## **Table of Contents**

| Preface  |     |
|--|-----|
| Structure and Composition of Metal/Ceramic Interfaces M. Rühle   | 1   |
| <b>Interphase Formation and Control in Fibre Composite Materials</b> F.R. Jones  | 41  |
| Gradient Interphase Regions in Composite Systems J.J. Lesko, K. Jayaraman and K.L. Reifsnider  | 61  |
| The Effects of Fiber Coating, Matrix Composition and Processing Conditions on Interfacial Microstructures in Vacuum Plasma Sprayed and Vacuum Hot Pressed Ti Alloy/SiC <sub>f</sub> Composites | 0.5 |
| J.H. Ĺi, M.L. Jenkins and B. Cantor  | 87  |
| Fibre-Matrix Interface Characterization and Fibre Fragmentation Test H.Y. Liu, L.M. Zhou, Y.W. Mai and L. Ye   | 121 |
| Fibre/Polymer Tests at the Fibre Scale: Tools for Analysing and Optimizing the Composite Response to Mechanical Loads  | 122 |
| J Favre, G. Désarmot and P. Sigety   | 133 |
| Interface Measurements and Applications in Fiber-Reinforced MMCs B.S. Majumdar and D.B. Miracle  | 153 |
| <b>Evaluation of Composite Interfaces Using Raman Spectroscopy</b> R.J. Young  | 173 |
| The Deflection of Cracks at Interfaces W. Lee and W.J. Clegg   | 193 |
| Interfacial Properties and Residual Stresses in Titanium and Titanium Aluminide Matrix   |     |
| Composites D.B. Marshall, M.C. Shaw, W.L. Morris and J. Graves   | 209 |
| On the Control of Interface Reaction in Squeeze Cast Aluminium Matrix Composites A Ruzette, F. Boland, C. Colin, J.M. Gilot and F. Delannay  | 229 |
| The Effect of Interfaces on the Strength of Metal-Matrix Composite Joints C.G. Levi and F.A. Leckie  | 241 |
| The Fracture Mode of Ceramic/Metal Multilayers: Role of the Interface M.C. Shaw  | 261 |
| Mechanical Response of Multilayers Submitted to In-Situ Experiments<br>M. Ignat  | 279 |
| Interfacial Behaviour and Mechanical Properties of Plastically Strained Particle Reinforced  |     |
| Al Composites N. Kanetake  | 291 |
| <b>Residual Stresses in Surface Coatings and Their Effects on Interfacial Debonding</b> T.W. Clyne   | 307 |
| The Delamination of Ceramic Laminates due to Residual Thermal Stresses S.J. Howard, R.A. Stewart and W.J. Clegg  | 331 |
| Effect of Inhomogeneous Intrinsic Stresses on the Cracking of Layered Brittle Coatings  O. Jørgensen, A. Horsewell, B.F. Sørensen and P. Leisner   | 351 |
