

Table of Contents

Preface

Damping in Composites

R.D. Adams 3

Magnetomechanical Damping and Related Phenomena

D.N. Beshers 17

Snoek Type Relaxations and Trapping of Hydrogen

G. Cannelli, R. Cantelli, F. Cordero and F. Trequattrini 29

On the Controversy about Grain Boundary Relaxation

B.J. Molinas and F. Povo 39

Applications of the Coupling Model to Some Problems in Mechanical Spectroscopy of Metals

K.L. Ngai and L.B. Magalas 49

Computer Modeling of the Interactions of Dislocations with Point Defects in Regard to Internal Friction

T.O. Ogurtani 61

Fatigue and Internal Friction of FCC Metals

A. Vincent and R. Fougères 69

Isothermal Internal Friction Study of the Zener Relaxation in Cu-Al Single Crystals

S. Belamri, A. Rivière and J. Woigard 83

Hopping Processes of Interstitials in FCC Binary Alloys and Models for Associated Anelastic Relaxations

A. Biscarini, B. Coluzzi and F.M. Mazzolai 89

Magnetic After-Effects in Microcrystalline Fe-Si Ribbons

W. Czurzynska, J.W. Moron, J. Zbrozczyk, B. Wyslocki, S. Szymura, J. Rasek and Y. Yamashiro 95

Internal Friction Studies of Carbon-Carbon Interaction in Iron

G. Haneczok, M. Weller and J. Diehl 101

Hydrogen Relaxation Processes in Diluted Pd-Y Alloys

G. Hauptmann, W. Ulfert and H. Kronmüller 109

Low-Temperature Anomalies of Ultrasound and Velocity in High-Purity Niobium Single Crystals

P.P. Pal-Val, V.D. Natsik, H.-. Kaufmann and A.S. Sologubenko 117

High Temperature Relaxation in Aluminium Studied by Low Frequency Mechanical Spectroscopy

A. Rivière and J. Woigard 125

Internal Friction Study of the Oxygen Snoek Relaxation in NbH_x (0

R. Schmidt and H. Wipf 133

Hydrogen-Induced Internal Friction in Amorphous and Crystalline Intermetallic Phases

H.R. Sinning 139

Internal Friction Measurement of 20 MeV Proton Irradiated Mo

H. Tanimoto, H. Mizubayashi, M. Nagasawa, S. Okuda and Y. Tagishi 145

Internal Friction Associated with Surface-Oxidation of Vanadium, Niobium and Tantalum

O. Yoshinari, H. Kakimoto and K. Tanaka 151

Effect of γ Irradiation on Dislocation Relaxation Peaks in Polycrystalline Molybdenum at 10 MHz Frequency

W.E. Alnaser, M. Zein and L.B. Magalas 159

Internal Friction Investigation of the γ -Peak Irreversibility in High Purity Tantalum and Niobium

G. D'Anna and W. Benoit 165

Bordoni Relaxation and Hydrogen in Deformed Pd Single Crystals

G. Hauptmann, W. Ulfert and H. Kronmüller 171

A New Internal Friction Peak and the Kink Pair Formation of Dislocations in Aluminum

T. Kosugi and T. Kino 177

Lubrication Agents of Dislocation Motion at Very Low Temperature in Cold-Worked and Irradiated Aluminium	183
J. Lauzier, G. Gremaud and W. Benoit	
Ultrasonic Attenuation and Modulus Defect Associated with the Bordoni Peak in Copper Single Crystals	189
A.O. Moreno Gobbi and J.A. Eiras	
The Relation between the Stacking Fault Energy and the Bordoni Relaxation in FCC Metals	195
M.L. Nó and J. San Juan	
Study of the Kink Dynamics in Lead by the Two-Wave Acoustic Coupling Method	201
B. Quenet, I. Cuche, G. Gremaud and W. Benoit	
Dislocation Relaxation Peaks in Molybdenum Single Crystals at Megahertz Frequencies	207
M. Zein and W.E. Alnaser	
Low Temperature Plastically Cycled Aluminium Studied by Means of the Ultrasonic Coupling Technique	215
F. Charvieux, R. Fougères and A. Vincent	
Amplitude Dependent Internal Friction and Plasticity of Crystals	221
B.K. Kardashev and S.P. Nikanorov	
The Nature of the Low-Temperature Plasticity of Solids	227
V.P. Kisel	
On the Dislocation Motion and Multiplication under Successively Applied Compressive and Tensile Stresses	233
V.P. Kisel	
The Amplitude and Frequency Dependences of Amplitude-Dependent Internal Friction and Inelastic Strain in Alkali-Halide Crystals	239
S.B. Kustov, S.N. Golyandin and B.K. Kardashev	
The Temperature Dependences of Internal Friction and Yield Stress in Al Alloys	245
A.B. Lebedev and V.I. Ivanov	
Complex Analysis of Interaction between Dislocations and Pinning Points in Mo with Low Carbon Contents	251
D.M. Levin and S.A. Golovin	
The Influence of the Microstructure on the Anelastic Behaviour of 99.999% Aluminium	255
M.L. Nó, J. San Juan, J.I. Pérez-Landazábal and C. Esnouf	
Dislocation Internal Friction in Silicon Bronze during and after Plastic Deformation	261
S. Pilecki, P. Kopania, S.B. Kustov, B.K. Kardashev, K. Sapozhnikov and V.M. Chernov	
Effects of Yttrium and Hydrogen on Internal Friction in Alloys Based on Commercially-Pure Titanium	267
H. Wei, D. Geng, D. Geng, J. Zhang and C. Han	
Investigation of the Influence of Impurities on the Grain Boundary Relaxation in Thin Al-Films on Si-Substrates	273
H.G. Bohn and C.M. Su	
The Nature of the Internal Friction Grain Boundary Peak	279
Y.A. Fedorov and B.M. Darinskii	
Interface Constraint on Grain Boundary Relaxation in Thin Al- and Al-Alloy Films on Si-Substrates	285
C.M. Su and H.G. Bohn	
Grain Boundary Relaxation under Irradiation	291
A.Y. Totsky	
Transient Internal Friction and Martensitic Phase Transformations	299
J.-. Bidaux, G. Gremaud and W. Benoit	
Elastic Constant Softenings and Damping Anomalies in the Vicinity of the Spin-Reorientation Phase Transition in Cobalt Single Crystals	305
J.E. Bidaux and B. Cao	
Temperature Shift of the Internal Friction Peak and the Dynamic Modulus at the Martensitic Transformation in Cu-Zn-Al Alloys	311
J. Ilczuk, R. Kuska and H. Morawiec	
Peculiarities of Internal Friction during Martensitic Transformation in N18K9M5T Steel	317
J. Pastor	
Internal Friction and Microdeformation on Cu-Al-Ni Shape Memory Alloys	323
V. Recarte, J. Herreros, M.L. Nó and J. San Juan	

Rheological Properties of Metals Coated with Organic Layer E. Denga and B. Augustyniak	331
Acoustic Microscopy of the Growth of Intermetallic Compound at Copper/Lead-Tin Alloy Interfaces E. Drescher-Krasicka, H.T. Yolken, B.R. Tittmann, A.J. Shapiro and G. Lucey	337
High Temperature Anelastic Relaxation of Dense Zircon Bodies M. Gimenez, G. Fantozzi, R. Torrecillas, S. Moya and S. De Aza	347
Internal Friction in Aluminium Alloys Reinforced with Short Saffil Fibres of Al₂O₃ Particles A. Lakki and R. Schaller	353
Elastic Characterization of AgNi Superlattices V. Pelosin, B. Rodmacq, J. Hillairet, G. Carlotti, D. Fioretto and G. Socino	359
Damping in Aluminium Alloys with Incoherent Particles A. Pichler, M. Weller, E. Arzt and J. Diehl	365
Heating Rate Dependent Internal Friction in the Microheterogeneous System Al 11.8% Si X. Zhou, R. Fougères and A. Vincent	371
Rayleigh Scattering of Ultrasonic Waves by Microstructures Obeying an Orientation Relationship with a Parent Phase F. Bergner and B. Köhler	379
Impurity Segregation and Precipitation - Effects on Modulus and Internal Friction B. Beyer, E.-. Herbst and J. Wieting	385
Influence of Oxygen on the High Temperature Internal Friction in Ni-20wt% Cr Alloys B. Cao, R. Schaller, F. Cosandey and W. Benoit	391
High Temperature Internal Friction Measurements in γ'-Ni₃Al P. Gadaud and K. Chakib	397
Internal Friction Measurements in Ni Co Cr Al Y Ta Alloys P. Gadaud, A. Rivière and J. Woïrgard	401
The Loops of Modulus Defect and Internal Friction for "Loading-Unloading" in the Saturation Fatigue Stage of Iron and Steels S.A. Golovin and A. Puskár	407
The Dissipation Energy Mechanism of Mechanical Oscillations in High Chromium Ferritic Alloys in the Temperature Range -190 ... 780°C I.S. Golovin, V.I. Sarraf and S.O. Suvorova	413
Investigation of "475°C Embrittlement" of High-Chromium Ferritic Steels with the Use of Internal Friction I.S. Golovin, V.I. Sarraf and S.O. Suvorova	419
Physical Acoustics Applications of the Scanning Acoustic Microscope G. Gremaud, A.V. Kulik, P. Richard and O. Behrend	425
Low Frequency Peak of Internal Friction at $\alpha + \alpha' \rightleftharpoons \alpha + \beta$ Peritectical Reaction in Nb-H Systems M.J. Katz and L.V. Spivak	431
Structural Imperfections and Inelastic Properties of Boron Carbide D. Lezhava, G. Darsavelidze, M. Antadze and G. Tsagareishvili	437
Low Temperature Internal Friction in Reactor Pressure Vessel Steels A. Munier, M. Maamouri, R. Schaller and O. Mercier	443
The Influence of Hydrogen on the Anelastic Properties of High Purity Magnesium M.L. Nó, J. San Juan and C. Esnouf	449
A Correlation among Elastic Modulus Defect, Plastic Strain and Fatigue Life of Metals A. Puskár	455
Investigation of the Helium Atoms Behavior in Aluminium and its Alloys by the Method of Internal Friction N.S. Zaritsky	461
Internal Friction of Hydrogen Charged Nickel and Ni-Base Alloys A. Zielinski and E. Lunarska	467
An Analysis of Internal Friction at the Glass Transition in a Thermoset Polymer D.P. Almond, O.G. Braddell and B. Harris	477

Connectivity, Fragility, and Non-Exponentiality of Mechanical Relaxations in Covalently Bonded Glassformers R. Böhmer and C.A. Angell	485
Viscoelastic Relaxations of Polyesters from Itaconic Acid with Cyclohexyl Group in the Lateral Chain R. Díaz Calleja, L. Gargallo and D. Radic	491
Anomalous Elastic Constants in an Oriented Polymer J.Y. Duquesne and G. Bellessa	497
A Langevin Type Description of Shear Stress Fluctuations in Flows of Viscoelastic Liquids J.C. Dyre	503
Effect of H and Cu on the Damping and Modulus of Amorphous NiZr Alloys S. Kiss, Z. Cseresnyés, G. Posgay, K. Tompa and A. Lovas	505
Mechanical Spectrometry of β Relaxation of PMMA E. Muzeau and J. Pérez	511
Interpretation of Lognormal Shape of Internal Friction Peaks in Amorphous Materials I. Pócsik	517
High Temperature Internal Friction in Glass Ceramic Matrix Composite A. Rivière, L. Fadel and J. Woigard	523
Investigation of Glycerol Phase Transition by the Internal Friction Method D. Samatowicz, A.V. Kulik and W. Benoit	529
Observation of the Glass Transition of Metallic Glasses by Low-Frequency Internal Friction Measurements with a Collette Pendulum H.R. Sinning	535
Effects of Physical Ageing on Mechanical Relaxations of PET and PMMA G. Vigier, E. Muzeau, M.B.M. Mangion, J. Tatibouet, R. Vassoille and J. Pérez	541
Internal Friction Study on Phase Transition for K24 Liquid Crystal J.S. Zhu, M.Y. Gu, Z.M. Sun, Z.F. Zhang, Y. Zhou and Z.Y. Zhou	547
Interaction between Structural Defects and Magnetic Domain Walls in Fe-C Alloys B. Astie and J. Degauque	553
Magnetomechanical Damping Evaluation from Mechanical Barkhausen Effect B. Augustyniak	559
Anisotropy of Magnetomechanical Damping and Magnetic Properties of Oriented and Non-Oriented Fe-Si Alloys Y. Gannac, J. Degauque, B. Astie and J.L. Gauffier	565
Internal Friction and Magnetomechanical Coupling Dependences on Magnetic Field after Different Heat Treatments in $\text{Fe}_{80}\text{B}_{12}\text{Si}_8$ Metallic Glasses Z. Kaczowski	573
Thermostimulated Perpendicular Magnetic Anisotropy and "Giant" ΔE-Effect in Amorphous Fe-B-P Alloys V.A. Kislov, N.P. Kobelev and Y.M. Soifer	579
Internal Friction, Young's Modulus and Barkhausen Effect in Magnetostrictive Metallic Glasses L.M. Malkinski and B. Augustyniak	585
Magnetomechanical Interactions Z. Kaczowski	591
Oxygen Mobility and Phase Transformation in $\text{RBa}_2\text{Cu}_3\text{O}_{6+x}$ G. Cannelli, R. Cantelli, F. Cordero and F. Trequattrini	611
Mechanical After-Effect Studies of Oxygen Relaxation in $\text{YBa}_2\text{Cu}_3\text{O}_{7-\delta}$ J.R. Cost and J.T. Stanley	623
Effect of Phase Transitions on Ultrasonic Velocity and Attenuation in $\text{YBa}_2\text{Cu}_3\text{O}_z$ E. Drescher-Krasicka	631
Sound Propagation in High T_c and other Unconventional Superconductors M. Levy, S.W. Lin, B.K. Sarma, S. Adenwalla and J.B. Ketterson	643
Internal Friction around T_c Connected with Superconductivity in High T_c Superconductors Y.N. Wang	659
Mechanical Loss Measurements on Y-Ba-Cu-O Superconductors M. Weller	667

Internal Friction Observation of Flux-Line Assembly in High T_c Superconductors G. D'Anna, W. Benoit and J. Luzuriaga	683
Elastic Energy Dissipation Oxygen Mobility and Structural Stability in YBa₂Cu₃O_{7-x} E. Bonetti, E.G. Campari, V. Luprano, S. Mantovani, S. Casagrande and P. Cammarota	689
Inelastic Effects in High T_c Superconductors M. Gazda, B. Kusz, R. Barczynski, O. Gzowski, L. Murawski, I. Davoli and M. Berrettoni	695
Low-Temperature Relaxation and Elastic Properties of YBa₂Cu₃O_x with Different Oxygen Content H.-. Kaufmann, P.P. Pal-Val, L.N. Pal-Val, V.D. Natsik, J. Fickert and V.V. Demirskij	701
Dynamic Study of Oxygen Relaxations in YBa₂Cu₃O_{7-δ} Y. Mi, D. Mari, R. Schaller and W. Benoit	707
Mechanical Loss Spectroscopy of Polycrystalline YBa₂Cu₃O_{7-x} and Y_{1-y}Ca_yBa₂Cu₃O_{7-x}-Superconductors N. Rüffer, G. Kaiser, K. Schulze and M. Weller	713
Study of Oxygen Diffusion in Superconducting YBa₂Cu₃O_{7-δ} by Low Frequency Mechanical Spectroscopy J. Woïrgard, P. Gadaud, A. Rivière and B. Kaya	719
Workshop on High T_c Superconductors - Report on Roundtable Discussion D.P. Almond	725
Introduction to Mechanical Spectroscopy L.B. Magalas and R. De Batist	743
Snoek Relaxation L.B. Magalas	747
Directional Short-Range Ordering in Solid Solutions J. Hillairet	749
Quantum Effects in Point Defect Relaxations A.V. Granato	751
Atomic Rearrangements in Noncrystalline Solids J. Pérez	755
Intrinsic Properties of Dislocations W. Benoit	759
Inertial Effects of Dislocations A.V. Granato	767
Dislocation-Point Defects Interactions G. Gremaud	771
Anelastic Relaxations due to Grain Boundaries K. Iwasaki	775
Internal Friction and Phase Transformations M. Wuttig and T. Suzuki	781
Application of Mechanical Spectroscopy to Physical Metallurgy V.I. Sarrak	783
Study of Precipitation and Recrystallization R. Schaller	785
Application of Mechanical Spectroscopy to Study the Fatigue of Metals A. Puskár and S.A. Golovin	791
Internal Friction Associated with Hydrogen in Metals O. Yoshinari and M. Koiwa	795
Irradiation Damage S. Okuda	799
High Damping Materials R. Schaller and J. Van Humbeeck	803
Study of Polymer Materials J. Pérez	809
Mechanical Relaxations in Glasses C.A. Angell	813
Coupling-Model, Interpretations of Mechanical Spectroscopy in Materials Science K.L. Ngai	817

Defects in Oxide Ceramics M. Weller	819
Internal Friction in Ceramics G. Fantozzi	821
Damping Processes in Composite Materials and Fibres R.D. Adams	823
Low Frequency Techniques Very Low Frequency Mechanical Spectroscopy J. Woïrgard and A. Rivière	825
Low Frequency Techniques Special Applications of Very Low Frequency Mechanical Spectroscopy S. Etienne	827
Dynamic Mechanical Analysis and Defect Spectroscopy of Thin-Layer Materials B.S. Berry	829
Surface Acoustic Wave Measurements on Superconducting Films M. Levy	831
Guided Leaky Waves in Acoustic Microscopy E. Drescher-Krasicka and J.A. Simmons	833
Magnetomechanical Effects and Magnetomechanical Damping of Ferromagnetic Materials J. Degauque	839
Mechanical Spectroscopy and Quantitative Nondestructive Evaluation O. Buck and D.O. Thompson	847
Damping in Engineering Materials: Its Measurement, Properties and Application to Limiting Structural Vibration R.D. Adams	849
