

# Table of Contents

## Preface

## Chapter 1: Specification of Advanced Materials

<b>Nanocomposites on the Basis of Thermoplastics and Montmorillonite Modified by Polyvinylpyrrolidone</b>	
V. Krasinskyi, O. Suberlyak, L. Dulebová and V. Antoniuk	3
<b>Study of Tensile Properties of Recycled Polypropylene with Glass Fibers at Different Temperature</b>	
V. Senkerik, M. Stanek, M. Ovsik and L. Hylova	11
<b>Physical Properties of Polyamide 11 after Radiation Cross-Linking by Accelerated Electrons</b>	
A. Mizera, P. Stoklasek and M. Bednarik	19
<b>Influence of Beta Rays on Nylon 6 Mechanical Properties</b>	
P. Stoklasek, A. Mizera and M. Manas	27
<b>Mechanical Properties of Selected Types Thermoplastic Materials Modified by High Doses of Ionizing Beta Radiation under Thermal Stress</b>	
M. Bednarik, A. Skrobak and V. Janostik	35
<b>Zeolite as Nanomaterial for Water Treatment in a Production Exploitation</b>	
I. Pandová	44
<b>Analysis of the Mechanical Properties Change of PA6/MMT Nanocomposite System after Ageing</b>	
L. Dulebová, F. Greškovič, J.W. Sikora and V. Krasinskyi	52

## Chapter 2: Development of Manufacturing Technologies

<b>Application of Technical Elements of the Liquid Crystal in the Area of Manufacturing Operations</b>	
R. Krehel' and M. Kočíško	63
<b>Experimental Determination of the Focal Length of a Laser Beam from the Output Nozzle of a Laser Cutting Head</b>	
M. Lachman and J. Šafka	71
<b>Production from PLA Materials Processed Vertically by FDM Method RP Technology</b>	
A. Panda, E. Nováková-Marcinčinová, L. Nováková-Marcinčinová, T. Krenický and T. Zaborowski	80
<b>Sophisticated Production from Organic PLA Materials Processed Horizontally by Fused Deposition Modeling Method</b>	
E. Nováková-Marcinčinová, A. Panda and L. Nováková-Marcinčinová	88
<b>Research of the Basic Physical Regularities of Material Removal in Electrical Discharge Machining of Tool Steel</b>	
L. Straka and S. Hašová	96
<b>Influence of Process Parameters on Geometric Precision of Machined Surface after WEDM</b>	
L. Straka and S. Hašová	107
<b>Measuring the Size of Vibrations on a Mill Using the Vibration Analysis</b>	
Š. Olejárová and T. Krenický	119
<b>Impact Assessment of Input Factors on Tool Electrode Wear in Die Sinking EDM of Steel EN43CrMo4</b>	
S. Hašová, L. Straka and F. Špalek	127
<b>Assessment of Suitability of the Design of Gating System with the Use of Simulation Software</b>	
J. Majerník, M. Karková and J. Kmec	136
<b>Issue of Design Gate Dimensions and Experimental Assessment of the Suitability of Analytical Design</b>	
J. Majerník, M. Karková and J. Kmec	142

**Dynamics of a Moulding Cooling at Injection of Plastics**

J. Ružbarský

149

**Production Aspects Affecting the Final Precision Machining of Advanced Materials**

T. Stejskal, M. Stofa, J. Svetlík, M. Pituk and A. Žilinský

155
