

Table of Contents

Preface

Chapter 1: Steel

Modeling of the Diffusion Process of Nitrogen Redistribution in Steel during Complex Ion Nitriding	
S. Shevchenko, O. Horova, M. Pogribniy, A. Vasilchenko and O. Rebrova	3
Influence of Carbon Content on the Strengthening Characteristics of Steels during AFSH	
O. Volkov, V. Subbotina, Z. Kraievska, A. Vasilchenko and O. Lyubchenko	11
Study of the Kinetics of Plastic Deformation Propagation in a Welded Joint of 10G2FB Steel after Submerged Arc Welding	
D. Laukhin, O. Beketov, N. Rott and B. Tsymbal	19
Microstructural Effects on the Fragmentation of High-Carbon Steel Cylindrical Shells under Explosive Loading	
S. Fedoriachenko, B. Tsymbal, V. Korol and D. Harkavenko	31
Steel Microstructure Prediction Mechanism Using Convolutional Neural Networks	
S. Fedoriachenko, K. Ziborov, I. Lutsenko and D. Harkavenko	38

Chapter 2: Polymers and Composites

Predictive Model for Determining the Dispersion Component of Surface Free Energy in Dispersion-Filled Polymer Composites	
Y. Danchenko, V. Andronov, A. Kariev, O. Mirus and O. Kulakov	49
Structural Assessment and Repair Feasibility of Surface Defects in Composite Sandwich Panels	
A. Kondratiev, T. Nabokina, O. Kabus and O. Ivanenko	55
Study of the Process of Synthesis of Functional Fillers for Polymer Composites for Protection against Electromagnetic Radiation	
M. Riabchenko, A. Lytvyn, D. Ivashchenko and V. Lebedev	65
Influence of the Configuration of Polypropylene-Based Dust Filters on the Pressure Drop in Filter Respirators	
S. Cheberyachko, D. Radchuk, O. Mukha and O. Sharovatova	72

Chapter 3: Functional Materials

Development of Recycling of Alloyed Industrial Waste by Carbothermic Reduction with the Determination of Structural and Phase Composition of the Obtained Materials	
B. Tsymbal, A. Petryshchev, M. Motrych and O. Sharovatova	87
The Effect of Additives to the Primary Material of a Current-Carrying Conductor on the Heating Temperature of an Electrical Wire	
A. Katunin, O. Kulakov, Y. Zarichniak and I. Shutenko	99
Modeling of the Efficiency of Using Sorption Metal Hydride Technologies for the Purification of Gaseous Hydrogen from Accompanying Impurities during its Production, Storage and Transportation	
O. Kondratenko, K. Umerenkova, V. Koloskov, O. Lytvynenko, H. Koloskova and V. Borysenko	109
Carbonized Residues Electrical Resistance as a Result of the Supramolecular Structure Organization	
D. Tregubov, A. Maiboroda, M. Chyrkina-Kharlamova and D. Zhurbynskyi	132
Experimental-Statistical Models for Obtaining a Database on the Ignition Temperatures of Metal Fuel Particles in Gaseous Products of Thermal Decomposition of Fluoroplasts-Based Pyrotechnic Mixtures	
O. Kyrychenko, V. Kovbasa, M. Kutsenko and I. Shkoliar	143
Investigation of Mechanical Properties of Oxide Films on the Base Nb, Ta and Zr	
V. Starikov, S. Starikova and V. Starikov	152

Kinetic Aspects of Wood Hydration and Dehydration S. Kulman, O. Horbachova, A. Vyshnevskiy and S. Mazurchuk	159
Inspection of the Thermal State of the Insulating Material on the Surface of a Steam-Water Heat Exchanger under Operating Conditions T. Rymar and V. Rymar	174

Chapter 4: Fire-Extinguishing and Fire-Resistant Materials

Optimization of Effectiveness Evaluation Method for Intumescent Fire Retardant Coating O. Hryhorenko, N. Saienko, V. Lipovyi, K. Afanasenko and V. Oliinyk	183
Possibilities of Using a Fire Extinguishing Substance Based on a Water-Soluble Polymer for Extinguishing Flammable Liquids I. Stylyk, A. Kodrik, O. Titenko and S. Zhartovskyi	190
Investigation of Fire Extinguishing Properties of Multicomponent Systems with Combined Action Based on Wetted Lightweight Bulk Materials for Extinguishing Polar Flammable Liquids O. Kireev, Y. Hapon, V. Nuianzin and O. Danyk	199
Possibilities of Using Potassium Carbonate and Bicarbonate as Inhibitors in the Composition of Aqueous Fire-Extinguishing Substances I. Stylyk, S. Zhartovskyi, A. Borysov and O. Dobrostan	206
Silicophosphate Fire Retardant Coatings For Expanded Polystyrene N. Lysak, O. Skorodumova, A. Chernukha, V. Kochubei and V. Andronov	213
Research on Thermal Runaway of Mechanically Damaged Li-Ion Batteries and its Stopping by Excess Water A. Maiboroda, Y. Hapon, D. Tregubov and V. Nuianzin	224

Chapter 5: Fire-Resistance and Fault Tolerance of Building Materials and Structures

Problems of the Formation of Dangerous Cr(VI) Compounds in Portland Cement and their Elimination Using New Refractories S. Logvinkov, O. Borysenko, M. Ivashchenko and O. Maksimenko	235
Modeling the Thermal Effects of Fire on Steel-Reinforced Concrete Slabs with a Corrugated Profile S. Fedchenko, O. Nuianzin, V. Stepanenko and S. Vedula	242
Development of Numerical Methods for Determining the Bearing Capacity of Steel Floor Beams under High Temperatures O. Bashynskiy	250
Investigation of Thermal Damage and Structural Weakness in Concrete N. Rashkevich, V. Otrosh, I. Tyshchenko and S. Tsvirkun	258

Chapter 6: Fire-Resistance and Fault Tolerance of Constructions and Structures

Studying Fire Hazard of Premises of a Mobile Communications Base Station Y. Feshchuk, V. Nizhnyk, A. Tsyhankov, V. Melnyk and D. Sharipova	269
Resistance of the Defense Structure of an Aircraft Hangar to Emergency Impacts M. Barabash, N. Kostyra, V. Maksymenko and I. Barmin	282
Research of the High-Intensity Dynamic Loads Effects on a Monolithic Reinforced Concrete Frame Building O. Horb, P. Mytrofanov, S. Skliarenko and O. Holodnov	290
Predicting the Geometric Shape of the Cross-Section of Fire Retardant Wooden Beams under Conditions of Fire S. Pozdieiev, A. Novhorodchenko, M. Zmaha and V. Novhorodchenko	302
Intensification of Sand Dehydration in Warehouses Using Vacuum Installations D. Beliuchenko, K. Tishechkina, T. Hannichenko and O. Salamatina	310

Evaluation of Fire-Damaged Concrete Structures Using the Non-Destructive Testing N. Rashkevich, V. Otrosh, M. Shyogoleva and O. Tyshchenko	322
--	-----

Chapter 7: Modeling Particle Behavior

Testing Micro- and Nanoparticles in a Dynamic Environment V. Pasternak, A. Ruban, D. Bazaliiev, K. Pasynchuk and J. Telak	333
Application of Numerical Methods for the Analysis of Particle Agglomeration and Dispersing Processes V. Pasternak, A. Ruban, D. Polishchuk, O. Bilotil and R. Stawicki	345
Development of a Computer-Simulation Model for Particle Filling Based on Molecular Dynamics V. Pasternak, A. Ruban, V. Kovalchuk, O. Zemlianskyiy and O. Telak	357

Chapter 8: Computational Research

Determination of the Patterns in the Formation of Gas Filter Cartridge Geometries D. Radchuk, Y. Cheberiachko, R. Khoma and O. Sharovatova	371
Intensity of Neutralization of Dangerous Gases during Deposition with Small-Dispersion Water A. Lesko, O. Kulakov, O. Roianov and A. Katunin	384
Analytical Calculation of Annular Plates Supported on an Elastic Foundation with Power-Law Inhomogeneity Y. Krutii, M. Surianinov, H. Karnaukhova, A. Perperi and O. Klymenko	393
Analytical Method of Calculating Beams of Variable Stiffness on an Elastic Winkler Base Y. Krutii, M. Surianinov, D. Lazareva, A. Perperi and V. Vakulenko	403
Numerical Analysis of Protective Wall Height Effect on Window Glass Durability Near Gas Explosion Epicenter Y. Skob, I. Bychkov, V. Khalturin, K. Korobchynskyi and R. Maiboroda	418

Chapter 9: Water Treatment

Magnetic Modification of Ion Exchange in Water Treatment Processes S. Dushkin, D. Kovtun and N. Rashkevich	433
Sorption Capacity of Activated Clinoptilolite V. Kochubei, S. Yaholnyk, M. Malovanyy and H. Krusir	445
Patterns of Aggregate Formation and Sedimentation of Fine Clay Particles S. Kulinich, A. Shkop, A. Bosiuk and O. Shestopalov	455
Synthesis, Structure and Adsorption Properties of Carbon Composites Based on Lignin and Iron Powder I. Bordun, M. Malovanyy, N. Nahurskyi and A. Borysiuk	463

Chapter 10: Monitoring and Detection of Pollution and Hazardous Situations

Study of the Accuracy of the Temperature Fire Measurement by the Sensors of the Fire Alarms in Dynamic Conditions with Random Temperature Fluctuations I. Tolok, B. Pospelov, E. Rybka, K. Tishechkina and A. Markovska	479
Assessment of Power Supply Modes for Thermocatalytic Sensors in Explosion Hazard Monitoring Systems of Technogenic Facilities V. Holinko, O. Kuznetsov, O. Holinko and O. Sharovatova	488
Development of an Electromagnetic Detection Method for Explosive Materials M. Kustov, A. Karpov, S. Zimin and V. Strelec	498
Optimization of Groundwater Sampling after Destruction by Multiple Rocket Launcher Systems N. Rashkevich, Y. Kalchenko, O. Rashkevich and V. Kradozhon	508
