

Table of Contents

| | |
|--|-----|
| Mechanical Properties of Gas Metal Arc Weldments of AISI 304 Stainless Steel Using Different Shielding Gas Compositions A.I. Ekpemogu, O.E. Ariwoola, A.A. Rasheed, O.A. Ogundele, T.E. Abioye and T.I. Ogedengbe | 1 |
| Variability of Surface Strengthening of Aluminum Cylinders of Internal Combustion Engines N.F. Kolenchin and D.V. Denisenko | 12 |
| Mechanical Properties of Al 6063 Processed with Equal Channel Angular Extrusion under Varying Process Parameters T.M. Azeez, L.O. Mudashiru, T.B. Asafa, A.A. Adeleke and P.P. Ikubanni | 23 |
| Randomly Dispersed Coated Composites Study by Statistical Approach and Numerical Homogenization Method K. Fedaoui, M.S. Boutaani, A. Bouebbou, L. Chaibainou and A. Boukhobza | 33 |
| Engineering Properties of Concrete with a Ternary Blend of Fly Ash, Wheat Straw Ash, and Maize Cob Ash N. Bheel, P.O. Awoyera and O.B. Olalusi | 43 |
| Influence of Calcined Clay on the Strength Characteristics and Microstructure of Recycled Aggregate Concrete for Sustainable Construction O.M. Olofinnade and I.T. Oyawoye | 56 |
| Mechanical Behaviour of Cement-Bound Gravels by Experiment-Based 3D Multi-Scale Modelling: Application to Non-Hazardous Waste Incineration Bottom Ashes Aggregates for Use in Road Engineering L. Sow, F. Bernard and S. Kamali-Bernard | 71 |
| Experimental Investigation to Evaluate the Behavior of Concrete-Filled Steel Tubular Columns under the Effect of the Distribution of the Total Steel Area between the Internal Concrete Core and the External Steel Tube Y.R. Tawfic, A.S.A. Sayed, M.A. Eid and L.M. Abd el-Hafez | 86 |
| Influence of Chemical Reaction and Arrhenius Activation Energy on Hydromagnetic Non-Darcian Casson Nanofluid Flow with Second-Order Slip Condition E.O. Titiloye, A.T. Adeosun and J.A. Gbadeyan | 100 |
| The Effect of Viscous Dissipation and Thermal Radiation in Siskoferronanofluid Flow over a Porous Medium K. Saritha, R. Muthusami and M. Rameshkumar | 118 |
| Numerical Investigation of Fluid-Structure Thermal Coupling under the Transient Flow Effect A. Oudrane, B. Aour and M. Hamouda | 132 |
| Development of a Modal-Based Turbomachine Blade-Disk Attachment Inspection Technique K.K. Mantsha, D.A. Desai and P.S. Heyns | 147 |
| Biofuels, Hybrid and Mitigations of Greenhouse Gases Emissions: Scenario Perspective for Algerian Transport Sector by 2050 K. Bencheikh and N. Settou | 162 |
| Two-Dimensional Steady-State Analysis of Selected Wastewater State Variables Using ASM3 N.G. Mostafa, A.G. Radwan and M.M. Galal | 176 |
| Exploratory Study of the Role of Logistics Service Providers in Terms of Traceability in the Process of Outsourcing of Logistics' Activities: Case of Moroccan LSP K. Azzouz, J. Arif and M.B. Benboubker | 187 |
