

# Table of Contents

## Preface

## Chapter 1: Mining Design and Planning

|   |    |
|---|----|
| <b>Justification of the Technological Scheme for the Development of Manganese Ore as a Critical Raw Material at the Open Pit Completion</b> |    |
| A. Cherep and V. Ruskykh  | 3  |
| <b>Theory and Practice of Using Special-Purpose Cameras in Enterprises of the Mining Industry</b>   |    |
| V. Buzilo, L. Shyrin, D. Savelev and R. Yehorchenko   | 19 |
| <b>Modelling Changes in Hydraulic Transport Parameters during Pulp Formation Using Hydromonitors</b>  |    |
| Y. Semenenko, L. Yakubenko, N. Koval, S. Ryzhova, O. Khaminich and L. Tatarko   | 29 |
| <b>Digital Modeling of Quarry Transport to Reduce Fuel and Environmental Costs</b>  |    |
| N. Kyrylenko, I. Patseva and L. Herasymchuk   | 45 |
| <b>Ongoing Grade Control in Open Pits Using Advanced Digital Technologies</b>   |    |
| O. Anisimov, N. Bariatska, N. Safronova and O. Cherniaiev   | 57 |
| <b>Use of Environmentally Friendly Technologies at Kryvbas Mining and Processing Plants under Martial Law</b>                               |    |
| O. Medvedieva, Z. Halchenko, S. Tynyna, Y. Kulak and O. Kushch  | 67 |

## Chapter 2: Drilling and Blasting

|   |     |
|---|-----|
| <b>Approach to Optimizing Energy Consumption in Rock Destruction through Advanced Design Parameters of Cutting Elements</b> |     |
| O. Pashchenko, V. Rastsvetaiev, M. Sarbopoyeva, O. Kamyshatskyi and V. Petrenko   | 77  |
| <b>Comparative Analysis of Contact Stress Models for Optimizing Rock-Destroying Elements in Drilling Operations</b>         |     |
| O. Pashchenko, M. Sarbopoyeva, O. Kamyshatskyi, M. Arshidinova and V. Petrenko  | 87  |
| <b>Enhancing the Wear Resistance of Drill Bits through the Improvement of Composite Diamond-Containing Elements</b>         |     |
| V. Khomenko, A. Zholbassarova, Z. Kenzhegaliyeva, Z. Utепов and A. Zhailiyev  | 97  |
| <b>Finite Element Modeling of a Two-Dimensional Explosion in an Ideal Gas</b>   |     |
| O. Sdvyzhkova, D. Kruckovskiy and K. Nazarenko  | 113 |

## Chapter 3: Gas and Oil Production

|  |     |
|--|-----|
| <b>Impact of Degassing Parameters on the Efficiency of Gas Hydrate Extraction</b>        |     |
| O. Yavorska, Y. Koroviaka, T. Kaluzhna, A. Ihnatov and O. Dmytruk                        | 125 |
| <b>Optimization of Hydraulic Fracturing Parameters to Increase Gas Well Productivity</b> |     |
| B. Mykhailyshyn and I. Kuper   | 134 |
| <b>Peculiarities of Offshore Unconventional Fields Development Project Management</b>    |     |
| O. Ovetska, S. Ovetskyi and Y. Yakymchko   | 144 |

## Chapter 4: Assessment of Geothermal and Ore Resources

|   |     |
|---|-----|
| <b>Comparative Study on Geothermal Potential Exploration Efficiency in the Donetsk and Ruhr Coal Mining Areas</b> |     |
| D. Rudakov and O. Inkin   | 155 |
| <b>Prospects for the Development of Aluminium Ore Deposits in Ukraine</b>   |     |
| O. Lozhnikov, A. Pavlychenko, O. Shustov and N. Dereviahina   | 165 |

## Chapter 5: Reclamation and Waste Utilisation

|  |     |
|--|-----|
| <b>Soil Evolution in Overburden Dumps and Adjacent Areas</b><br>N. Maksymova, H. Petrushyna, I. Chushkina and H. Roubík  | 177 |
| <b>Waste from the Destruction of Industrial and Civil Infrastructure as a Resource in the Post-War Revival of Ukraine</b><br>D. Rodionov   | 187 |
| <b>Comprehensive Development of Secondary Resources in the Context of Sustainable Development and Energy Security in Coal-Mining Regions</b><br>O. Medvedieva, I. Slobodiannykova, V. Medianyk, S. Buriak, O. Demchenko and V. Buketov | 203 |

## Chapter 6: Filtration Systems for Industrial and Hydrogeological Applications

|  |     |
|--|-----|
| <b>Modeling and Analysis of Hydrodynamics in Filtration Systems</b><br>A. Sudakov, A. Shumov, M. Voita, Y. Hanzha and O. Dmytruk   | 215 |
| <b>Results of Research into the Physical and Mechanical Properties of Biopolymer Gravel Composite Block Filters for Hydrogeological Wells</b><br>A. Sudakov, M. Sarbopelyeva, M. Isakova, M. Narbayev, M. Aliakbar and A. Shumov | 226 |

## Chapter 7: Mechanical and Geodetic Equipment in Open-Pit Mining

|  |     |
|--|-----|
| <b>Trolley Trucks in the Mining Industry: Analysis of Current Experience and Prospects for Development in Ukraine</b><br>I. Nazarov and M. Chebanov                    | 241 |
| <b>Synthesis of a Complex of Mathematical Models of Excavator Use Processes over Time</b><br>A. Kryuchkov, M. Serhiienko, V. Rozen and P. Rozen                        | 248 |
| <b>Development of a Methodology for the Integrated Use of RTK and Non-RTK Drones to Optimize Surveying Monitoring</b><br>O. Yanovych, V. Levytskyi and O. Shapochnikov | 257 |

## Chapter 8: Research Methods and Technical Solutions in Engineering Design

|   |     |
|---|-----|
| <b>Mixed Electromagnetic Crack-Face Conditions in a Piezoelectric/Piezomagnetic Bimaterial under Antiplane Mechanical Loading and In-Plane Electric Fields</b><br>O. Onopriienko, T. Kagadiy and A. Shporta | 267 |
| <b>Application of Canonical Polynomials for Describing the Stress-Strain State of Rotating Disks</b><br>S. Tymchenko, O. Sdvyzhkova, D. Babets, I. Ilina, A. Moldabayev and O. Buhrym                       | 276 |
| <b>Analysis of the Design of Filter Cartridge Covers for Respirators against Dust</b><br>D. Radchuk, Y. Cheberiachko, O. Stolbchenko, D. Shoshyn and O. Yefimenko   | 286 |
| <b>Development of a Software-Hardware Complex for Continuous Monitoring of Drilling Fluid Rheology</b><br>V. Khomenko, A. Zholbassarova, A. Kalzhanova, S. Ratova and A. Popov                              | 300 |

## Chapter 9: Risk and Safety Management

|   |     |
|---|-----|
| <b>Improvement of the Risk Management Process in Organizational Management Systems Using PDCA Cycles</b><br>V. Tsopa, T. Bil'ko, S. Cheberiachko, O. Deryugin, L. Cheberyachko and O. Stanislavchuk | 313 |
| <b>Methodology of Safety Risk: Assessment of Adequacy of Measures</b><br>Z. Matsuk, A. Belykov, Y. Cheberiachko and O. Nesterova  | 327 |

**Development of a Software Package with Artificial Intelligence in the Systems for Managing Occupational Safety and Health at Mining Enterprises**

V. Tsopa, S. Cheberiachko, O. Deryugin, A. Yavorskyi and B. Hrymalo

335
