrated Water Resources Management in Fukuoka Metropolitan Area

A. Kawamura and K. Jinno 97

### Runoff Controls in the Sandsli Catchment, Bergen, Norway

S.T. Thorolfsson 111

### Urban Hydrology and Storm Water Management in Jakarta, Indonesia

J. Loebis and Kananto 117

### Integrated Water Management in Urban and Surrounding Areas: Findings of the International Workshops in Essen 1992 and Gelsenkirchen 1994 by the German-Dutch IHP Committee to UNESCO Project M3-3a

W.F. Geiger and K. Hofius 127

### Urban Drainage Master Plan: The Need for Integrated Approaches

B. Braga, M.T. Barros, J.C. Palos, C.L. Ramos and R.H. Martins 153

### Integrated Water Resources Management in the Information Age

R.D. Johanns and J.G. Haagsma 167

### Urban Water Management - Coping with the Complexity of the Urban Environment

P. Hjorth 177

### Sanitation of the Future: A View on Possible Features

B.G. Hellers 191

### Model Approach and Application of Water Quality Management for Urban Areas

A.A. Tskhai and O.P. Dorotshenkov 197

### An Integrated Approach to the Drinking Water Problem of Madras City, India

K. Kumaraswamy 209

### Estimation of the Utilization Possibilities of Overland Flow in Urban Areas in Israel's Coastal Plain

E. Simon 221

### Integrated Water Management in the Quebec City Urban Area: Preliminary Statement on the Need for and Use of a Water Quality Modelling System Based on the Ecosystem Concept

L. Vescovi and J.P. Villeneuve 233

### Using a Pilot Scale Rotating Biological Contactor for the Removal of Nitrate from Groundwater

A. Mohseni and D.J. Elliott 245

### Assessment Considerations of Groundwater Contamination Risks due to Migration of Industrial Effluents in Soils: A Case Study around Bangalore (S. India)

K. Ranga, H.S.S. Rao, G. Ranganna, G.B.M. Kumar and K.V. Lokesh 255

### Possibly Sustainable Sanitation Concepts for Urban Areas

R. Otterpohl and M. Grottker 269

<b>Japan's Efforts to Reduce Discharge of Stormwater and the Role of Sewerage System</b> Y. Chiba, A. Miyata and S. Fujita	279
<b>Managing the Tide?: Towards a Framework for Technology Exchange in the Water Sector</b> M.J. Mouritz and P. Koffel	287
<b>Simplifying Waste Water Treatment by Source Separation Outline for a Biologically Based Grey Water Purification Plant</b> F. Günther	301
<b>Stensund Wastewater Aquaculture: A Small-Scale Model for Sustainable Water Resource Management in Urban Areas</b> A. Chan and B. Guterstam	315
<b>Recent Development in Sanitation</b> U. Winblad	329
<b>Maximum Level of Use of Local Water Resources in Urbanized Territories</b> G.P. Kumciashvili and I.S. Ushakova	335
<b>Greywater Reuse Options: Areas for Further Research in Australia</b> M. Anda, G. Ho, K. Mathew and E. Monk	347
<b>Anaerobic Wastewater Treatment: Experiences in Mexico with Industrial Effluents</b> H.M. Poggi-Varaldo and N. Rinderknecht-Seijas	357
<b>Integrated Water Management in Jakarta Urban Area, Indonesia</b> J. Loebis and Kananto	373
<b>An Approach towards Solving Water Related Environmental Problems in Dar Es Salaam City</b> G.G. Kanza and J. Ndesamburo	379
<b>The Need for Indigenous Engineering Capabilities in Iran</b> P. Monadjemi	395
<b>Diagnosis of Urban Water Systems: A Prerequisite for Introduction of Hydroinformatics</b> C. Maksimovic, D. Prodanovic and S. Djordjevic	399
<b>In-Line Treatment of Domestic Sewage</b> M. Malik, G.K. Anderson and D.J. Elliott	409
<b>Alternative Methods to Avoid Operational and Maintenance Problems with Tree Roots in Storm Water and Sewer Pipes</b> Ö. Stål and B. Mattsson	421
<b>Integrated Systems for Wastewater and Solid Waste Treatment in Urban Areas</b> G. Boari, I.M. Mancini and E. Trulli	431
<b>Analysis of Extreme Event Flooding Using a Mathematical Model</b> L. Berardi, I. Coppa and F. Tupone	441
<b>Warm Season Degradation Phenomena in the Orbetello Lagoon in Italy</b> L. Berardi and F. Tupone	453
<b>Technology Transfer: What Technology and which Level of: Implementation?</b> J. Niemczynowicz	463
<b>Chairmen's Reports</b>	465
<b>Conclusions and Recommendations</b>	473
