

Table of Contents

Synthesis and Properties of Polyurethane - Dispersed Diazo Black GNN Polymer Dye Z.L. Wang, C.L. Cheng, X.H. Hu and J. Garcia	1
Study on Simulation of Injection Process and Optimization of Process Parameters of Polypropylene Bottle Embryo P. Wu, Y.M. Wang and X.J. Shan	11
The Study on Material Preparation and Adsorption Properties of Magnetic Smaller Sized Fe₃O₄ Load on Multi-Walled Carbon Nanotubes L. Wang, J.Q. Wan, Y. Wang and Y.C. Wei	21
Research on the Contaminants Adsorption and Removal by Macroporous Resins in the Textile and Dyeing S. Han, M. Li, Q. Zhang, M. Zhong and F. Lu	32
The Research of Durability of Asphalt Concrete Bridge Deck with Little Polyester Fiber Content in Cold Regions X. Liu, X.M. Yu, C. Xu and J.W. Chu	41
Strengthening Effect of Graphene Oxide on Mechanical Properties of Interface Transition Zone of Recycled Concrete K. Guo, J.H. Zhou, M. Liu and L. Liu	49
Effect of Nanomaterials on Mechanical Properties of Fiber Reinforced Concrete Z.L. Sheng, Y.F. Duan, D.T. Xia and O. Thierry	59
Electrochemical Sensor under Nanostructured Materials G. Li	70
Charaterization and Preparation of PA6/EPDM-g-MAH/OMMT Polymer Alloys Nanocomposites H.P. Liu, P.Y. Li, Z. Gu, L. Wang and G.J. Song	80
Investigation of Polymer/OMMT Nanocomposites-Influence Factor and Mechanism of Substructure Morphology S.H. Zhao, P.Y. Li, Z. Gu, L. Wang and G.J. Song	89
Study on the Properties of Thermoplastic Resin-Based Carbon Fiber Composites Based on the Wrapping Method in the Art Design of Seating S.L. Xue	98
Study on Micromachining of Femtosecond Laser Biomedical Polymer Materials L.M. Fang, Z. Qiao, J. Zhang and G.D. Kumar	109
Corrosion Resistance of Partially Stabilized Zirconia Materials to Alkaline Steel Slag L. Zhao, Q. Huang, H.Y. Sun and X. Li	119
Research and Analysis on Damage of Marine Ship Structures by Composite Materials Based on FEM Numerical Simulation H.B. Xie, Z.J. Liu, Y. Song and S.B. Zhou	129
Effect of Rare Earth Oxides on Properties of Nano Antibacterial Ceramic Glaze G.F. Liu	139
Influence of Different Fibers on Cracking Resistance of Shaft Wall Mass Concrete J.W. Zhang, F.Z. Li and S.J. Liu	150
Experimental Study on Composite Phase Change Thermal Insulation Mortar Y. Zhou and S.X. Wang	160
Improving the Performance of Soluble Rubber Powder Asphalt Mixture with Eucommia Gum Grafted with Maleic Anhydride S.M. Yan, N.S. Guo, S.G. Yan and X. Jin	170
Study on Rheological Properties of Silica Sol in Sisal Fibber Reinforced Investment Casting Z. Ying and C. Satyajit	180
Experimental Study on Aging Performance of Building Membrane Materials B. Wang, J. Zheng, F.C. Wu and S. Otaka	189
Application of Glass Fiber Reinforced Composite Materials in Construction Engineering Y.L. Chen and S. Ueharo	199
Performance Analysis of Bentonite-PVA Fiber Cement-Based Composites for Building Based on BP Neural Network Z. Shen	209
