

Table of Contents

INVITED PAPER: Instrumentation and Biological Applications of High-Resolution Frequency Modulation Atomic Force Microscopy in Liquid T. Fukuma	1
Photoluminescent Photonic Devices from Nanostructured Porous Silicon Fabricated Using Lightly Doped Silicon O. Sarracino Martínez, J. Escorcia-Garcia, J.M. Gracia-Jiménez and V. Agarwal	11
Self-Assembled ZnO Nanostructure for Field-Emission Devices P. Bhattacharya, D. Varshney, K. Samanta and R.S. Katiyar	19
Growth and Luminescence of Nanowires and Oriented Nanoplate Arrays of Mg Doped ZnO A. Urbieto, P. Fernández and J. Piqueras	27
Study of the Silanization Process in CNFs: Time, Temperature, Silane Type and Concentration Influence C. Palencia, F. Rubio, C. Merino, J. Rubio and J.L. Oteo	33
Technology of Fabrication and Morphology of Multiwalled Carbon Nanotubes on Co-Ni/MgO Catalysts by Thermal CVD H.J. Ryu, B.K. Singh, K.S. Bartwal and I.V. Kityk	45
Stability of Thin Gold Nano Wires V. Verma and K. Dharamvir	65
Solution Processing Route to High Efficiency CuIn(S,Se)₂ Solar Cells J.F. Guillemoles, J.P. Connolly, O. Ramdani, O. Roussel, D. Guimard, V. Bermudez, N. Naghavi, P.P. Grand, L. Parissi, J. Kurdi, J. Kessler, O. Kerrec and D. Lincot	79
Synthesis and Characterization of Tin Oxide Nanoparticle for Humidity Sensor Applications T. Krishnakumar, R. Jayaprakash, V.N. Singh, B.R. Mehta and A.R. Phani	91
Annealing Effects on RF Sputter Deposited a-Si/a-C Multilayers E. Ech-chamikh, A. Essaifi, M. Azizan, F. Debbagh and Y. Ijdiyaou	103
Synthesis and Magnetic Properties of Nanosized Cobalt Substituted Nickel Ferrites (Ni_{1-x}Co_xFe₂O₄) Using Egg White (Ovalbumin) by Thermal Evaporation S. Marutha Senthil, R. Jayaprakash, V.N. Singh, B.R. Mehta and G. Govindaraj	107
Solid State NMR Evaluation of Natural Resin/Clay Nanocomposites E. O. da Silva, M.I.B. Tavares and J.S. Nogueira	117
Aspect Ratio Evaluation of Carbon Nanotubes Grown on Calcium Carbonate Substrate for Different Temperatures and Precursor Flow Times K.N. Pati and C.S. Solanki	127
The Answer to the Challenging Question: Is there a Size Limit of Nanowires? D. Hourlier and P. Perrot	135
Controlling Synthesis of Copper Nanorods and Triangular Nanoplates X.W. Zheng	145
