

Table of Contents

Preface

Porous Barriers Efficiency Research under the Compact Elements High-Speed Loading (Part Two) E.N. Kramshonkov, A.V. Krainov and E.N. Pashkov	1
Studies of Kinetic Plasticity Effect in High-Speed Steels under Martensite Transformation L.G. Demenkova, S.A. Solodsky and D.P. Ilyashchenko	8
Theoretical and Technological Basics of the Friction Units' Resource Increasing V.E. Ovsyannikov, R.Y. Nekrasov, M.V. Deneko, U.S. Putilova and D.P. Il'yaschenko	15
Simulation of the Carbon Diffusion Saturation Gear from 15Cr2 Steel in the Cementation Process A.N. Venediktov, R.Y. Nekrasov, M.S. Kuzmin, D.P. Ilyashchenko and M.V. Deneko	24
Effect of Protective Coatings in Welded Constructions on Welding Stability and Electrode Metal Transfer into a Weld Pool in MMA D.P. Il'yaschenko, D.A. Chinakhov, E.V. Verkhoturova and R.A. Mamadaliev	32
Electric Arc Deposition of an Anticorrosive Layer with Two Strip Electrodes V. Ivanov, N.A. Makarenko, E. Lavrova and M.V. Ahieieva	39
Pore Formation during Laser Welding in Different Spatial Positions A. Bernatskyi, V. Sydorets, O.M. Berdnikova, I. Krivtsun and D.A. Chinakhov	47
SEM Studies on the Microstructure and Phase Composition Distribution in Cr₃C₂ + TiC Claddings on Low-Carbon Steel K.V. Ivanov and V.E. Ovcharenko	59
Analysis of Thermal Processes during Friction Stir Welding of Metals A. Maystrenko, V. Nesterenkov, V. Dutka, V. Lukash and S. Zabolotny	67
Preparation a Scrap of the Electronic Enterprises and its Subsequent Processing D.V. Shmidt, B. Issa and V.Y. Timofeev	79
Study of Surface Layer Hardening after Treatment Complex Tool K.S. Mitrofanova	89
Phase State Diagrams of a Four-Component System Al-Si-N-O - Analysis of the Thermodynamic Stability of Sialon Compounds Dased on Energy Crystal-Chemistry V.A. Vlasov, A.A. Klopotov, V.I. Vereshchagin, O.G. Volokitin, K.A. Bezukhov, N.P. Gorlenko and N.A. Tsvetkov	97
Heatproof Relaxation of Welding Stresses Openwork Designs of Large Size Ultrasonic Field N.K. Toan and E. Kiselev	104
Structure and Phase Composition of Ni-Al-Co-Me-Based Alloy Containing Rhenium and Ruthenium E.L. Nikonenko, N.A. Popova and N.A. Koneva	111
The Influence of Welding Mode on the Structural-Phase State of Steel 0.12C-18Cr-10Ni-1Ti-Fe at Welding by Modulated Current A.N. Smirnov, N.A. Popova, E.L. Nikonenko, N.V. Ababkov, K.V. Knyazkov and V.L. Knyazkov	118
Internal Stresses and their Sources in BCC and FCC Steels N.A. Koneva, N.A. Popova and E.L. Nikonenko	128
Study of the Elasto-Plastic Deformation of the Steel/Steel Adhesive Joint Using Digital Image Correlation Method A. Ustinov, A.A. Klopotov, A.I. Potekaev, S.B. Galsanov, Y.A. Abzaev, O.G. Volokitin and Y.A. Vlasov	143
Structural-Phase State of UFG-Titanium Implanted with Aluminum Ions A.V. Nikonenko, N.A. Popova, E.L. Nikonenko, M.P. Kalashnikov and I.A. Kurzina	161
Numerical Modeling of Heat Process during MIG Welding of High-Strength Pipes with Account Structural-Phase Transformations V. Atroshenko, R. Nikiforov, O.V. Murugova and I.M. Gatiyatullin	169
Finite Difference Model of Temperature Fields in Linear Friction Welding A.U. Medvedev, V.R. Galimov, I.M. Gatiyatullin and O.V. Murugova	175
