|                                                                                                                                                                                                                                                                                                   |     |
|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----|
| <b>Photocatalytic Degradation of Orange II by Active Layers of Ag-Doped CuO Deposited by Spin-Coating Method</b><br>Z. Madiha, D. Radouane, B. Dikra, B. Boudjema and R. Barille                                                                                                                  | 1   |
| <b>Ferrite-SCNTs Composite (ZFS) Embedded Nanostructured Cellulose Acetate Membranes - A Promising Sulphate Salts Rejecting Tool. Synthesis and Characterizations</b><br>A. Afzal, N. Iqbal and M. Rafique                                                                                        | 21  |
| <b>The Effect of Surface Treatment/Polymer Type on Formation of 3D-Boron Nitride Foams</b><br>A. Akpinar Borazan, D. Kuru, S. Dandil and C. Acikgoz                                                                                                                                               | 37  |
| <b>On Vibration Responses of Advanced Functionally Graded Carbon Nanotubes Reinforced Composite Nanobeams</b><br>M. Ladmek, A. Belkacem, M.S.A. Houari, A.A. Daikh, A. Bessaim, M.O. Belarbi, A. Tounsi, A.I. Khdaïr and M.A. Eltaher                                                             | 49  |
| <b>Iron Oxide Nanoparticles Produced by a Low-Energy Nd: YAG Laser Ablation Technique and Their Application as Contrast Agent for Magnetic Resonance Imaging</b><br>A. Khumaeni, G. Kurniawan and E. Hidayanto                                                                                    | 65  |
| <b>Stabilized Bare Superparamagnetic Iron Oxide Nanoparticles: Synthesis and Characterization</b><br>E.K. Suter, H.L. Rutto, O.N. Wesley and M. Banza                                                                                                                                             | 81  |
| <b>Investigation of the Effect of Vacuum and Air Annealing on the Structural, Optical and Electrical Properties of Radio Frequency Sputtered WO<sub>3</sub> Thin Films</b><br>M. Bousseta, S. Elmassi, A. Tchenka, L. Amiri, K. El Assali, A. Narjis, A. El Kissani, L. Nkhaili and A. Outzourhit | 97  |
| <b>Facile Synthesis of Hydrophobic Thermal Insulation Nano-TiO<sub>2</sub>/ZnO and SnO Coating for Solar Cell</b><br>A. Syafiq, M.Z. Farah Khaleda, V. Balarkrishnan and N.A. Rahim                                                                                                               | 111 |
| <b>Investigating the Effects of Biaxial Strain on the Electronic, Optical and Thermoelectric Properties of the Puckered Si<sub>2</sub>SeTe Monolayer</b><br>H. Rghioui, A. Marjaoui, M.A. Tamerd and M. Zanouni                                                                                   | 123 |
