

Table of Contents

Preface

Chapter 1: Steel, Alloys, Coatings, and Machining Technologies

| | |
|---|----|
| Multiple-Shot Impact Model for Vibration-Assisted SMAT Process | |
| E. Yarar and A.T. Erturk | 3 |
| Analysis of Welding Technology about Bimetallic Clad Pipelines | |
| F.S. Wang, F.G. Li, Y.J. Li, X.Q. Mao, B.C. Liu and G. Hong | 9 |
| Study on Tensile Fracture Behavior of New Type High Temperature Titanium Alloy Ti-Al-Nb at Room Temperature | |
| S. Fang, M.C. Zhang, Q.Y. Yu and H.P. Xiong | 14 |
| Study on Coating Mechanism and Properties of Die CrN+DLC Layer | |
| L.J. Han, Q.W. Wu, X.S. Wu, Z. Zhang and H.S. Ma | 22 |
| Investigation on the Microstructure Hardness for the Hot Compressed Duplex Steel | |
| S.L. Zhang, X.D. Zhang, H.F. Xu and C. Wang | 30 |
| Influence of Heat Treatment on Corrosion and Electrochemical Behaviour of Al-Mg-Si-Ag Alloys with Different Mg/Si | |
| Y.Y. Zheng, T. Long and B.H. Luo | 38 |
| Effects of Welding Wire Composition on Microstructure and Mechanical Properties of Welded Joint in Al-Mg-Si Alloy | |
| L. Wang, Y.Y. Zheng and S.H. Hu | 44 |
| Effect of Two-Stage Aging on Microstructure and Properties of Al-Mg-Si Alloys | |
| L. Wang, Y.Y. Zheng and S.H. Hu | 51 |
| Effect of Mg/Si Ratio on Hardening Behavior, Microstructure and Properties of Al-Mg-Si Alloys | |
| Y.Y. Zheng, T. Long and B. Li | 56 |
| Effect of Sealing Treatment of Modified Aluminum Phosphate Sealing Agent on Corrosion Resistance of Fe-Based Amorphous Coating | |
| C.F. Li, X.J. Yang and D.Y. He | 61 |
| Fracture Behavior of the Hot Rolled Strip's Surface Scale Layer from Different Impacts Angles | |
| S. Wang, R.C. Hao, H.G. Liu, X.C. Wang and Q. Yang | 67 |
| Research on the Cutting of Rectangular Blanks to Solve the Two-Dimensional Problem | |
| J. Ji, J. Cui and M.D. Shi | 73 |
| Study on Production Process, Microstructure, Properties of 15MnNbR Pressure Vessel Steel | |
| L.L. Feng, W.W. Qiao, Z.Q. Song, Z.M. Cao, Y.J. Yang and S. Liu | 78 |
| Continuous Cooling Transformation Behavior of High Carbon Pearlitic Steel | |
| L.L. Feng, W.W. Qiao, J. Sun, D.F. Li, P.P. Li and T.D. Cao | 83 |

Chapter 2: Materials for Electronics and Optoelectronics

| | |
|---|-----|
| The Effect of Substituting Ga for Alon Crystal Structure of Phosphors $MA_1.2Si_2O_8: Eu^{2+}$ ($M= Ca, Sr, Ba$) | |
| F. Wang, H.H. Chen and S.W. Zhang | 91 |
| Improved Optical and Electronic Properties of Single-Layer MoS₂ by Co Doping for Promising Intermediate - Band Materials | |
| A.Y. Li, H.X. Shen and X.C. Wang | 96 |
| A Novel 1D Organic Lead Halide Hybrid for Blue and White Dual Emission | |
| S.J. Yue, C.X. Zhou and B.B. Cui | 103 |
| Third-Order Nonlinear Optical Properties of Ge-Ga-S Chalcogenide Glasses | |
| H.N. Hu and J.F. Zhou | 109 |

Chapter 3: Materials for Energy Storage

| | |
|---|-----|
| Theoretical Research on Structure and Infrared Spectra of the 9-Methacrylate Carbazole Molecule | |
| H. Li, B. Guo, K. Wang and M.Y. Zhou | 117 |
| Spinel LiMn₂O₄ Nanorods via Template-Engaged Method and as Cathode Materials for Li-Ion Batteries | |
| L. Li, Q. Liu, J.S. Cheng and R.F. Zhao | 122 |
| Thermo-Resistive Flexible All-Solid-State Supercapacitor Printed by Laser Lithography | |
| Y.K. Hua, Z.Y. Meng and Z.L. Huang | 127 |
| SnSe/Cu₂SnSe₃ Heterojunction Structure with High Initial Coulombic Efficiency for Lithium-Ion Battery Anodes | |
| B.J. Yang, R. Xia, S.B. Jiang and M.Z. Gao | 135 |
| Salt Template-Derived Fe-N Co-Doped Ultrathin Carbon for Boosted Performance of Supercapacitors | |
| Y. Qiao, Z.X. Zhu, D. He, S.B. Jiang, T.F. Yu, F. Liu and M.Z. Gao | 142 |
| An Effective Designing of Supercapacitor Mitigating Self-Discharge | |
| S.M. Zhang | 147 |
| Effect of Carbon Source on Synthesis of Carbon Coated Lithium Titanate | |
| R. Yang, C.R. Zhao, S.R. Kan and M.J. Yuan | 160 |

Chapter 4: Materials for Sensors and Materials Detection Technologies

| | |
|--|-----|
| The Fluorescence Characteristic of AO-RB-SDS-GMFX and the Determination of Gemifloxacin | |
| H.P. Xi, X.W. Fang and B.H. Wu | 169 |
| A Study on the Interface Diffusion of In₂O₃/ITO Multilayer Thin-Film Thermocouple | |
| Y.Q. Xue, Y.D. Wang, D.Y. Lei and Y.F. Sun | 174 |
| Research on Failure Mechanism and Thermal Stress of Thin-film Thermocouple at High Temperature | |
| T.C. Hu, J.F. Wang, Y.Y. Xi and Y.F. Sun | 184 |
| Preparation of Graphene/MoS₂ Composite for Detection of Dopamine | |
| L.L. Cai and X.Q. Jiang | 192 |
| Preparation of Manganese Dioxide/Graphene Nanosheets for Determination of Hydrogen Peroxide | |
| Y.Y. Li, B.J. Hou, X. Li and X.Q. Jiang | 198 |
| Pd Doped Ag@C Core-Shell Nanocomposite for Electrochemical Sensitive Determination of Bisphenol A | |
| N. Dong, K. Cao, C.X. Si and D. Zheng | 204 |
| Evaluating H₂O₂ in Living Bacteria by Ratiometric Fluorescent Probe | |
| Q.Q. Chen | 210 |

Chapter 5: Polymers and Composites

| | |
|--|-----|
| Effect of Vinyl-Terminated Silicone Oil Chain Length and Reinforcing Agent on the Properties of Silicone Rubber | |
| H.W. Pan, C.G. Zang and Y.L. Zhang | 221 |
| Fit and Evaluate the Viscous Models Used for ABS | |
| Q.M. Mo, S.X. Zhang, T.F. Chen and W. Cao | 231 |
| Preparation and Characterization of Starch Active Interface Calcium Carbonate for Biodegradation | |
| X. Han, Y.H. Lao, J. Lan, S.Q. Tan, J.H. Song, R.J. Cen and Y.S. Huang | 238 |
| Progress in Foldcore Sandwich Manufacturing and Application | |
| H.W. Tian, H.F. Chang and H.J. Ye | 246 |
| The Study of Enhanced Mechanical Properties for Cu/Gr/2024Al Composite | |
| F.G. Liu, Y.N. Zhang, H. Chen, S.C. Li and R.G. Guan | 254 |

Chapter 6: Materials for Biomedical Application

Effect of Bentonite on the Structure and Performance of Sodium Alginate as Microsphere Carrier of Essential Oil

H. Wang, C.Y. Hou and Y. Bai 271

Positive Osteocalcin Expressions in Periodontium Regenerated by Nano Bioceramics after Orthodontic Tooth Movement

L.L. Wang, J.X. Zhang, Y. Li and S.N. Zhao 277

Preparation and Property of Antibacterial Nucleus with the Combination of Nano-Silver and Antibiotics

J. Sun, L.X. Zhou, X.H. Li and M. Xia 282

Neurotoxicity Study with Titanium Dioxide Nanoparticles on Rat

J. Chen and C.D. Zhou 288

Chapter 7: Building Materials and Structural Elements

Simulation of Concrete in Winter with Self-Limiting Heating Band

L. Liu and M.Q. Zhang 297

Optimization of the Pozzolanic Activity of Coal Gangue Waste for Eco-Efficient Cementitious Materials

Y.J. Liu, Z.J. Wang, R.F. Li and R.L. Xu 303

Test and Calculation Model of Thermal Conductivity of Concrete

L. Liu and J.C. Wang 314

Effect of Ether-Typed Polycarboxylate Superplasticizer on the Adsorption, Rheology and Concrete Properties

Y.H. Fang, Z.H. Chen, X.F. Zhang, Z.J. Lin, H. Chen, Y.L. Ke and X.X. Ma 320

Study on the Synthesis, Properties and Characterization of EPEG Slump Retaining Typed Polycarboxylate Superplasticizer

Y.H. Fang, Y.L. Ke, H.Z. Lai, Z.P. Wang, L.N. Zhong and X.X. Ma 325

Chapter 8: Environmental Safety and Waste Disposal

Reclamation of Abrasive Slurry to Obtain SiC Ceramic Material

S.F. Yang, C.L. Chen, K.L. Chien, C.C. Liang and H.H. Chuo 333

The Adsorption and Regeneration of Magnetic Modified Bentonite Composite for Dye Wastewater

B. Jiang, S.H. Feng and J.P. Zhang 338

The Transformation of Green Rusts on the Surface of Portland Cement Hydration Materials

B. Jiang 344

Chapter 9: Materials in Agriculture and Bioproduction

Effects of Phosphorus on Growth and Development of Soybean Seedlings

Z.X. Liao, X.H. Li, Y.B. Xue, N.D. Yang, Z.W. Wu and Y. Liu 353

Effect of Different Factors on Callus Induction from Leaf Explants of *Jatropha curcas* L.

Y.H. Zhou, J.Y. Chen, S.X. Yang, Y.B. Xue and Y. Liu 359
