

Table of Contents

Preface, Committees, Sponsors

Chapter 1: Coastal and Natural-Resources Management

A Review on Indonesian Fishermen Prosperity in the Coastal Area D. Cahyagi and R.O.S. Gurning	3
Sustainability Analysis of Coastal Management in the Madura Strait Z. Hidayah, D.M. Rosyid and H.D. Armono	10
Implementation of Life Cycle Assessment Method (LCA) and Analytical Hierarchy Process (AHP) to Determine the Development of Recycling Unit of Waste Water in Grati CCPP PT Indonesia Power up Perak Grati M. Tartiarini and U. Ciptomulyono	18
Structure Analysis on Artificial Reefs S.P. Kertorahardjo, H. Vincent and P.H. Duta	27

Chapter 2: Marine Energy Development and Exploration

Marine Current Technology Design to Support the Poteran Island Economy Based on Fisheries A. Sulisetyono, L.M. Jaelani and E. Setyo	37
An Analytical Approach to Modeling of Motion-Response of Floating Structure for Ocean Renewable Energy Conversion System S. Junianto, R.W. Prastianto and Mukhtasor	44

Chapter 3: Offshore Structures

Analysis on the Critical Conditions of Side-by-Side Offloading Operation between SSP Type-FPSO and Shuttle Tanker Murdjito, M.P. Rosari and E.B. Djatmiko	53
Heading Analysis of Weathervaning Turret Moored Units F. Ardiansyah, A. Sulisetyono and W.D. Aryawan	64
On Offshore Engineering Rules for Designing Floating Structure of Tidal Current Energy Conversion System Mukhtasor, S. Junianto and R.W. Prastianto	71

Chapter 4: Marine Machinery and Systems

Calculation of Temperature Gradient in Manual Fuel Change-Over Operation B.Y. Wiratama, T.F. Nugroho and W. Busse	81
Design HMI (Human Machine Interface) for Process Control System of Main Diesel Engine Fuel System D. Cahyagi, I.R. Kusuma and A. Kurniawan	88
Parameter Estimation of Maneuvering Variables of SIGMA-Extended War Ship Using Kalman Filter A.S. Aisjah, A.A. Masroeri, N.L. Gozali, R. Akbar, D.P. Sari and I. Munadhif	96

Chapter 5: Ship Design, Construction, Production and Recycling

Preliminary Study on Stability Parameters of Semi-Displacement Ships W.R. Hetharia	105
Benchmark Study of Ship Model Resistance Test D. Purnamasari, I.K.A.P. Utama and K. Suastika	114

Collapse Analysis on VLCC Subjected to Longitudinal Bending with Damages M.Z. Muis Alié, Wahyuddin, S. Asri, F.F. Lage, Juswan and T. Rachman	121
Experimental Analysis on Sinking Time of Littoral Submarine in Various Trim Angle L.T.P. Sinaga	128
Finite Element Analysis of Ship Deck Sandwich Panel S.H. Sujiatanti, A. Zubaydi and A. Budipriyanto	134
Fatigue Life Prediction for Warship Operation in Indonesian Water A. Sulisetyono and M. Kadhafi	140
Strength Analysis and Sea-Fastening Design of Container Crane Structure for Heavy Lifting Sea Transportation W. Wardhana, Y.S. Hadiwidodo and F. Siswanto	147
Analysis of the Adhesiveness and Glue Type Selection in Manufacturing of Bamboo Laminate Composite for Fishing Boat Building Material H. Supomo, E.B. Djatmiko, A. Zubaydi and I. Baihaqi	155
Computer-Based Android Application for Vessel's Condition Survey by Owner Surveyor P. Stevan, T.W. Pribadi and S.I. Wahidi	165
Production Capacity Analysis of National Shipyard in Indonesia to Build Sea Toll Ships I. Baihaqi, S.R.W. Pribadi and H. Supomo	174
Network as an Intangible Resource: An Evolutionary Approach within Indonesian Shipbuilding Industry A. Minayora, J. Bryson and Y.F. Zhang	181
Technical and Economic Analysis of Conversion Landing Craft Tank (LCT) into RO-RO Ferry for Route of Ketapang-Gilimanuk F. Rohmadhana and H.A. Kurniawati	189

Chapter 6: Marine Transportation and Logistics

Human Error Assessment and Reduction Technique for Reducing the Number of Marine Accidents in Indonesia L.P. Bowo and M. Furusho	199
Vessel Selection to Support Coal-Fired Power Plant Supply Using Multi Criteria Analysis I.G.N.S. Buana, F. Hadi and T. Shinoda	207
The Improvement of Yacht Entry and Exit Ports as a Marina in Indonesia A.B. Sulistiyono, W. Mutmainnah and M. Furusho	215
Causative Chains that Leads to Ship Collisions in Japanese Maritime Traffic System (MTS) as Final Outcome of MOP Model W. Mutmainnah, L.P. Bowo, A.B. Sulistiyono and M. Furusho	221
