

## Table of Contents

<b>In Vitro Evaluation of Antibacterial Properties of Biogenically Synthesized Zinc Oxide Nanoparticles on Pathogenic Paddy Bacteria</b> R. Abd Rahman, C.H. Chia and N.A. Masdor	1
<b>Investigation of Physiochimechal and Biological Properties of Composite Sodium Alginate for Tissue Engineering</b> I.A.U. Kadhim	11
<b>Novel Carbidopa Functionalised Silver Nanoparticles a Selective Detection for Lead and Levodopa</b> P.R. Popat, K. Nayee, M. Patel, A.P. Patel, R.J. Patel, V.A. Patel and B.A. Makwana	21
<b>Synthetic and Natural Polymeric Drug Delivery Systems - A Comprehensive Overview of Polycaprolactone and Glucan Particles</b> N. Bernardi, S. Jesus and O. Borges	39
<b>Synthesis Techniques of Bioceramic Hydroxyapatite for Biomedical Applications</b> T.O. Sadiq, I. Sudin, J. Idris and N.A. Fadil	59
<b>Improvement in Bioactivity Properties of Hydroxyapatite Coated Ti-6Al-4V ELI with Addition of Zirconium Oxide for Orthopaedic Implant</b> S. Ardhy, Gunawarman, J. Affi and Y. Yetri	81
<b>Optimizing the Surface Properties of Zirconium Implants with Germanium Coating</b> D.H. Mohammed and R.K. Jassim	91
<b>Forecasting Approach to Investigate Dynamic Growth of Organoid within 3D Matrix for Distinct Perspective</b> M. Yusro and I. Nurisusilawati	107
<b>Evaluation of the Malalignment Varus - Valgus in Total Knee Arthroplasty Designed for Deep Knee Flexion Using Knee Kinematic Motion Simulator</b> J. Triwardono, F. Rokhmanto, R. Roberto, I. Kartika, A.S. Saragih, Y. Whulanza, S. Shuib and S. Supriadi	119
<b>Performance Comparison for Hearth Rate Signal Detection for Different Location in Fingertip and Wrist Using Sensor MAX30102</b> R. Gunawan, A. Andang and M. Ridwan	131
<b>The Evaluation of Complementary Metal-Oxide Semiconductor (CMOS) in Smartphone to Test X-Ray Tube Radiation Leakage</b> T.M. Yoshandi, A. Zaky and A. Patrian	145
