Organizers and Committee, Foreword and In Memory of Giovanni Rossi

Chapter 1: Microbial Ecology, Geomicrobiology and Bioprospecting in Natural and Mining Environments

How Flexible are the Prokaryote Consortia in the Extreme Habitat of the Copahue Geothermal System?	
N. Zurakoski, A. Giaveno, R. Ulloa, T.L. Lavalle, M.S. Urbieta and E.R. Donati	3
Microbial Diversity in Acidic Anaerobic Sediments at the Geothermal Caviahue-Copahue System, Argentina	
G. Willis, S. Hedrich, I. Nancucheo, D.B. Johnson and E.R. Donati	7
Cyanobacteria and Photosynthetic Species as Part of the Microbial Community Structure of Biofilms in Copahue Geothermal Springs (Neuquén, Argentina)	
M.S. Urbieta, E. González Toril, A. Aguilera, M.A. Giaveno, E. Donati and E.R. Donati	11
Iberian Pyrite Belt Subsurface Life (IPBSL), a Drilling Project of Biohydrometallurgical Interest	
R. Amils, D. Fernández-Remolar, V. Parro, J.A. Rodríguez-Manfredi, K. Timmis, M. Oggerin, M. Sánchez-Román, F. J. López, J.P. Fernández, F. Puente, D. Gómez-Ortiz, C. Briones, F. Gómez, E.O. Omoregie, M. García, N. Rodríguez and J.L. Sanz	15
Microbiological Communities in Two Acidic Mine Pit Lakes in the Iberian Pyrite Belt (IPB), Spain	
C. Falagán, F.J. Sánchez-España and D.B. Johnson	19
Microbial Ecology in Extreme Acidic Pit Lakes from the Iberian Pyrite Belt (SW Spain)	
E. González-Toril, E. Santofimia, E. López-Pamo, E.O. Omoregie, R. Amils and A. Aguilera	23
Geochemistry and Microbiology in an Acidic, High Altitude (4,000 m) Salt Flat — High Andes, Northern Chile	
L.V. Escudero, J. Bijman, G. Chong, J.J. Pueyo and C. Demergasso	28
Quantification of the Microbial Community in Lateritic Deposits	
O. Coto Pérez, J. Marrero Coto and A. Schippers	33
Proteo and Actinobacteria Diversity at a Sulfide, Salt and Acid-Rich Lake in the North of Chile	
C.S. Davis-Belmar, E. Pinto, C. Demergasso and G. Rautenbach	37
S. Bellenberg, M. Kalin and W. Sand	42
Underground Degradation of Lignite Coal Spoil Material by a Mixed Microbial Community under Acid Mine Drainage Conditions	
S. Willscher, D. Knippert, H. Ihling, D. Kühn and S. Starke	46
Insights into Bacterial Community Structure of a Commercial Copper Bioheapleaching Plant: Growth of Heterotrophic Bacteria in the System	
X.Y. Liu, B.W. Chen and J.K. Wen	50
Enrichment of "<i>Ferrovum</i>" spp. and <i>Gallionella</i> Relatives Using Artificial Mine Water	
J. Kipry, R.J. Jwair, N. Gelhaar, C. Wiacek, E. Janneck and M. Schlömann	54
Comparison of Indigenous and Exogenous Mesophilic Bacteria for the Bioleaching of Low Grade Copper Ores	
J.L. Sun, B.B. Ngom, Y. Liu, H.Q. Yin, Y.L. Liang, X.D. Liu and J.H. Zhu	58
Enrichment and Isolation of Phosphorus Solubilizing Bacteria	
O.K. Priha, T.H. Sarlin, M.E. Arnold and P. Kinnunen	62
A Novel <i>Acidianus</i> Strain Isolated from Copahue, Argentina Involved in the Sulphur Cycle of a Volcanic Environment	
C. Nolasco, P.A. Chiacchiarini, T.L. Lavalle and A. Giaveno	66
Visualization of Attachment and Colonization of Pyrite Surfaces by a Novel Species of <i>Acidianus</i>	
C. Castro, M. Vera, E. Donati and W. Sand	70

Identification and Characterization of a Psychrotolerant <i>Acidithiobacillus</i> Strain from Chilean Altiplano	
S. Barahona, C. Dorador and F. Remonsellez	74
Characterisation of a Novel Genus of Oxalate-Degrading Beta-<i>Proteobacteria</i> Isolated from a Full-Scale Bioreactor Treating Bayer Liquor Organic Wastes	
N.J. Boxall, P.D. Franzmann, A.L. Tilbury, H.J. Nyeboer, A.J. McKinnon, D.C. Sutton and A.H. Kaksonen	79
Molecular Identification of Iron Oxidizing Bacteria Isolated from Acid Mine Drainages in Peru	
M. Abanto, N. Pariona, J. Calderon, G. Guerra, R. Ramirez, F. Delacruz-Calvo and P. Ramirez	84
Environmental Impact on Soil, Water and Plants from the Abandoned Pan de Azúcar Mine	
J. Plaza Cazón, L. Benítez, J. Murray, A. Kirschbaum, P. Kirschbaum and E. Donati	88
Biogenesis of Nanoparticles with Potential Applications as Semiconductor from Chalcopyrite Concentrate	
M.R. Hosseini, M. Schaffie, M. Pazouki, M. Lotfalian, A. Schippers and M. Ranjbar	92
Anaerobic Growth of <i>Acidithiobacillus ferrooxidans</i> on Pyrite	
B. Escobar and T. Vargas	96

Chapter 2: Omics, Molecular Genetics and Biochemistry of Microorganisms in Mining Processes

Attachment to Minerals and Biofilm Development of Extremely Acidophilic Archaea	
R.Y. Zhang, M. Vera, S. Bellenberg and W. Sand	103
Biofilm Formation, Communication and Interactions of Mesophilic Leaching Bacteria during Pyrite Oxidation	
S. Bellenberg, R. Barthen, M. Vera, N. Guiliani and W. Sand	107
New Insights into the Biofilm Lifestyle and Metabolism of <i>Acidithiobacillus</i> Species from Analysis of High Throughput Proteomic Data	
M. Vera, C. Janosch, S. Bellenberg, B. Krok, W. Sand and A. Poetsch	111
EPS Production during Adaptation of <i>Acidithiobacillus ferrooxidans</i> to High Ferric Ion Concentration	
A. Saavedra, B. Pavez, M. Diaz and J.C. Gentina	115
Galactose as Inducer of the Production of Extracellular Polymeric Substances by <i>Acidithiobacillus ferrooxidans</i>	
A. Saavedra, B. Pavez, M. Diaz and J.C. Gentina	120
Effect of Exogenous Galactose on EPS Production during Bioleaching of Pyrite by <i>Acidithiobacillus ferrooxidans</i>	
B. Pavez, A. Saavedra, M. Diaz and J.C. Gentina	125
Characterization of the Quorum Sensing Regulon in <i>Acidithiobacillus ferrooxidans</i>	
S. Mamani, Y. Denis, D. Moinier, M. Sabbah, L. Soulère, Y. Queneau, V. Bonnefoy and N. Guiliani	129
Functional Analysis of c-di-GMP Pathway in Biomining Bacteria <i>Acidithiobacillus thiooxidans</i>	
M. Diaz, S. Copaja and N. Guiliani	133
Thiol-Rich Proteins Play Important Role in Adhesion and Sulfur Oxidation Process of <i>Acidithiobacillus ferrooxidans</i>	
A.A. Peng, J.L. Xia, H.C. Liu, W. Zhu, R.Y. Zhang, C.G. Zhang and Z.Y. Nie	137
Metagenomic Insights into the Microbial Community Diversity between Leaching Heap and Acid Mine Drainage	
Q. Hu, Y.L. Liang, H.Q. Yin, X. Guo, X.D. Hao, X.D. Liu and G.Z. Qiu	141
Genome Analysis of the Psychrotolerant Acidophile <i>Acidithiobacillus ferrivorans</i> CF27	
E. Talla, S. Hedrich, B.Y. Ji, D.B. Johnson and V. Bonnefoy	145
Physiological, Genomic, and Proteomic Characterization of New “<i>Ferrovum</i>” Strains Obtained from a Pilot Plant for Mine-Water Treatment	
M. Schlömann, J. Kipry, S. Mosler, A. Poehlein, A. Keller, E. Janneck, B. Erler, C. Tominski, R.J. Jwair, N. Gelhaar, J. Seifert, R. Daniel and M. Mühling	149
Predicting the Metabolic Potential of the Novel Iron Oxidising Bacterium “<i>Ferrovum</i>” sp. JA12 Using Comparative Genomics	
S. Mosler, A. Poehlein, S. Voget, R. Daniel, J. Kipry, M. Schlömann and M. Mühling	153

Analysis of Gene Expression in Response to Copper Stress in <i>Acidithiobacillus ferrooxidans</i> Strain D2, Isolated from a Copper Bioleaching Operation C.N. Salazar, M. Acosta, P.A. Galleguillos, A. Shmaryahu, R. Quatrini, D.S. Holmes and C. Demergasso	157
Temporal Dynamics of Genes Involved in Metabolic Pathways of C and N of <i>L. ferriphilum</i>, in the Industrial Bioleaching Process of Escondida Mine, Chile P.A. Galleguillos, V. Music, M. Acosta, C.N. Salazar, R. Quatrini, A. Shmaryahu, D.S. Holmes, A. Velásquez, C. Espoz, C. Pinilla and C. Demergasso	162
Analysis of Gene Expression as Marker of Relevant Metabolisms, in Three <i>Acidithiobacillus ferrooxidans</i> Strains, in Different Growth Conditions G. Araya, M. Acosta and C. Demergasso	166
Variance Calculations for Quantitative Real-Time PCR Experiments with Multiple Levels of Replication S. Soto-Rojo, G. Glonek, C. Demergasso, P.A. Galleguillos, P. Solomon, P. Tapia and M. Acosta	172
Optimization of the Method for Simultaneous Extraction Bioleaching Bacteria DNA and RNA J.P. Xie, H. Yun, G.Z. Qiu and X.X. Liu	177
Optimization of the Separation Method for Bioleaching Bacteria DNA and RNA Extracted Simultaneously H. Yun, J.P. Xie, N. Huang, X.J. Yang, J. Xu, G.Z. Qiu and X.X. Liu	182
How the RegBA Redox Responding System Controls Iron and Sulfur Oxidation in <i>Acidithiobacillus ferrooxidans</i> D. Moinier, D. Byrne, A. Amouric and V. Bonnefoy	186
Analysis of the Bacterial Sulphur System R.M. Candy, K.R. Blight and D.E. Ralph	190
Heterodisulfide Reductase from <i>Acidithiobacilli</i> is a Key Component Involved in Metabolism of Reduced Inorganic Sulfur Compounds N. Ehrenfeld, G.J. Levicán and P. Parada	194
Biogenesis and Transfer of Iron-Sulfur Clusters from <i>Acidithiobacillus ferrooxidans</i> J.S. Liu, L. Qian and C.L. Zheng	198
Evidence for Widespread Dissimilatory Hydrogen Metabolism among Acidophilic Bacteria S. Hedrich and D.B. Johnson	202
Novel Cell Envelope Proteins Related to Copper Resistance in <i>Acidithiobacillus ferrooxidans</i> R. Almarcegui, C. Navarro, A. Paradela, D. von Bernath and C.A. Jerez	206
Conductive Filaments Produced by <i>Aeromonas hydrophila</i> L. Castro, M. Vera, J.A. Muñoz, M.L. Blázquez, F. González, W. Sand and A. Ballester	210
Comparative Study of Fluoride-Tolerance of Five Typical Bioleaching Microorganisms L.Y. Ma, Q. Li, Y.H. Xiao, Q.L. Wang, H.Q. Yin, Y.L. Liang, G.Z. Qiu and X.D. Liu	214
Estimation of Ionic Load Effect on the Oxidizing Activity of the Microbial Population in the Heap Bioleaching Process at Escondida Mine D. Cautivo, P. Soto, V.J. Zepeda, P.A. Galleguillos, A. Velásquez, C. Pinilla and C. Demergasso	219
Biomediated Separation of Kaolinite and Hematite Using <i>Bacillus subtilis</i> S. Poorni and K.A. Natarajan	223

Chapter 3: Industrial Biohydrometallurgy: Studies, Practices and Operation

Bioleaching of a Marine Hydrothermal Sulfide Ore with Mesophiles, Moderate Thermophiles and Thermophiles H. Korehi and A. Schippers	229
A Descriptive Model for Microbial Population Dynamics in a Copper Sulphide Bioleaching Heap with Spatial and Physicochemical Considerations S. Soto-Rojo, G. Glonek, P. Soto, C. Demergasso and P. Solomon	233
A Novel Apparatus to Determine the Bio-Oxidation Kinetics of Sessile <i>Leptospirillum ferriphilum</i> P. Duku, S.H. Minnaar, S.T.L. Harrison and J. Petersen	238
Two-Stage Airlift Bioreactor System for Efficient Iron Oxidation and Jarosite Precipitation A.H. Kaksonen, C. Morris, F. Hilario, S. Rea, J. Li, K. Usher, J. Wylie, M.P. Ginige, K.Y. Cheng and C. du Plessis	242

A Two-Step Process for the Treatment of Refractory Sulphidic Concentrate M.I. Muravyov and A. Bulaev	246
Bio-Hydrometallurgical Processing of Non-Ferrous Metals from Copper Smelting Slag S. Ilyas, J.C. Lee, D.Y. Shin and B.S. Kim	250
Bioleaching and Electrochemical Leaching of a Pyritic Chalcopyrite Concentrate M. Khoshkhoo, M. Dopson and Å. Sandström	254
Bioleaching of a Copper Sulphide Ore at Different Temperatures V.I. Groudeva, M.V. Iliev, R.V. Ilieva and S.N. Groudev	258
Bioleaching of Covellite from Low Grade Copper Sulphide Ore and Tails V.J. Zepeda, D. Cautivo, P.A. Galleguillos, J. Soto, Y. Contador and C. Demergasso	262
Bioleaching of Phosphorus from Low Grade Ores and Concentrates with Acidophilic Iron- and Sulphur-Oxidizing Bacteria T.H. Sarlin, O.K. Priha, M.E. Arnold and P. Kinnunen	266
Two-Step Bioleaching and Spent Medium Leaching of Gold from Electronic Scrap Material Using <i>Chromobacterium violaceum</i> G. Natrajan and Y.P. Ting	270
Bioleaching of Pyrrhotite by Moderately and Extremely Thermophilic Bacteria G.H. Gu, H.S. Yang and C.Q. Wang	274
Bioleaching of Spent Hydrotreating Catalyst by Thermophilic and Mesophilic Acidophiles: Effect of Decoking A. Bharadwaj and Y.P. Ting	280
Bioleaching of Sulphide Minerals with <i>Sulfobacillus acidophilus</i> at 45°C B. Escobar, D. Bravo, I. Jaque, A. Collari and T. Vargas	284
Biological, Chemical and Transport Phenomena which Control the Rate of Copper Leaching in Heap and Dump Operations T. Vargas and C.S. Davis-Belmar	288
Biologically Assisted Copper Secondary Sulfide Ore Leaching in the Presence of Chloride C.S. Davis-Belmar, D. Cautivo, G. Rautenbach and C. Demergasso	292
Biomass Production and Inoculation of Industrial Bioleaching Processes P. Parada, P. Morales, R. Collao, R.A. Bobadilla-Fazzini and R. Badilla	296
Bioprocessing of Mining and Metallurgical Wastes Containing Non-Ferrous and Precious Metals A. Bulaev, M.I. Muravyov, T. Pivovarova, N.V. Fomchenko and T.F. Kondrat'eva	301
BioSigma Bioleaching Seeds (BBS): A New Technology for Managing Bioleaching Microorganisms P. Martínez and P. Parada	305
Biotransformation of Arsenopyrite by <i>Phanerochaete chrysosporium</i> Q. Liu, H.Y. Yang and L.L. Qiao	309
Column Bioleaching Experiment of Low Grade Uranium Ore from Xiangshan Uranium Deposit J.H. Liu, Y.J. Liu, Z.H. Zheng, X.G. Wang, Y.P. Zhou, Z.X. Sun and W.J. Shi	314
Column Bioleaching of Low Grade Copper Sulfide Ore at Extreme Conditions for Most Mineral Processing Bacteria G. Zou, Z.L. Wu, X.K. Lai, L.C. Zou, R.M. Ruan, S. Papirio and J. Puhakka	318
Copper Recovery by Bioleaching of Chalcopyrite: A Microcalorimetric Approach for the Fast Determination of Bioleaching Activity B. Krok, A. Schippers and W. Sand	322
Differences of Bioleaching of Pyrites from Different Geo-Genetic Deposits by <i>Leptospirillum ferriphilum</i> X. Zhang, G.H. Gu, K.T. Hu and G.Z. Qiu	326
Dynamic Evolution of the Microbial Community in BIOX Leaching Tanks R.P. van Hille, N. van Wyk, T. Froneman and S.T.L. Harrison	331
Effect of Bioleaching Microorganisms and Solid Ore Particles on Formation of Interfacial Crud in Solvent Extraction Plants X.H. Li, G.Y. Zhou, S.T. Huang and J.K. Wen	335
Effect of Contact with Organic Extractant LIX 84IC during Solvent Extraction Process on the Re-Establishment of Growth of Bioleaching Microorganisms C.S. Davis-Belmar, M. Acosta, V. Schoen, G. Rautenbach and C. Demergasso	340

Effect of Bio-Leaching Process on the Pore Structure of Packed Particle Bed via 3D Imaging and Analysis	
A.X. Wu, B.H. Yang, J.Z. Liu and X.X. Miao	344
Effect of Increased Acid Concentration on the Microbial Population Inhabiting an Industrial Heap Bioleaching Plant	
V.J. Zepeda, D. Cautivo, P.A. Galleguillos, C.N. Salazar, A. Velásquez, C. Pinilla and C. Demergasso	348
Effect of Temperature on Column Bioleaching of a Refractory Gold Ore	
Z.L. Wu, Z.S. Huang, R.M. Ruan, S.P. Zhong and B.K.C. Chan	352
Effects of Several Parameters on Nickel Extraction from Laterite Ore by Direct Bioleaching Using <i>Aspergillus niger</i> and Acid Rock Drainage from Coal Mine as an Organic Substrate	
M.Z. Mubarak, H. Kusuma, W.P. Minwal and S.K. Chaerun	356
Electrochemical Behavior of Carbon Paste Electrode with Gold-Bearing Pyrite in Bioleaching	
Z. Wu, S.P. Zhong, Z.L. Wu, Z.S. Huang and B.K.C. Chan	360
Evaluation of Parameters in the Bio-Oxidation Process of Refractory Gold Minerals	
P. Aguirre, E. Diaz and J.C. Gentina	364
Evaluation of the Electrochemical Behavior of Carbon Paste Electrode (CPE) with Chalcopyrite (CuFeS₂) in the Presence of Ferrous Ions	
F.A. Arena, D. Bevilacqua, C.S. Fujivara and A.V. Benedetti	368
Geobiology of <i>In Situ</i> Uranium Leaching	
C. Zammit, K. Li, B. Etschmann, J. Brugger and F. Reith	372
From Mesophilic to Moderate Thermophilic Populations in an Industrial Heap Bioleaching Process	
P. Soto, M. Acosta, P. Tapia, Y. Contador, A. Velásquez, C. Espoz, C. Pinilla, P.A. Galleguillos and C. Demergasso	376
Effects of Individual Use, Mixed Culture and Sulfur Addition on the Effectiveness of Nickel Laterite Ore Bioleaching with <i>Penicillium verruculosum</i> and <i>Galactomyces geotrichum</i>	
M.Z. Mubarak, W. Astuti and S.K. Chaerun	380
Hydrogen Sulphide Production at Alkaline, Neutral and Acid pH by a Bacterial Consortium Isolated from Peruvian Mine Tailing and Wetland	
J. Mormontoy and J.E. Hurtado	384
Immobilization of New Isolated Iron Oxidizing Bacteria on Natural Carriers	
A.K. Vardanyan, L.S. Markosyan and N.S. Vardanyan	388
Impact of the Hydraulic Retention Time on the Performance of a Sulfidogenic Bioreactor	
R. Klein, M. Schlömann, Y. Zeng, B. Wacker, F. Glombitza, E. Janneck and M. Mühling	392
Investigation of Bioleaching of a Low Grade Nickel-Cobalt-Copper Sulfide Ore with High Magnesium as Olivine and Serpentine from Lao	
B.W. Chen, L.L. Cai, B. Wu, X. Liu and J.K. Wen	396
Investigation of the Effect of pH Operating Conditions on Bioleaching of Low-Grade Chalcopyrite in Column Reactors	
O.M. Tshilombo and T.V. Ojumu	401
Isolation and Characterization of Actinomycetes from Acidic Cultures of Ores and Concentrates	
A. Matsubara and J.E. Hurtado	406
Low Grade Copper Sulfide Ore Bioleaching in a New Bioreactor	
R.E. Rivera-Santillán, F. Patricio-Ramírez and I. Olvera-Pérez	410
Minimum Aeration in <i>Acidithiobacillus ferrooxidans</i> Cultures Required to Maintain Substrate Oxidation without Oxygen Limitation	
M. Mandl, E. Pakostova and L. Poskerova	414
Molybdenite Bioleaching by Thermophilic Bacteria in a RELVA-ARBP Bioreactor	
R.E. Rivera-Santillán, F. Patricio-Ramírez and F.A. López-López	418
Potassium Extraction from Biotite by <i>Penicillium</i> and <i>Aspergillus</i>	
M. Song, I. Pedruzzi, P. Li, J.F. Liu and J.G. Yu	423
Pretreatment of Refractory Gold Ores Using Cell-Free Extracts of <i>P. chrysosporium</i>: A Preliminary Study	
G. Ofori-Sarpong, K. Osseo-Asare and M. Tien	427
Recovery of Zinc during the Pre-Treatment of a Refractory Gold-Bearing Ore	
N. Marchevsky, M.S. Urbietta, C. Bernardelli, M. Mas and E. Donati	431

Substrate Utilisation and Chalcopyrite Concentrate Bioleaching at 60°C in the Presence of Nitrate	
D.W. Shiers, D.E. Ralph and H.R. Watling	435
Synthesis of Biogenic Mn Oxide and its Application as Lithium Ion Sieve	
Q.Q. Yu, E. Morioka, T. Hirajima and K. Sasaki	439
The Bioleaching Characteristics of Chalcopyrite with Different Genetic Types	
J. Bai, J.K. Wen, S.T. Huang, B. Wu and B.W. Chen	443
The Effect of Ferrous Iron Addition during Tetrathionate Utilisation by Some <i>Sulfobacillus</i> Species	
D.W. Shiers, D.E. Ralph and H.R. Watling	447
The Efficient Recovery of Cobalt from Low Grade Refractory Carrollite with Bioleaching Technology	
G.B. Chen, H.Y. Yang and L.J. Zhou	451
The Impact of Drip Irrigation on Heap Hydrology and Microbial Colonies in Bioleaching	
M.A. Fagan, E. Ngoma, R.A. Chiume, S.H. Minnaar, A.J. Sederman, M.L. Johns and S.T.L. Harrison	455
The Influence of Pyrite on Galvanic Assisted Leaching of Chalcocite Concentrates	
B. Wu, X.L. Yang, L.L. Cai, G.C. Yao, J.K. Wen and D.Z. Wang	459
Treatment of a Nickel-Copper Sulphide Concentrate Using Bioleaching	
M. Gericke and S. Robertson	464
True Growth Rate Kinetics: An Account of the Colonisation and Transport of Microorganisms on Whole Low Grade Ore, at the Agglomerate Scale	
E. Govender, C.G. Bryan and S. Harrison	468
Effect of Fe²⁺ and Cu²⁺ Ions on the Electrochemical Behavior of Massive Chalcopyrite in Bioleaching System	
W.Q. Qin, C.R. Yang, J. Wang, Y. Zhang, F. Jiao, H.B. Zhao and S. Zhu	472

Chapter 4: Biohydrometallurgy as a Remediation Strategy

Selective Metal Removal from Scandinavian Mine Waters Using Novel Biomineralization Technologies	
C.M. Kay, S. Hedrich and D.B. Johnson	479
Reduction and Complexation of Copper in a Novel Bioreduction System Developed to Recover Base Metals from Mine Process Waters	
S. Hedrich, C. du Plessis, N. Mora and D.B. Johnson	483
Sulfate Removal from Extremely Acidic Wastewaters Using Consortia of Acidophilic Sulfate-Reducing Bacteria	
I. Nancucheo and D.B. Johnson	487
Performance Evaluation of Two Anaerobic Reactors for Removing Sulphate from Industrial Effluents	
S.M. Bertolino, L.A. Melgaço, N.C. Quites and V.A. Leao	491
Acid Drainage and Metal Bioleaching by Redox Potencial Changes in Heavy Polluted Fluvial Sediments	
N. Porzionato, M. Mellota, R. Candal and G. Curutchet	496
Impact of Heavy Metals on Denitrification of Simulated Mining Wastewaters	
G. Zou, A. Ylinen, F. Di Capua, S. Papirio, A.M. Lakaniemi and J. Puhakka	500
Bioleaching for Extraction of Metals and Detoxification of Activated Sludges	
S.N. Groudev, M.V. Nicolova, I. Spasova and P.S. Georgiev	504
Influences of pH Buffers on the Growth of <i>Acidithiobacillus thiooxidans</i> and Biotransformation Efficiency	
X.R. Liu, C. Su, S.C. Jiang, Y.J. Liu and H. Li	508
Evaluation of Plant Species for Phytoremediation of a Mining Waste from Andacollo, Neuquén-Argentina	
C. Cordero, K. Incignieri, P.A. Chiacchiarini, T.L. Lavalle and A. Giaveno	512
Field Scale Phytoremediation Experiments on a Former U Mining Site and Further Processing of the Plant Material	
D. Mirgorodsky, D. Ollivier, L. Jablonski, D. Merten, S. Willscher, J. Wittig, G. Büchel and P. Werner	516

Optimisation of Acid Bioleaching of Metals from Pyritic Ashes E.A. Vestola, J. Mäkinen, T. Korhonen, R. Neitola and A.H. Kaksonen	520
<i>Staphylococcus equorum</i> Isolated from Seabed as Potential Biotoool to Cr(VI) Remediation P. Pradel, C. Hernández, M. Tello, M.P. Villarroel, G. Corsini and A. González	524
Copper Removal by <i>Botryococcus braunii</i> Biomass with Associated Production of Hydrocarbons M. Mar Areco, V. Cainzos and G. Curutchet	528
Characterization of U(VI) Sorption and Leaching on Clay Supported Biomass Sorbents M.S. Olivelli, D. Di Gregorio, H. Huck, J.F. Niello, R.M. Torres Sánchez and G. Curutchet	532
Recovery of Metals and Stabilization of Arsenic from (Bio-)Leaching Operations by Engineered Biological Processes P. Gonzales Contreras, M. Olde Weghuis, J. Weijma and C.N.J. Buisman	536
Identification of a Bacterial Consortium with Biotechnological Potential for Arsenic Bioremediation M. Moreira, S. de Queiroz Silva and M.C. Teixeira	540
(Bio)Precipitation of Trivalent Arsenic Using an Anaerobic Bioreactor L.P. de Matos, P. Freitas and M.C. Teixeira	544
Influence of Sulfate-Reducing Bacteria on the Mobility of Arsenic in Soils an "In Vitro" Study L.R. Lopes and M.C. Teixeira	548
Development of Alamine-336-Impregnated Alginate Capsule for Selective Recovery of Gold from Multi-Metal Solution W. Wei, S.W. Won and Y.S. Yun	552
Gold, Silver and Platinum Nanoparticles Biosynthesized Using Orange Peel Extract L. Castro, M.L. Blázquez, F. González, J.A. Muñoz and A. Ballester	556
Development of Powerful Bacterial Biosorbent Fibers for Recovery of Ruthenium and Comprehension of the Role of Bacterial Biomass in the Fiber S.W. Won, I.S. Kwak and Y.S. Yun	560
Recovery of Zero-Valent Ruthenium from Acetic Acid Waste Solution by a Combined Process of Biosorption with Bacterial Biosorbent Fibers and Incineration I.S. Kwak, S.W. Won, J.S. Shin and Y.S. Yun	564
Removal of Anionic Metalloid/Metals by PEI-Modified <i>Corynebacterium glutamicum</i> N. Kim, M. Park, J. Park and D. Park	568
