Bio-Convective Flow of Micropolar Nanofluids over an Inclined Permeable Stretching Surface with Radiative Activation Energy O.A. Ajala, P. Adegbite, A.M. Obalalu, A. Abbas, A.O. Owolabi and O.B. Ojewola	1
Distinct Motion Control Strategy during Unanticipated Landing: Transitioning from Copers to Chronic Ankle Instability Z.F. Zhou, D.T. Xu, H.Y. Zhou, T.E. Chon, J.S. Baker and Y.D. Gu	15
Preparation and Characterization of PMMA/SrBHA Composites for Bone Replacement Applications S. Khansumled and P. Boonphayak	33
Characterization of Polycaprolactone/<i>Eucomis autumnalis</i> Cellulose Composite: Structural, Thermal, and Mechanical Analysis D.G.A. Selikane, T.P. Gumede, K. Shingange, T.D. Malevu, M. Ngwenya and F. Kumalo	45
Preparation, Characterization and Optical Analysis of Chromium Doped 45S Bioactive Glass-Ceramic İ.S. Çardaklı	59
Improving Chitosan/PVA Electrospun Nanofibers Antimicrobial Efficacy with Methylene Blue for Effective <i>E. Coli</i> Inhibition Using Photodynamic Therapy A. Salleh, A.M. Afifi, F.M. Zuki, M. Mohtar and R.A. Ilyas	67
