

Table of Contents

The Effect of the Geometrical Parameter and Stacking Sequence on Damage Behavior of Unidirectional Carbon / Epoxy Laminate	
M. Bellahkim, Y. Benbouras, A. Maziri, E.H. Mallil and J. Echaabi	1
Experimental and Numerical Studies of Viscoelastic Behavior of Bituminous Mixture with a High Rate of Reclaimed Asphalt Pavement, Dune Sand and Lime	
I. Borcheni, T. Kraiem, N. Mondher and J. Neji	17
Optimization of Energy Consumption of a Synthetic Ammonia Process	
F.C. Ibezim, I.I. Olateju and A. Giwa	35
Numerical and Experimental Investigation of Fluidized Bed Hydrodynamics at Elevated Temperatures	
F. Njuguna, H. Ndiritu, B. Gathitu, M. Hawi and J. Munyalo	51
Mathematical Modeling of the Heat Generated through an Evaporator-Absorber Accompanied by Thermal Storage for the Solar Energy Applications	
F. Latrache, Z. Hammouch, K. Lamnaouar, B. Bellach and M. Ghammouri	71
Scrutinization of Solar Thermal Energy and Variable Thermophysical Properties Effects on Non-Newtonian Nanofluid Flow	
A.M. Obalalu, O.A. Olayemi, S.S. Olakunle and C. Bode Odetunde	93
Application of System-Based Solar Photovoltaic Microgrid for Residential Real Estate	
E. Gedefaye, S. Lakeou, T. Tadiwose and T. Terefe	117
Corn Row Navigation Line Extraction Method Based on the Adaptive Edge Detection Algorithm	
S.Z. Ji, Y.F. Zhang and J.L. Gong	133
A Hybrid Artificial Intelligence-Based System for Supporting Eco-Industrialization of Complex Manufacturing Processes	
C. Abadi, I. Manssouri, M. Abadi, A. Abadi and H. Sahbi	147
