

Table of Contents

Preface

TMF Influence on Weld Structure at the Welding of 12X18H9T A.D. Razmyshlyayev, M.V. Ahieieva and E.V. Lavrova	1
Welding Incident Mitigation at Mechanical Engineering Y.V. Anishchenko, A.N. Vtorushina, T. Zadorozhnaya and V.E. Gorshkova	6
The Structure, Microhardness and Wear Resistance of Coatings Obtained through Non-Vacuum Electron Beam Cladding of Chromium and Titanium Carbides on Low Carbon Steel T.A. Krylova, K.V. Ivanov and V.E. Ovcharenko	13
The Current State of Application of Ultra- and Nanostructured Powders in Technologies in Welding Technologies (Review) M.A. Kuznetsov and E.A. Zernin	20
Structure and Crack Resistance of N-A-XTRA-70 Steel Joints Manufactured by Hybrid Laser-Arc Welding V. Pozniakov, L. Markashova, O.M. Berdnikova, T. Alekseenko and S. Zhdanov	29
Separation of Abrasive Materials According to the Form D.B. Shatko, V.S. Lyukshin and P.A. Strelnikov	35
Restoration of Agricultural Machines Surfaces by White Cast Iron with the Formation of Technological Repair Units V.K. Afanasyev, A.P. Chernysh and S.V. Dolgova	43
Porous Barriers Efficiency Research under the Compact Elements High - Speed Loading E.N. Kramshonkov, A.V. Krainov and E.N. Pashkov	48
Numerical Simulation of Thermal Processes in Welding with Pulsed Electrode Wire Feeding D.P. Il'yaschenko, V.I. Berg, A.V. Kryukov and A.A. Saranchin	55
Multi-Pass Laser and Hybrid Laser-Arc Narrow-Gap Welding of Steel Butt Joints V. Shelyagin, V. Khaskin, A. Bernatskiy, A. Siora, V. Sydorets and D.A. Chinakhov	64
Material Wear Resistace Increase of Tillage Machine Working Tools with Electro-Sparkling Application o Coating Layer O.V. Sankina and V.K. Afanasyev	72
Machining of Titanium Alloys with Wave Milling Cutters G.I. Korovin, S.I. Petrushin and R.H. Gubaidulina	79
Influence of Composition of Binder of Electrodes Coating on Cytotoxicity of Welding Aerosols O.G. Levchenko, A.O. Lukianenko, O.V. Demetska and O.Y. Arlamov	86
How Dynamic Properties of Inverters Influence Electrode Metal Transfer to the Weld Pool, and Change Structural and Phase Composition of Welded Joints Produced via High Alloyed Electrodes D.P. Il'yaschenko, D.A. Chinakhov, R.A. Mamadaliev, V.I. Danilov and A.A. Saranchin	93
Energy Parameters of Weld Formation Process in MIG-MAG Welding D.A. Chinakhov, S.A. Solodsky, P.V. Rodionov and V. Sydorets	99
Effect of Various Heat Sources on Heating of Contact Tip during Mig/Mag Welding D.E. Kolmogorov, S.A. Solodsky, L.B. Gil and V.I. Berg	106
Effect of TIG-Welding on the Structure and Mechanical Properties of the Pseudo-β Titanium Alloy VT19 Welded Joints S.V. Akhonin, V.Y. Belous, V.A. Berezos and R.V. Selin	112
Effect of Heat Treatment on the Structure and Properties of Titanium Alloy VT22 Welded Joints Produced by TIG-Welding with Flux-Cored Wire V.P. Prilutsky, S.V. Akhonin, S.L. Schwab and I.K. Petrychenko	119
Developing New Powder Wire for Surfacing Details which Works in the Wear Resistance Conditions A.I. Gusev, N.A. Kozyrev, I.V. Osetkovskiy and A.A. Usoltsev	126
Comparison of Two Methods of Cutting Temperature Calculation V.L. Bibik, N. Ivushkina and A. Bibik	134

Correlation between Properties of Oxide Compounds Formed on Contact Surfaces of Cutting Tools and Cutting Tool Wear Resistance V.P. Nesterenko, A.A. Lasukov and O.Y. Retyunskiy	141
Improvement of Research Procedures into the Highly Rigid Welded Metal Using Thermal Microscopy Facilities N.N. Malushin, D.V. Valuev, D.P. Il'yaschenko, R.A. Gizatulin and R.Y. Nekrasov	148
Investigation of Thermal Cycle Effect on Hardening of Deposited High-Speed Metal S.A. Solodsky, A. Malchik and D.V. Valuev	153
Superminiature Eddy-Current Transducers for Studying Steel to Dielectric Junctions S. Dmitriev, A. Ishkov, V.N. Malikov, A. Sagalakov and L.I. Shevtsova	161
Technological Improvement of Surfacing of Parts of Hammer Crushers Used in Coke-Chemical Industry N.N. Malushin, D.V. Valuev, D.P. Il'yaschenko, V.A. Trifonov and R.Y. Nekrasov	168
The Comparison of Thermal Insulation Materials for a Process Pipeline P.A. Tretiakova, O.A. Stepanov and T.V. Tretyakova	176
System for Centralised Collection, Recycling and Removal of Waste Pickling and Galvanic Solutions and Sludge N.A. Merentsov, S.A. Bokhan, V.N. Lebedev, A.V. Persidskiy and V.A. Balashov	183
Selection of Complete Recovery of Precious Metals in the Processing of Copper-Nickel Alloys in Hydrometallurgical Way D.V. Gorlenkov, I.V. Gorlenkova, I.I. Beloglazov and V.Y. Timofeev	190
Formation and Utilization of Recyclable Wastes at Engineering Enterprise V.F. Torosyan, X.L. Zeng, E.S. Torosyan, A.N. Lazareva and E.P. Tesleva	195
The Development of Technology of Basalt Nanocomposite Coatings Detonation-Gas Spaying on the Disk («Target») Basis of Thin Layer Magnetron Spaying Equipment T.A. Sitnikova, E.B. Zhukov, T.A. Golovina, N. Saprykina and E.P. Tesleva	201
