

Table of Contents

Optimization by Response Surface Methodology of Methylene Blue Removal in Aqueous Solution on Bioadsorbent Based on <i>Hyphaene Thebaica</i> Shells M.N. Amadou Kiari, L.Y. Ouattara, A. Adamou Ibro, M.H. Ibrahim Grema, A. Sanou, A. Traore, M.M. Malam Alma and K.B. Yao	1
Use of Biochar and Digestat for Soil Amendment and Treatment for Greenhouse Cultivation A. Diedhiou, J.M.A. Troh and A. Bensakhria	21
Ecological Anti-Vector Knitwear: <i>Sida rhombifolia</i> Impregnated with <i>Aloe vera</i> Gel for Sustainable Control of Insect Vectors A. Nsangou, D.E. Nkemaja, E.S. Eteme, E.F. Betene, P.M.A. Noah and O.A.D. Betené	29
Optimisation of the Iron, Zinc and Vitamin C Content of a <i>Zea Mays</i>-Based Infant Food Supplement Enriched with <i>Parkia Biglobosa</i> Pulp and <i>Anacardium Occidentale</i> Almond Meal K.M. Gboko, K.Y. Kone and D. Soro	41
Fiber Parameters Optimization from Waste PET Bottles for Enhanced Concrete Strength Using Response Surface Methodology O. Mezghanni, J. Mallek, M. Fourati, M. Diouf, L. Brahim, B. Hadrich and A. Daoud	49
Enhancing Safety and Durability in Household Juicers: 3D Modeling and Reliability Analysis with Child-Lock Mechanism W.M.K. Helal and W.J. Zheng	63
Low-Carbon Hydrogen: A Key Piece for a Just Energy Transition A.S. Adekanbi, C.S. Okeke and J. Carton	85
Feasibility Study on Hydrogen Production Goals in Nigeria's Energy Transition Plan O.D. Omakoji, G.C. Zinsou and A.M. Akoumany	103
