

Table of Contents

Adaptive Control for the Metal Cutting Process V. Gutakovskis, E. Gerins, V. Naginevicius, V. Gudakovskis, E. Styps and R. Sertvytis	1
Real-Time Monitoring of Solar Modules Manufacturing P. Tšukrejev, K. Kruuser, G. Gorbachev, K. Karjust and J. Majak	9
Enhancement of Production Rate and Flexibility in an Assembly Line by Execution of Various Lean Techniques - A Case Study D. Sobyta and S. Jeyabalan	15
Optimal Reactive Power Dispatch Solution Using Enhanced Sine Cosine Optimization Algorithm with Selection Operator M. Abdelmoumene	29
Modelling and Implementation for Airflow and Temperature Distribution in a Small-Scale Granary M.O. Onibonoje, J.O. Baandele and T.E. Fabunmi	45
Compositional and Structural Deficiencies Causing Failure of Local Fire Assaying Crucibles in Ghana Y. Hou, L. Gbolagah, D.B. Asante and P.S. Kwawukume	57
Retrofitting of Cracked and Damaged Walls of Historical Buildings with Reinforced Concrete Materials J.S. Liao	71
Electrical Load Flow Analysis of 132/33/11 kV Port of Durban's Substation S. Mnukwa and A.K. Saha	79
Microstructural and Mechanical Characterization of the Yb: YAG Laser Welding of High-Pressure Die-Casting Mg-Al-Mn Magnesium Alloy S. Ouallam, J.E. Masse, P. Peyre, M.L. Djeghlal, F. Guittouneau, Z. Boutaghou and L. Kaba	95
Dynamic Tuning of the Controller Parameters in a Two-Area Multi-Source Power System for Optimal Load Frequency Control Performance P.A. Gbadega and A.K. Saha	111
Detection of Bacterial Wilt on Enset Crop Using Deep Learning Approach Y.K. Afework and T.G. Debelee	131
Deployment of FACTS Controllers in Solving Power System Network Problems: A Review B.O. Adewolu and A.K. Saha	147
Dimensional and Thermal Reliability of Multi-Walled Carbon Nanotube Filled Natural Rubber Nanocomposites R.O. Medupin, O.K. Abubakre, A.S. Abdulkareem, R.A. Muriana and S.A. Lawal	177
Investigation of Heat Transfer Enhancement Effect on Normal and Nano Coated Wick Structure Heat Pipes-A Comparative Assessment N.M. Prabu, S. Nallusamy and G. Sureshkannan	191
Reliability and Availability of Multi-Channel IEC-61850 Substation Communication Networks for Mission-Critical Applications V.C. Mathebula and A.K. Saha	199
Evaluation of Biogas Production from Bio-Digestion of Organic Wastes O.J. Odejebi, O.A. Olawuni, S.O. Dahunsi and A.A. John	217
Implementation of 5G Communication Network for a Safe Operation of Autonomous and Conventional Ships A. Ait Allal, L. El Amrani, A. Haidine, K. Mansouri and M. Youssfi	229
