

Table of Contents

Preface

Ion Selection by Redox Changes in a Soluble Helical Polythiophene Channel D.A. Morton-Blake	1
An Overview on Silane Based Metal Pretreatments for Powder Painting A. Özel and H. Çimenoglu	16
Nanomaterials Applications in Modern Metallurgical Processes K. Borodianskiy and M. Zinigrad	30
Diffusion in Quasi-Crystalline Alloys H. Mehrer	42
Molecular Dynamics Study of Mass Transport Properties of Liquid Cu-Ag Alloys U. Sarder, A.V. Evteev, E.V. Levchenko, A. Kromik, I.V. Belova and G.E. Murch	58
Effect of Grain Boundary Geometry on Grain Rotation during Curvature-Driven Grain Shrinkage L.A. Barrales-Mora, J.E. Brandenburg and D.A. Molodov	73
Thermal Decomposition of Supersaturated $Ti_{1-x}Al_xN$ Solid Solution Synthesized by High-Energy Milling M. Radune, M. Zinigrad, D. Fuks, S. Hayun and N. Frage	82
Ambient Blooming Behavior and Mechanical Properties of Vulcanized Natural Rubber Loaded with Non-Ionic Surfactants D.E. Santiago, B. Pajarito, M.J.A. Aparre, K.J.E. Biolena and Y.C.W. Condez	90
Investigation of Solid State Diffusion Processes Involved in the Zinc Oxide Sulfidation Reaction K. Perrin, D. Chiche, J. Perez-Pellitero, O. Politano and S. Chevalier	100
Corrosion Behaviour of Equipment in High Temperatures and Corrosion Resistant Alloys H. Fujikawa	111
Simplified Modeling of Moisture Transfer in Porous Media under Condition of High Temperature Heat Shock Z. Ignaszak	128
