

Table of Contents

Preface

Chapter 1: Functional Materials and Specialised Technologies

Low-Temperature Atmospheric Pressure Plasma Jets and their Applications in the Surface Activation of some Polymeric Substrates for Advanced Electronic Packaging S.Y. Hsu, C.M. Tseng and J.H. Hsieh	3
Photoluminescence of Erbium-Doped ZnO Nanostructures E.V. Hernández, C.E.C. Montufar, M.A.C. Ramírez and F.M. Hernández	13
Study on Adsorption of Diesel Molecules on MoS₂ and NiMoS Catalysts Y.K. Qu, X.G. Zhao, L.X. Wang and H.F. Li	19

Chapter 2: Environmental Protection, Water and Wastewater Treatment

Determination of Air Pollutants Removal Efficiency by Wet Packed Scrubber System L. Hang, D. Um, A. Srean, S. Kong, P. Try, D. Chhe, C. Taing, R. Yim, M. Hata, M. Amin, W. Phairuang and M. Furuuchi	37
Groundwater Purification Using Bio-Sand Filter Modified with Iron Oxide-Coated Sand and Activated Carbon B. Leng, M.P. Wai, L. Menh, C.I. Si and R. Heu	43
Polymer-Based Metal-Organic Framework Composite Beads: Optimization for Methyl Orange Adsorption N. Saporantos, E.C.R. Lopez, K.C. Go, K.D. Taclobao, H.L. Medrano and J.V.D. Perez	53
Growth in the Worldwide Stock of E-Mobility Vehicles (by Technology and by Transport Mode) and the Worldwide Stock of Hydrogen Refueling Stations and Electric Charging Points between 2020 and 2022 O.A. Marzouk	61
PAN/PVP/CD-MOF Composite Beads for the Removal of Methylene Blue and Congo Red in Water E.C.R. Lopez and J.V.D. Perez	69
Optimization of Chitosan - MIL-101(Fe) - Polyethyleneimine MOF-Based Composite Beads for Methyl Orange Removal N. Saporantos, I.J.C. Dela Cruz and J.V.D. Perez	79
Fabrication of Paper-Based Silver Nanoparticle (AgNP) Sensors for Smartphone-Based Colorimetric Detection of Cu (II) in Water M.A.D. Gomeceria, M.L.I.C. Miranda, E.C.R. Lopez and J.V.D. Perez	87

Chapter 3: Materials for Construction

Numerical Analysis of Hybrid Fibre-Reinforced Concrete Beam-Column Joint P. Das and L.I. Singh	99
Characterization and Evaluation of Asphalt Mixtures for Cycle Paths with Cellulose Fiber Obtained from Non-Toxic Sanitary Waste W.O.C. Tipán, A.B.C. Salazar, B.M.C. Vélez, V.L.A. Carrasco and J.A.B. García	109
