

Table of Contents

Synthesis and Characterization of Glutaraldehyde-Crosslinked PEG-PVA Biodegradable Hydrogels for Tissue Engineering Applications J.Y. Hu	1
Green Tea Catechin@ZIF-8 Encapsulation within Calcium Alginate Hydrogel: Preparation, Characterization and <i>In-Vitro</i> Release V.V.L. Nguyen, T.H.T. Pham, G.Q.N. Pham, U.N. Cao and T.H.A. Nguyen	15
Experimental Proof of Concept Modelling and ASPEN Based Scale Up Techno Economics of Phenolic Nutraceutical Extract Production from South Western Polyherb E.O. Oke, O.U. Usofor, O. Adeyi, B.I. Okolo, S. Onoja and K.J. Simonyan	27
Surface Modification of Commercially Pure Titanium Substrate with Different Coating Materials Using Electrophoretic Deposition Technique N.A. Al-Ali, Z.J. Kadhim, A.A. Shaher and A.R. Al-Adhah	51
Optimizing Composition and Rigidity of Unidirectional Laminates for Total Hip Prosthesis Applications R. Zekkour, K. Faiza and R. Manaa	63
Nano Finishing of Orthopedic Implant Plates Using Abrasive Flow Machining S. Saroj, S. Bhukya and V. Gudipadu	75
Modulating Neurons via Optothermal, Magnetic, and Electrical Mechanisms Using Metal Nanoparticles M.Z. Sahin, E. Uzun and I. Tekeoglu	81
Design and Simulation of a Microfluidic System for Hydrodynamic Irrigation of <i>In Vitro</i> Pancreatic Islets E. Zuñiga-Aguilar, O. Ramirez-Fernández and O. Anaya-Reza	93
A Short Description of most Common Biocompatible Materials that are Suitable for 3D Printing in Medical Field M. Florea and G.V. Mnerie	105
Applications of 3D Printing Technology in Healthcare E. Angula, L.L. Agirre, A.A. Pujana and S.K. Saini	127
A 3D Printing Soft Prosthesis and an IoT Architecture for Controlling Gestures J.L. Ordoñez-Avila, D.D. Lopez, D. Ventura, J. Molina-Palucho, A.D. Colindres, M.E. Perdomo, K.M. Reyes Leiva, J.V. Fajardo and M. Cardona	137
