

Table of Contents

Preface

Chapter 1: Specification of Advanced Materials

Nanocomposites on the Basis of Thermoplastics and Montmorillonite Modified by Polyvinylpyrrolidone V. Krasinskyi, O. Suberlyak, Ľ. Dulebová and V. Antoniuk	3
Study of Tensile Properties of Recycled Polypropylene with Glass Fibers at Different Temperature V. Senkerik, M. Stanek, M. Ovsik and L. Hylova	11
Physical Properties of Polyamide 11 after Radiation Cross-Linking by Accelerated Electrons A. Mizera, P. Stoklasek and M. Bednarik	19
Influence of Beta Rays on Nylon 6 Mechanical Properties P. Stoklasek, A. Mizera and M. Manas	27
Mechanical Properties of Selected Types Thermoplastic Materials Modified by High Doses of Ionizing Beta Radiation under Thermal Stress M. Bednarik, A. Skrobak and V. Janostik	35
Zeolite as Nanomaterial for Water Treatment in a Production Exploitation I. Pandová	44
Analysis of the Mechanical Properties Change of PA6/MMT Nanocomposite System after Ageing Ľ. Dulebová, F. Greškovič, J.W. Sikora and V. Krasinskyi	52

Chapter 2: Development of Manufacturing Technologies

Application of Technical Elements of the Liquid Crystal in the Area of Manufacturing Operations R. Krehel' and M. Kočiško	63
Experimental Determination of the Focal Length of a Laser Beam from the Output Nozzle of a Laser Cutting Head M. Lachman and J. Šafka	71
Production from PLA Materials Processed Vertically by FDM Method RP Technology A. Panda, E. Nováková-Marcinčinová, Ľ. Nováková-Marcinčinová, T. Krenický and T. Zaborowski	80
Sophisticated Production from Organic PLA Materials Processed Horizontally by Fused Deposition Modeling Method E. Nováková-Marcinčinová, A. Panda and Ľ. Nováková-Marcinčinová	88
Research of the Basic Physical Regularities of Material Removal in Electrical Discharge Machining of Tool Steel Ľ. Straka and S. Hašová	96
Influence of Process Parameters on Geometric Precision of Machined Surface after WEDM Ľ. Straka and S. Hašová	107
Measuring the Size of Vibrations on a Mill Using the Vibration Analysis Š. Olejárová and T. Krenický	119
Impact Assessment of Input Factors on Tool Electrode Wear in Die Sinking EDM of Steel EN43CrMo4 S. Hašová, Ľ. Straka and F. Špalek	127
Assessment of Suitability of the Design of Gating System with the Use of Simulation Software J. Majerník, M. Karková and J. Kmec	136
Issue of Design Gate Dimensions and Experimental Assessment of the Suitability of Analytical Design J. Majerník, M. Karková and J. Kmec	142

Dynamics of a Moulding Cooling at Injection of Plastics J. Ružbarský	149
Production Aspects Affecting the Final Precision Machining of Advanced Materials T. Stejskal, M. Štofa, J. Svetlík, M. Pituk and A. Žilinský	155
