

# Table of Contents

## Preface

## Chapter 1: Structural and Functional Materials

<b>Fluidity Test of Aluminum Alloy</b> H. Fuse, M. Terao and T. Haga	3
<b>Phenomenological Methodology for Designing Optimal Styling in the Design of Panels of Aircraft Structures Made of Laminated Composite Material</b> S.V. Grishsenko	8
<b>An Explicit, Accurate Approach Toward Modeling Irrecoverable Deformation Effects of Shape Memory Alloys</b> L. Zhan, S.Y. Wang, H.F. Xi and H. Xiao	15
<b>Finite Strain Elastoplastic J<sub>2</sub>-Flow Model for Automatically, Accurately Simulating Pseudo-Elastic Effects of SMAs</b> S.Y. Wang, L. Zhan, H.F. Xi and H. Xiao	20
<b>Study on High Temperature Flow Stress Model of As-cast SA508-3 Low Alloy Steel</b> P.F. Fan, J.S. Liu, H.P. An and L.L. Liu	25

## Chapter 2: Metallurgical Technologies and Mechanical Processing of Materials

<b>Optimization of Cutting Parameters for Improving Surface Roughness during Hard Milling of AISI H13 Steel</b> T.V. Do, Q.M. Nguyen and M.T. Pham	35
<b>Investigation of Burr on Strips Cast by Vertical-Type High-Speed Twin Roll Caster</b> T. Haga, T. Yamashiki, H. Watari and S. Niahida	40
<b>Casting of Bar Using a Twin Wheel Caster</b> T. Haga, K. Tuchitani, H. Warari and S. Nishida	46
<b>Finishing Performance of the Abrasive Flow Machining in Complex Holes by Using Helical Cores</b> A.C. Wang, K.C. Cheng, K.Y. Chen and Y.C. Lin	52
<b>Study the Effect of Laser Nozzle and Lens Design on the Oxygen Supply System for CNC Gas Cutting Machines</b> M.S. Hassan, H.T. Shomran and J.A. Jaber	57
<b>Forming Technology and Simulation of Large Head Forgings</b> X. Jia, J.S. Liu, H.P. An and M. Qin	64
<b>Effect of Process Conditions on Residual Stress in Laser-MAG Welding of High Strength Steel</b> Z.F. Tian, J.F. Li, Z.X. Chen and Z.N. Wang	71

## Chapter 3: Building Materials and Technology in Construction

<b>Study of the Behaviour of Senegalese Ballast Materials during Compaction with the C-Mould: Case of Bandia Limestone and Diack Basalt</b> L. Sow	81
<b>Effect of Water Conditions on Macro-Cell Corrosion Potential Difference and Current Density of Reinforcing Steel in Concrete</b> Z.L. Cao	87
<b>Strength Design of the Eccentric Load in Unequal Single Angle</b> W.T. Hsu, R.Y. Liu and S.T. Chung	95
<b>Rheological Study on Cemented Coal Gangue Fly-Ash Backfill Slurry Associated with Fly Ash Impacts</b> J. Yang	100

<b>Study on Application of Vibration Response Control System on a Teaching Hospital Foundation Structure that Subjected to Earthquake Excitation</b> N. Wahyu, A. Nabila and H.R. Firhan	105
<b>The Effect of Nano Cement on the Compressive Strength of Coconut Fibers Reinforced Concrete Composite</b> R.H. Lumingkewas, S.P. Hadiwardoyo, A. Husen and Saepudin	110

## **Chapter 4: Chemical Synthesis and Chemical Processing**

<b>Improvement of Electrical Conductivity of Polyamide 6/Polyaniline Blends by Graphene</b> S. Suksanit, P. Pattananuwat and P. Potiyaraj	117
<b>Improvement of Electrical Conductivity of Polyurethane/Polypyrrole Blends by Graphene</b> P. Janpoung, P. Pattananuwat and P. Potiyaraj	122
<b>Phase Transformation of Nanocrystalline Diamond Films: Effect of Methane Concentration</b> S.T. Khlayboonme and W. Thowladda	127
<b>Photoelectrocatalytic Degradation of C.I. Basic Blue 9 under UV Light Using Silver-Doped Titanium Dioxide Nanotubes</b> E.C.R. Lopez, V.A.F. Cleofe, R.Y.A. Cañal, K.F.P. Boado and J.V.D. Perez	132
<b>Humic Acid Functionalized - Silver Nanoparticles as Nanosensor for Colorimetric Detection of Copper (II) Ions in Aqueous Solutions</b> E.C.R. Lopez, M.A. Zafra, J.N.L. Gavan, E.D.A. Villena, F.E.P. Almaquer and J.V.D. Perez	142
<b>The Effect of Carbon Black on Electrical, Thermal-Oxidative Stability, and Structural Properties of Polypropylene/Clay Nanocomposite</b> Y.A. Swasono	151

## **Chapter 5: Textile Materials and Technologies**

<b>Examining the Water Vapour Transmission of Socks</b> W.Y. Wang, K.T. Hui, C.W. Kan, M. Viengsima, N. Wansopa, K. Promlawan, W. Wongphakdee and R. Mongkholrattanasit	159
<b>The Effect of Plasma Pretreatment of Dyeability of Silk with Acid Dye</b> W.Y. Wang, W.C. Ma, C.W. Kan, C. Sarikanon, C. Sarikanon, S. Kunadiloke and R. Mongkholrattanasit	165
<b>A Study of Relative Hand Value of Quick Dry Inner Wear</b> W.Y. Wang, H.H.L. Yim, C.W. Kan, S. Chanuntawaree, S. Chonsakorn, S. Udon, M. Peangsai and R. Mongkholrattanasit	171
