Effect of Welding by TIG Process of 304L Stainless Steel on Microstructure and Stress Corrosion Cracking F.E. El Garchani, O. Bensatte and M.R. Kabiri	1
Study of the Impact of Ambient Temperature on the Maximum Temperature Reached by a PV Solar Panel A. El Ouassidi, M. Alla, Y. Rharrabi, K. Amghar, H. Bouali, I. Driouch and B. El Monhim	17
Line Commutated Converter High Voltage Direct Current Based Supplementary Controller for Small-Signal Stability Enhancements S. Sikhakhane and R. Sarma	33
Maximizing Renewable DG Hosting Capacity under Load and Generation Uncertainty Using Multi-Objective Optimization A. Nazih, A.A.A. El Ela and E.S. Ali	53
Exploring the Effectiveness of Lime-Natural Pozzolana Stabilization on a Calcite-Rich Soil in the Presence of Phosphates A.B. Oussama, B. Omar and M. Khattatoui	93
Numerical Investigation of Slope Effects on the Stability of Sludge Retention Dikes Constructed with Quarry Waste H. Karoui and H. Khalfi	113
Development of an Innovative Pavement Recycling Technique Using Fine RAP in Sand Concrete for Road Slabs H. Ben Jemaa, I. Boussetta and S. El Euch Khay	133
The Use of Geopolymer Concrete in the Place of Cement Based Concrete in Coastal Infrastructures J.O. Akinyele, A.O. Ewetade, S.O. Odunfa and M.A. Idowu	153
Utilizing Experimental Compressive Strength to Assess Mid-Span Deflection in Reinforced Concrete Beams Using Robot Structural Analysis Software M. Kajja, N. Taifi, A. Malaoui and H. Bitu	169
