

Table of Contents

Preface, Sponsors and Committees

Invited Papers

Computer Simulations of Laser Ablation, Plume Expansion and Plasma Formation A. Bogaerts, M. Aghaei, D. Autrique, H. Lindner, Z.Y. Chen and W. Wendelen	1
Light Scattering Techniques Applied to Materials Science J.D. Comins	11
Numerical Study of Butt Joining by Coaxial Powder Injection E.H. Amara, T. Tamsaout, K. Kheloufi, H. Berger and S. Pityana	17

I. Laser Matter Processing

Microstructure and Wear Behaviour of Al/TiB₂ Metal Matrix Composite P. Popoola, S. Pityana and E. Ogunmuyiwa	23
Numerical Simulation of Laser Bending of Thin Plate Stress Analysis and Prediction T. Tamsaout and E.H. Amara	27
Angular Distribution and Ion Time of Flight Produced on Silicon Target by Laser Irradiation Y. Belaroussi, T. Kerdja and S. Malek	31

II. Materials for Telecommunication Application

Investigation on Thin Films Deposited by PECVD from a DiPhenylMethylSilane (DPMS) Vapors or Mixed with Oxygen for Low-K Material Application L. Bouledjrib, S. Sahli, A. Zenasni, P. Raynaud and Y. Segui	35
Enhancement of Blue Spectral Response Intensity of PbS via Polyethylene Oxide-Adding for the Application to White LEDs S. Kaci, A. Keffous, M. Trari, B. Mahmoudi and H. Menari	39
Study of Optical and Structure Properties for Different Composition Tin-Antimony-Selenium Thin Film F.M. Abdel-Rahim	43

III. Laser Induced Plasma

Analyses of Plasmas Produced by Laser Ablation of Fresh Aliments S.A. Beldjilali, J. Hermann, T. Baba-Hamed and A. Belasri	49
On the Electron Distribution Effect of an Expanding Laser Ablated Plasma D. Bennaceur-Doumaz, D. Bara and M. Djebli	53
High Intensity Laser Ablation of Titanium Target K. Yahiaoui, T. Kerdja and S. Malek	57
Laser Ablation in Liquids: Colloidal Nanoparticles Synthesis S. Messaoud Aberkane, S. Boudjemai and T. Kerdja	62
Characterization of CN_x/Si Using RBS, NRA and AES Techniques M. Siad, S. Abdelli-Messaci, T. Kerdja, S. Lafane and M. Abdesselam	67
Effect of Laser Fluence on the Properties of Sm_{1-x}Nd_xNiO₃ Thin Films Deposited by KrF Laser Ablation S. Lafane, T. Kerdja, S. Abdelli-Messaci, S. Malek and M. Maaza	72
Characterization of Laser Induced Plasmas by Fast Imaging for Graphite Target C. Siouani, S. Abdelli-Messaci, T. Kerdja and S. Malek	76

IV. Laser Technology for Materials Science and Environment

A Review of the Laser Pyrolysis Technique Used to Synthesize Vanadium and Tungsten Oxide Thin Films L. Shikwambana, M. Govender, B. Mwakikunga, E. Sideras-Haddad and A. Forbes	80
---	----

<i>In Situ</i> Metal Matrix Composite Surfacing by Laser Surface Alloying J.D. Majumdar	84
Laser-Based Additive Manufacturing of Metals S. Kumar and S. Pityana	92
Comparison of the Capability of Peak Function in Describing Real Condensation Particle Counter Profiles A. Djebara, R. Khettabi, J. Kouam and V. Songmene	96

V. Modelling of Materials Processing and Microstructures

One-Dimensional Modeling of a Dielectric Barrier Discharge in NeXe Mixture, Application to Excimer Lamps K. Khodja, H. Sisabeur and A. Belasri	101
Electromagnetic Modeling of Microwave Axial Injection Torch at Atmospheric Pressure Used for Thin Film Deposition N. Ikhlef, M. Mekidèche, O. Leroy and A. Tibouche	105
Modelling Sequential Impact of Molten Droplets on a Solid Surface in Plasma Spray Process I.R. Kriba and A. Djebaili	111
Fluid Model Simulation of DC Glow Discharges H. Bahouh, S. Rebiaï, F. Bouanaka and S. Sahli	116
PIC-MC Simulation Method of DC Discharge Plasmas F. Bouanaka, S. Rebiaï, H. Bahouh and S. Sahli	121
Modeling of Detector Radiations Response P-I-N in Technology Thin Film on ASIC (TFA) Intended for Digitalization in Medical Imagery A. Saouli and K. Mansour	125
Effect of Argon Ambient Gas Pressure on Plume Expansion Dynamics F. Hamadi and E.H. Amara	129
Simulation of Geometry and Heat Transfer in a Thin Wall Produced by Direct Laser Powder Deposition K. Kheloufi and E.H. Amara	134
Modeling the Formation of Periodic Nanostructures on Solid Surface Induced by Femtosecond Laser Ablation by Particle-in-Cell Method M. Djouder, T.E. Itina and O. Lamrous	138

VI. Plasma Discharge

Numerical Modeling of an End-Hall Ion Source N. Oudini, G. Hagelaar, L. Garrigues and J.P. Bouef	144
Optimization of the Plasma Display Panel Characteristics with PIC-MCC Method W. Benstâli and A. Belasri	148
OES Diagnostics of HMDSO/O₂/CF₄ Microwave Plasma for SiOC_xF_y Films Deposition R. Chabane, S. Sahli, A. Zenasni, P. Raynaud and Y. Segui	152
Effect of the Plasma Deposition Parameters on the Properties of Ti/TiC Multilayers for Hard Coatings Applications N. Saoula, K. Henda and R. Kesri	156
Computation of the Net Emission Coefficient with the Overlapping Lines Consideration on the CH₄-Ar Plasma Discharge R. Benallal and B. Liani	160
Modeling of a Ne-Xe-HCl DC Discharge for Excimer Lamp S. Bendella and A. Belasri	164
Study of the Adhesion and the Thermal Stability of CrN and CrAlN Thin Films F.Z. Mammeri, L. Chekour and N. Rouag	168
Dry Sliding Wear of Stainless Steel Coating Obtained by Plasma on Aluminium Substrate N. Khanafi-Benghalem, K. Benghalem, K. Loucif, S. Aounnallah and A. Redjehta	173
Study of API 5L X52 Carbon Steel Treated in Oxygen Plasma Discharge B. Demri and D. Mansour	177
Influence of Plasma Parameters and Circuit Connecting on Harmonics Generated in Ar/O₂ 13.56 Mhz Plasma Discharge R. Tadjine, H. Lahmar and M.M. Alim	181

Electrical Characterization of Inductively Coupled Plasma Reactor Excited by RF (13.56MHz)	
M.M. Alim, M. Zekara, L. Henni, R. Tadjine and K. Henda	185
Experimental Study of Evolution of NO and NO₂ in a Positive Corona Discharge	
I.S. Medjahdi, M. Lemerini, F. Pontiga, H. Moreno, A.K. Ferouani and R.D. Medjahdi	189
Diagnostic of a RF (13.56MHz) Magnetron in Ar/CH₄ Discharge	
S. Djerourou, N. Saoula and K. Henda	195
Optical Properties of a-C:H Films Deposited by Plasma Microwave Discharge with Controlling Substrate Temperature	
M. Kihel, S. Sahli, R. Clergereaux, P. Raynaud and Y. Segui	200
Development of a Radiofrequency Plasma Diagnostic System with a Langmuir Probe and Study of a Capacitively Coupled Argon Plasma	
D. Mendil, H. Lahmar, D. Ouadjaout, L. Henni, L. Boufendi, D. Louhibi and K. Henda	204
Photo-Detachment of H⁻ in Magnetized Cascaded Arc Hydrogen Plasma	
S.M. Elhamali, A. Bouzed and A.M. Hashkel	208
Monte Carlo Simulation for an Electrical Discharge in O₂	
L. Zeghichi, L. Mokhnache and M. Djebabra	211
