

Table of Contents

Effect of Hydroforming Drawing Cups on Thickness Variation and Surface Roughness A. Eladl, O.B. Abouelatta, M. Samuel and T.A. Enab	1
Mechanical Properties of Concrete Incorporating Waste Glass as Replacement for Fine and Coarse Aggregate O.A. Olawuyi, M. Kareem, K. Ishola, R.O. Bolaji and O.O. Fadipe	19
Physical, Mechanical and Hygroscopic Behaviour of Compressed Earth Blocks Stabilized with Cement and Reinforced with Bamboo Fibres D. Abessolo, A.B. Biwole, D. Fokwa, B.M. Ganou Koungang and Y.B. Baah	29
Physico-Chemical and Thermomechanical Analysis and Characterization of a Thermoplastic Composite Material Reinforced by Washingtonia Filifera Novel Vegetable Fibers D.E. Gaagaia, M. Bouakba, M.d.M. Barbero-Barrera, L. Abdelheq and N. Boutasseta	43
Recycling of Synthetic Waste Wig Fiber in the Production of Cement-Adobe for Building Envelope: Physio-Hydric Properties A.A. Akinwande, A.A. Adediran, O.A. Balogun, O.S. Adesina, A.F. Owa, A.O. Ademati, B.J. Olorunfemi and A. Emmanuel	57
Elaboration and Charpy Test of Bioplastics Reinforced by Renewable Fibers: Starch /Diss K. Rabie, M. Mostafa, K. Mehdi and Z. Abdallah	77
Characterization and Mechanical Property Measurements by Instrumented Indentation Testing of Niger Delta Oil Shale Cuttings I.E. Kalu, E. Jossou, E.K. Arthur, S. Ja'afaru and E.Y. Ishidi	89
Geotechnical Beneficiation of the Strength Indices of Lateritic Soil Using Steel Slag and Cement S.I. Adedokun, O.M. Osuolale, A.C. Apata, W.A.H. Elsaigh, B.D. Ikotun and J.R. Oluremi	101
Swelling Pressure Prediction of Compacted Unsaturated Expansive Soils A.F. Ikechukwu and M.M.H. Mostafa	119
Impact of Improved Unified Power Quality Conditioner Allocation in Radial Distribution Network O.O. Osaloni and A.K. Saha	135
Dynamics of a Smarter Grid Operation in the Current Power Situation of Oman S. Al Omairi, K.E. Okedu and M. Al Balushi	151
Predictive Control of Adaptive Micro-Grid Energy Management System Considering Electric Vehicles Integration P.A. Gbadega and A.K. Saha	175
Numerical Simulation and Experimental Study of Natural Convection Flow in a Test Bench for Solar Air Heaters B. Bakri, H. Benguesmia, A. Ketata, S. Diriss and Z. Driss	205
Study of the Rheological Behaviour and the Curvature Radius Effects on a Non Newtonian Fluid Flow in a Curved Square Duct F. Bouzit, M. Bouzit and M. Mokeddem	225
Optimization of Process Parameters for Adsorption of Hexavalent Chromium from Wastewater Using Response Surface Methodology E.I. Ugwu and J.C. Agunwamba	239
