Preface, Organizing Committees, Sponsor

Chapter 1: Properties and Technological Characteristics of Polymeric and Composite Materials

Effect of Rotation Speed and Discharging Temperature on SSBR-Silica Interaction J.W. Liu, T. Zhuang, G.S. Yu and S.G. Zhao	3
Effects of Liquids on Physicochemical Properties of Fluorosilicone Rubber J.M. Cheng and S.G. Zhao	9
Study on Carbon Nanotube Dispersion Behavior in Epoxy Resin under Synergistic Effect of Continuous Stretching Flow and Ultrasound Oscillation K.T. Dai, Y. An, Z.W. Jiao, J.Y. Zhuang, Y.X. Qin, Y.M. Ding and W.M. Yang	14
Effects of Foaming Temperature on Super Light Particles of Polypropylene Prepared by Batch Method C. Zhang, L. Qin and H.C. Yu	22
Formation and Evolution of Chemical-Physical Complex Network during Vulcanization in Carbon Black Filled Natural Rubber (NR) G.S. Yu, J.W. Liu, J.M. Cheng and C. Sun	27
Study on the Acquisition Method of Tire Rubber Parameters Based on Simple Shear Test R.Y. Wang, J.Y. He, Y. An, Y.K. Hu, X.H. Fu, W.M. Yang and J. Tan	32
Structure and Electrical Conductivity of Polystyrene/Carbon Black Composites Prepared by Microlayer Coextrusion C.J. Li, L.Z. Xiong, C.J. Yuan, Z.W. Jiao and W.M. Yang	38
Study on the Reinforcement of ZDMA in EPDM S.Z. Guo, T. Zhuang, X.F. Luan and S.G. Zhao	47
Studies on Mechanical Properties and Dynamic Performance of SSBR/CB/Silica Composites W. Liu, L. Li, B.K. Han and C.Z. Zong	52
Study on Flexible Fatigue Properties of Nature Rubber with Different Styrene-Butadiene Rubber W. Liu, Z.C. Bao and C.Z. Zong	57
Thermal Performance of a Shape-Stabilized Phase Change Material Floor with Different Heating Positions B. Zhang, Q.H. Sun and W.T. Liu	62
Advances in Microcellular Foam Processing of PLA Z.Z. Han, Y.C. Zhang, W.M. Yang and P.C. Xie	68
Crystal Structure and Thermal Property of 1-Ethyl Acetate Pyridinium Ionic Liquid Y.M. Zhao, Y. Su, H.M. Cui, C.Z. Zheng and J. Yang	73

Chapter 2: Materials Processing Technologies

Design of a Plastic Auto's Door Based on the Rotational Molding Process T.K. Shan, C.T. Chen and J.D. Huang	79
Research on the Passenger Car Tire Retreading Technology and Processing P. Fu, X.P. Zhao, X.F. Su and H. Yan	86
The Numerical and Experimental Research of Impacts that Shearing Action and Stretching Action of Open Mill Mixing Have on Rubber Mixing Properties H.G. Bian, X.L. Tian, Y.R. Pan and X.L. Xu	91
Study of Grinding Hardening Force Based on the Influence of Grinding Arc Temperature and Workpiece Deformation Y. Zhang, X.J. Meng and Z.J. Yuan	98

Temperature Effect on Sorption Capacity of PP Melt Electrospun Ultrafine Fibers in Marine Oil Spill Clean up	
M.M. Bubakir, W.L. He, H.Y. Li, Y.M. Ding and W.M. Yang	104
The Effect of Low-Intensity Static Magnetic Field on Ni-P-PTFE Electroless Composite Plating Coatings	
J.Y. Hou, H.J. Gao, X.L. Liu, Y. Jiao and L. Liu	112
Review of Research Progress on Size Effect in Micro-Forming	
T.T. Qiu, Y.K. Hou and H.L. Cao	118
Design of Injection Mold and Research of Process for Plastic Parts Based on CAE Analysis	
D.M. Jiao, F. Deng and W.M. Yang	122

Chapter 3: Properties of Rock Mass

Compressive Properties of Rock Mass with Horizontal Weak Interlayer	
J.G. Li	131
A Study of Creep Similarity Criterion of Soft Rock in Temperature-Stress Environment	
Z.G. Ma and Y.Y. Wang	136
Experimental Study on Self-Made Similar Material of Soft Rock	
J.G. Li, Y. Wu, Y.Y. Wang, N. Qin and W.X. Wang	140
