

Table of Contents

Preface

Chapter 1: Structural Engineering and Geotechnics

Sloshing Wave Height in the Storage Tanks Constructed on Different Topography Conditions J. Ren, M. Vafaei and S.C. Alih	3
Importance of the Use of Amorphous Gabions in the Face of a Possible Scour on the Continental-Peru Bridge D.E.F. Atachsgua, J.V.H. Collahua and R.E.G. Mogrovejo	11
A Study on the Applicability of Jet Grouting for Internal Stability of Collapse Tunnel S.H. Seo, Z.H. Xin and E. Jung	17

Chapter 2: Sustainable Architecture, Energy Efficiency and Thermal Comfort of Buildings

Modelling and Control of Reflected Heat from Light Shelves in Tropical Climates A.P. Ambadi and B. Raphael	27
Current Measures and Future Pathways for Achieving Carbon Neutral Building Design: A Focus on Coastal Commercial Buildings H. Yang and C. Kim	35
Thermal Environmental Monitoring of Apartment Building in Saudi Arabia N.S. Alaboud	41
Thermal and Natural Light Comfort Analysis of Bouça Social Housing Development in Porto, Portugal S. Pereira, B. Figueiredo and P. Mendonca	47
Simulation and Optimization of High-Rise Residential Clusters and Daylighting Environment: Focus on the Busan Coastal Region H. Yang and C. Kim	59
The Use of Phase Change Materials for Cooling Applications in the Hot Climate of the UAE M. Haggag, U. Masood, A. Hassan and M. Laghari	65

Chapter 3: Architectural Heritage Protection and Spatial Planning

Urban Heritage Conservation in Saudi Arabia Toward Sustainable Reuses S. Mazzetto	79
The Formation Process and Accommodation Development on Mountainous Farmland of Mon Cham, Chiang Mai K. Sukpinij and S. Ota	87
