

Table of Contents

Carbon Nanofibers Grown <i>In Situ</i> on Porous Glass	1
M.A. Mazo, J. Sanguino, A. Tamayo and J. Rubio	
Effect of Synthesis Temperature on Particles Size and Morphology of Zirconium Oxide Nanoparticle	18
R. Sigwadi, M.S. Dhlamini, T. Mokrani and P. Nonjola	
Rod-Like Rutile Nanoparticles: Synthesis, Structure and Morphology	32
V. Kotsyubynsky, I. Myronyuk, V. Chelyadyn, A. Hrubiak, V. Moklyak and S. Fedorchenco	
Determination of the Growth Rate of Hydrothermally Synthesised ZnO₂ Crystallites	41
M. Egblewogbe, G. Gebreyesus and S.A. Atarah	
Fabrication of Quantum Dots Light Emitting Device by Using CdTe Quantum Dots and Organic Polymer	48
A.M. Kadim	
Influence of Stabilizer on the Microstructures and Photocatalytic Performance of ZnO Nanopowder Synthesized by Sol-Gel Method	57
X.N. Xu, Q.P. Zhang, B.T.M. Ong, H. Yuan, Y. Chen, Y.T. Liu and M. Xu	
A Smart Hydrothermal Synthesis for Cobble-Like Porous CeO₂ and their Superior Catalytic Performance for NH₃-SCR of NO_x	72
X.F. Niu and F.R. Tu	
Needleless Electrospinning System, an Efficient Platform to Fabricate Carbon Nanofibers	78
H. Samadian, H. Mobasher, S. Hasanpour and R. Faridi-Majid	
Increased Operating Properties of Cutting Ceramics by Application of Nanostructured Multilayer Wear-Resistant Coating	90
A.A. Vereschaka, M. Volosova, A.A. Krapostin, A. Batako and A.E. Seleznev	
Synthesis and Machining Characterization of Copper-Multiwalled Carbon Nanotubes-Graphene Hybrid Composite Using SEM and ANOVA	105
S. Nallusamy, M.R. Narayanan and J. Logeshwaran	
Pressure-Driven Gas Flow through Nano-Channels at High Knudsen Numbers	116
S. Karakitsiou, B. Holst and A.C. Hoffmann
